Food, Drink, and the Written Word in Britain, 1820-1945 Mary Addyman,Laura Wood,Christopher Yiannitsaros,2017-04-21 This volume explores the intersection between culinary history and literature across a period of profound social and cultural change. Towards an Eliasian Understanding of Food in the 21st Century John Lever,Jennifer Smith Maguire,Adrianna Kapek-Goodridge,2024-11-15 This edited volume serves as an overview and introduction to the conceptual apparatus of Norbert Elias for newcomers, while also outlining current research within the Eliasian school of sociology. An Eliasian or figurational approach foregrounds process, is sensitive to long-term historical development and changing power relations and is methodologically diverse. Elias's work is now found across academic disciplines and this volume contains contributions by sociologists, anthropologists, business and management scholars, and those working at the interface of sociology and human geography. Instead of simply highlighting the distinctiveness of the school vis-à-vis other theoretical traditions, this volume outlines how Eliasian inspired work can contribute to important debates on the future of food across academic disciplines.

Food, the Body and the Self Deborah Lupton,1996-04-25 In this wide-ranging and thought-provoking analysis of the sociocultural and personal meanings of food and eating, Deborah Lupton explores the relationship between food and embodiment, the emotions and subjectivity. She includes discussion of the intertwining of food, meaning and culture in the context of childhood and the family, as well as: the gendered social construction of foodstuffs; food tastes, dislikes and preferences; the dining-out experience; spirituality; and the 'civilized' body. She draws on diverse sources, including representations of food and eating in film, literature, advertising, gourmet magazines, news reports and public health literature, and her own empirical research into people's preferences, memories, experiences

Plain Women Margaret C. Reynolds,Simon J. Bronner,2001 Despite the great interest in &plain& groups in recent years,

comparatively little has been written about women and the particular role they play in preserving traditional religious and cultural values in the modern world. In *Plain Women*, Margaret C. Reynolds portrays the women of the Old Order River Brethren, a significant branch of the Brethren in Christ located mainly in Pennsylvania. The members of this conservative offshoot of the Brethren are often confused with the Amish because of their plain attire, but, unlike the Amish, they have made some notable concessions to the modern world—including the use of automobiles, computers, and home appliances. Noting these accommodations to modern American life, Reynolds examines the ceremonies and traditions that allow the Old Order River Brethren to remain separate from other plain groups and from contemporary mass culture. She describes, for example, the love feast communion, a service that involves footwashing and a breadmaking ritual (one unique to the Old Order River Brethren and solely performed by women). Reynolds focuses in particular on the gendered customs of dress, hair, and domesticity that shape women's lives and, in so doing, preserve the minority faith itself. *Plain Women* is the first volume in the new Pennsylvania German History and Culture Series, published in cooperation with the Pennsylvania German Society. This series is a continuation of the Society's annual volumes on Pennsylvania German scholarship in disciplines such as history, religion, folklore, literature, and arts.

Alternative Food Networks for Sustainable, Just, Resilient and Productive Food Systems José Luis Vicente-Vicente, Lukas Egli, Felix Zoll, Simona Zollet, 2024-10-01 There is growing evidence that the current globalised agri-food system is neither sustainable nor resilient. It is responsible for around one third of the global GHG emissions and is a major driver of biodiversity loss. Furthermore, its structure and distribution mode do not provide food security for all and foster socio-economic inequalities between different parts of the planet. Consequently, an increasing number of scientists and members of the civil society are demanding a radical transformation of agri-food systems. The creation of alternative food networks (AFNs) represent a possible first step towards agri-food system transformation. AFNs can incorporate local, indigenous and innovative knowledge and bring together a diversity of actors to connect food production and consumption and create new practices and relationships around food. The creation of AFNs, and ultimately of Alternative Food Systems (AFS), should involve different actors, from farmers to social movements, from policymakers to scientists. AFNs have the potential to contribute to a transformation towards sustainable, just, resilient and productive food systems, but even though they have increased in numbers and organisational forms in recent years, they still remain in a niche. Consequently, scientific evidence of their performance is still limited. This research topic will contribute to a comprehensive, multi-scalar and critical (e.g. including potential counter-effects) understanding of the current state and future potential of AFNs. It will address multiple aspects, ranging from social, economic and environmental aspects to productivity, participation and justice. Moreover, it will highlight the role of governance, power relations and institutions, as well as barriers and ways forward to promote AFNs and their role in food system transformation.

The Food and Feasts of the Apostle Paul Douglas E. Neel, 2024-12-17 With a vibrant narrative, recipes, and menus, this absorbing volume will be of interest to readers of Christian history and those interested in cookery and Mediterranean diets. -Booklist The Food and Feasts of the Apostle Paul takes readers inside the world of the early Christian church through a new lens—what people ate (and didn't eat). The early church encompassed diverse communities and people, and understanding its food helps us understand both the worship and culture of these people, as well as their sources of conflict. Each chapter introduces readers to a different community or church Paul visited or started, explores one or two key foods, and offers recipes that reflect each community. Recipes range from simple to complex, from snack to feast. This book will help readers more fully experience the diverse cultures of the early Christian church to better understand the teachings of Jesus, Paul, and early Christian leaders.
