The first part of the book consists of a list of proper names, terms, and concepts relating to New Testament narratives represented. The second part of this text is organized according to the ICONCLASS alphanumeric codes, their order reflecting the Biblical sequence of narrative.

**Aldous Huxley, Representative Man** James Hull, 2004 This psychological reading of Huxley's oeuvre as a whole traces Huxley's self-transformation in his books and aims to do justice to the artist and the person who was Aldous Huxley. It is safe to regard as basic to his entire work the unfolding of the conflict we find so clearly delineated in his early short story *Farcical History of Richard Greenow* (Limbo, 1920), with Pearl Bellairs representing the emotional tradition that threatens the synthetic philosopher. Huxley's own story is plainly visible even in *Limbo* and *Crome Yellow* (1921), but it is in *Antic Hay* (1923) that the pattern of the future assumes a solid foundation. There we encounter in full force the tensions that follow him throughout his life: on the one hand an extreme of sensuality and on the other a longing for the chaste pleasures, for a quiet and mystical world completely different from that in which he found himself. The question of the relations between body and mind as well as the mystery of human consciousness haunt him to the very last, but after his mid-life crisis, depicted in *Eyeless in Gaza* (1936), a strong faith in the reality of a spiritual world is obvious. In the end he even manages to reinstate the body in his scheme of things. (Series: Human Potentialities. Studien zu Aldous Huxley & zeitgenössischer Kultur/Studies in Aldous Huxley & Contemporary Culture - Vol. 5)

*Aldous Huxley* Nicholas Murray, 2003-03-24 "[A] generous and intelligent biography" of the twentieth-century luminary and author of *Brave New World* (The Guardian, UK). When Aldous Huxley died in 1963, he was considered one of the most important English writers of the twentieth century. Known for his dystopian satire, *Brave New World*, and his experimentation with drugs that preceded the 1960s psychedelic (a term he invented) era, Huxley seemed to embody the condition of twentieth-century man in his restless curiosity, his search for meaning in a post-religious age, and his concern about the misuses of science and the future of the planet. This biography of Huxley draws on unprecedented access to the author's private papers, as well as numerous interviews with his family and friends. It is a portrait of a daring and iconoclastic novelist; a man hampered by semi-blindness, who spent a restless life in search of personal enlightenment. Nicholas Murray charts Huxley's Bloomsbury years, his surprising and complex relationship with D. H. Lawrence, and his emigration to America in the late 1930s, where he pursued a career as a screenwriter while continuing his fascination with mysticism and religion. Huxley's private life was also unconventional, and this book reveals for the first time the extraordinary story of the ménage à trois including Huxley, his remarkable wife, Maria, and the Bloomsbury socialite, Mary Hutchinson. Huxley is revealed as one of the most intriguing and complex figures of twentieth-century English writing. In an era of intense specialization he transcended conventional categories, to become an influential novelist, poet, biographer, philosopher, social and political thinker.

**Mary Berenson Diaries 01 1891-1900** Mary Berenson, 2024-03-31

*Giotto the Painter. Volume 1-3* Michael Viktor Schwarz, 2023-04-17 Vol. 1: Life Giotto (1334) is the first European artist about whom it is possible to write following the schema of life and work. The situation of the sources, however, is complicated: On Giotto's life, there are - on the one hand - biographical accounts from the mid-fourteenth century onwards that responded to various ideological requirements (patriotism, humanism, Renaissance ideology, cult of the artist); on the other, there is extensive documentary material from Giotto's lifetime, which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder. The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre-modern artist. Vol. 2: Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources. These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300: while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans, his artistic path began in Rome in the shadow of the Curia. The breakthrough to his own artistic concept came immediately before and during his work in Padua. In addition to prominent churchmen, ecclesiastical institutions, and the King of Naples, his clients were predominantly members of Italy's urban and financial elites. The adoption and further development of his inventions by other - especially Sienese - painters pressured him in his later years to try new approaches

again. Vol. 3: Survival Giotto is considered by many to be the founder of modern painting. This thesis is discussed and modified in the present volume on an empirical basis. What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature. Rather, his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences. The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological, narrative and allegorical content of great complexity outside the media of language and text, which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies.

**Florence Under Siege** John Henderson, 2019-08-20 A vivid recreation of how the governors and governed of early seventeenth-century Florence confronted, suffered, and survived a major epidemic of plague. Plague remains the paradigm against which reactions to many epidemics are often judged. Here, John Henderson examines how a major city fought, suffered, and survived the impact of plague. Going beyond traditional oppositions between rich and poor, this book provides a nuanced and more compassionate interpretation of government policies in practice, by recreating the very human reactions and survival strategies of families and individuals. From the evocation of the overcrowded conditions in isolation hospitals to the splendor of religious processions, Henderson analyzes Florentine reactions within a wider European context to assess the effect of state policies on the city, street, and family. Writing in a vivid and approachable way, this book unearths the forgotten stories of doctors and administrators struggling to cope with the sick and dying, and of those who were left bereft and confused by the sudden loss of relatives.
