from underdetermined linear measurements and has become one of the main research topics in the signal processing area for the last two decades 18 19 20 21 22 23  
*application of compressed sensing theory to radar signal processing* - Mar 19 2023  
 jul 11 2010 abstract compressed sensing theory is a newly developed theory which unites the signal sampling and compression based on the sparsity characteristic of signal the union can

reduce sampling rate and then reduce computational complexity of the system without the loss of the performance of the system
