**Raffaela Di Napoli**

*The Metaphysics of the Runes* Harold Mantius, 2013-05-13 A major breakthrough in our understanding of the Metaphysics of Life, this book ultimately achieves, through a comprehensive ideographic decipherment of the runes, what many scholars have so earnestly sought: the synthesis of science and religion! Succinctly put, by employing the runes to systematically entwine and crosslink the Dual Ideological Strands of the Iron Logic of Natural Law and the Religion of the Blood, as the Mystical Yarn of Heathen (e.g., Norse) Mythology and Prime Philosophical Thread of a Wholesome/Nature-Attuned Worldview, the Intellectual Fabric of a Sane Moral Outlook was methodically re-woven, and in so doing, the erstwhile antithetical thought-worlds of science and religion brought back into harmony. Moreover, included within are the following specifics: 1. A brief explanation of the spatial geometry of Norse mythology (Chapters 1 through 4); 2. A concise summation of the simple and straightforward ideographic rules governing an accurate interpretation of the runes (Chapter 5); 3. A systematic disclosure of the substantive meaning of 898 runic symbols (Chapter 6), with the meaning of 1,035 runic symbols revealed in total (Chapters 5 and 6 plus the Addendum); and, 4. As a redemptive lifeline cast across the Intellectual and Spiritual Abyss of the Lost Soul (the Howling Chasm of Despairing Mortals), a Bridge to the Faith of the Future (the Epilogue). In a nutshell: To Those-Who-Wander-in-Nidhogg's-Shadow blindly searching for the Meaning of Life, your search is now over! So standup and rejoice! And Hail the Victory Over Confusion! In a Cathartic Return to the Beginning!

*The Book of Runes* Ralph Blum, 2000-09-01 This work reintroduces the ancient tradition of divination using the runic symbols. As well as introducing the history of the tradition, the symbols are reinterpreted and made relevant to readers. It includes 25 hand-made rune stones and pouch.

Runes Anders Andersson, 2022-04-26 This introductory guide to runic divination reveals how to use these ancient symbols to gain valuable insight. The runic alphabet of ancient Nordic and Germanic peoples has long been understood to possess hidden magic. Medieval mystics accessed this power through a divination system using runic symbols inscribed on small stones or tiles. This book reveals the secrets of rune casting, with instruction on how to read the runes for love, meditation, inner wisdom, health, and prosperity. With full explanations of runic alphabets and groupings, you will be able to create your own personalized set of runes, learn the most effective methods for casting, and try a variety of readings. This volume also explains the connection between runes and gems, and includes dozens of accompanying paintings and photographs.

**The Runic Symbols.** Felipe Franco Fajardo,2021-07-09 Just as the sun stone (solarsteinn) guided the Vikings in their maritime incursions with little or no visibility between a closed and cold mist, in the same way, the runes will guide you on the physical and spiritual path that you travel every day. From simple questions to complex queries to topics that can change your life and require the advice of your spiritual guide, your deepest self. In these modern times with so much science and technology, in which we do not stop for a second to receive news, where the world moves at dizzying speed and is increasingly polarized every day, you will wonder if the runes are still valid. What I'm telling you is that they are more current than ever. Now is when we can make use of this powerful tool to know ourselves at levels of unsuspected depth. Once you start, I assure you that they will be part of your life. You will know how to apply that deep knowledge that the Celts had of nature, the cycles of life and the universe, the spiritual world, magic and mysticism. We will also know how to use runic symbols as powerful magic and talismanic elements to attract people or situations that accompany you on your journey.

***Runes for Beginners and Norse Mythology*** Druid Solomon,2022-08-03 Do you want to learn everything about Norse Mythology? Do you want to know about Norse Gods? Do you want to know what runes are and what their meaning is? Or how can you use them? Do you wish to know the famous Viking's beliefs and stories? The best-preserved form of the ancient common Germanic mythology, which also includes the closely related Anglo-Saxon mythology, is Norse mythology. In turn,

Germanic mythology originated from older Indo-European mythology. Norse mythology refers to the mythical framework in Scandinavia during and around the Viking Age. The Nordic mythological universe is both intricate and extensive, with a creation story where the first gods murder a giant and convert his body parts into the globe. Many kingdoms spread out under the World Tree Yggdrasil's final destruction of the known world in the Ragnarök. Its polytheistic pantheon, which the one-eyed Odin leads, encompasses a large number of various gods and goddesses who were worshipped in ancient Scandinavian cultures. The book has two parts, and it includes topics like: The Gods of Norse Methodology Ragnarok Runic deviation Runes in Modern Magic Runic inscription and meanings And many more exciting topics! Runes are a collection of stones, wood, or other objects with holy symbols carved into them. Each rune has its narrative to tell. Runes may convey your life's tale, whether strewn across a surface, taken from a bag, or meticulously placed out in patterns. The earliest runic script, known now as the Elder Futhark, was developed to satisfy the demands of the newly forming languages as these dialects grew more different from the original Proto-Germanic. Runes were introduced to different runic scripts to represent new sounds that entered the languages, new runic symbols represented existing sounds, and some runes were removed entirely. So what are you waiting for? Click on the buy button and start your journey of Norse Mythology and runes!
