The Kabalistic and Occult Philosophy of Eliphas Levi - Volume 1: Letters to Students Eliphas Levi, Daath Gnosis, 2015-04-25 This Volume is a compilation of 196 letters from Eliphas Levi to three different students: -1 letter to Mme. Hutchinson -10 letters to Mr. Montaut (also known as The Elements of the Kabalah) -185 letters to the Baron Spedalieri These letters cover a variety of subjects and are presented in a Bilingual format (English side-by-side with the original French) with copious footnotes and illustrations to help the student grasp the subject matter. Although many of these letters have been published in English before, this is a new translation of them all. This collection is a wonderful way to see into the heart of the Author and contain insights into his Transcendental Philosophy. The effect which I await for you (from my epistolary lessons) will be the understanding of my books which contain the whole doctrine, but in an abridged and succinct form.

The Mysteries of Magic - A Digest of the Writings of Eliphas Levi Arthur Edward Waite, 2020-12-01 "The Mysteries Of Magic" is a 1927 work by A. E. Waite that explores the life and work of Éliphas Lévi Zahed (1810 - 1875), a French occult author and ceremonial magician. Arthur Edward Waite (1857 - 1942), more commonly referred to as A. E. Waite, was an American-born British mystic and poet. He wrote profusely on the subject of the occult and esoteric matters, and is famous for being the co-creator of the Rider-Waite Tarot deck. His work arguably constitutes the first attempt to systematically studying the history of western occultism, which he viewed more of a spiritual tradition than proto-science or pseudo-religion, as was the more common conception. Contents include: "Life of Alphonse Louis Constant, Notes on the Mysteries of Magic as expounded in the Occult Philosophy of Eliphas Levi, Threshold of Magical Science, Doctrines of Occult Force, Written Tradition of Magic, Doctrine of Spiritual Essences, or Kabbalistic Pneumatics, Ceremonial Magic, Science of the Prophets", etc. Other works by this author include: "The Alchemical Writings of Edward Kelly" (1893), "Turba Philosophorum" (1894), and "Devil-Worship in France" (1896). Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition complete with a

pecially-commissioned new biography of the author.

Eliphas Lévi and the French Occult Revival Christopher McIntosh,2011-01-01 This classic study of the French magician Eliphas Lévi and the occult revival in France is at last available again after being out of print and highly sought after for many years. Its central focus is Lévi himself (1810-1875), would-be priest, revolutionary socialist, utopian visionary, artist, poet and, above all, author of a number of seminal books on magic and occultism. It is largely thanks to Lévi, for example, that the Tarot is so widely used today as a divinatory method and a system of esoteric symbolism. The magicians of the Golden Dawn were strongly influenced by him, and Aleister Crowley even believed himself to be Lévi's reincarnation. The book is not only about Lévi, however, but also covers the era of which he was a part and the remarkable figures who preceded and followed him – the esoteric Freemasons and Illuminati of the late 18th century, and later figures such as the Rosicrucian magus Joséphin Péladan, the occultist Papus (Gérard Encausse), the Counter-Pope Eugène Vintras, and the writer J.-K. Huysmans, whose work drew strongly on occult themes. These people were avatars of a set of traditions which are now seen as an important part of the western heritage and which are gaining increasing attention in the academy. Christopher McIntosh's vivid account of this richly fascinating era in the history of occultism remains as fresh and compelling as ever.

The Myth of Disenchantment Jason A. Josephson-Storm,2017-05-18 This study of the early human sciences and their deep connections to spiritualism dispenses with the myth that separates magic and modernity. Many theorists contend that the defining feature of modernity is our collective loss of faith in spirits, myths, and magic. But in *The Myth of Disenchantment*, Jason A. Josephson-Storm argues against this narrative, showing that attempts to suppress magic have failed more often than not. Even the human sciences have been more enchanted than is commonly supposed. But that raises the question: How did a magical, spiritualist, mesmerized Europe ever convince itself that it was disenchanted? Josephson-Storm traces the history of the myth of disenchantment in the births of philosophy, anthropology, sociology, folklore, psychoanalysis, and religious studies. He demonstrates that the founding figures of these “mythless” disciplines were in fact profoundly enmeshed in the occult and spiritualist revivals of Britain, France, and Germany. It was in response to this milieu that they produced notions of a disenchanted world. By providing a novel history of the human sciences and their connection to esotericism, *The Myth of Disenchantment* dispatches with most widely held accounts of modernity and its break from the premodern past.

Insights to the high idealism and quaint wit of Eliphas Levi Arthur Edward Waite, Boris Mihailovich de Zirkoff, 2022-07-07
Intensely suggestive, he is at the same time without much depth; splendid in generalisation, he is without accuracy in detail. It would be difficult to cite a worse guide over mere matters of fact. Had Lévi been left to himself, he would not have got far in occult science because his Gallic vivacity would have been blunted too quickly by the horrors of studious research. But he did somehow fall within a circle of initiation which curtailed the necessity for such research, and put him in the right path. Lévi was scarcely a transcendentalist, not even a mystic. Instinctively a materialist, he approached perilously towards atheism as when he stated that God is a hypothesis which is “very probably necessary.” His prophetic utterances upon the mission of Napoleon III have been stultified by subsequent events. Éliphas Lévi reflected a high idealism and an inner revolt against the injustices of the times. To Madame Blavatsky he was “undoubtedly a great occultist,” but “being a charming and witty writer,” has “more mystified than taught in his many volumes on magic.” Under no circumstances did she look upon him as an Initiate or a practical occultist. His style is poetical and quite charming. But what has he really taught us? Nothing, absolutely nothing — except, perhaps, the exuberance of the French language and his quaint wit. Not one single aspirant has become an Occultist by following the teaching of the French magus simply because, though Lévi evidently got his secrets from an Initiate, he never received the right to initiate others, says Blavatsky.

The Reconciliation of Science and Religion: Eliphas Levi's Discourse on Gnostic Kabalah - the Human Verb, the Divine Verb and the Divine Humanity Eliphas Levi, Daath Gnosis, 2011-05-04 This is the first English translation of Eliphas Levi's Preliminary Discourse from the second edition of his famous Dogma & Ritual of High Magic (also called Transcendental Magic in English). It is a Discourse on Gnostic Kabalah: the Human Verb, the Divine Verb and Divine Humanity. It is presented in a Bilingual format (English side-by-side with the original French) with copious footnotes and a sizable Editor's Appendix. Levi mentions it in his correspondence with his student Baron Spedalieri, saying: ...the economy of numbers necessitates the alliance of science and of faith which will constitute the absolute reason for the human verb upon an unshakable foundation, analogous to that of God, as I have demonstrated in the preliminary discourse of my second edition to Dogma and Ritual...

The Art of Discovery Margareth Hagen,Randi Koppen,Margery Vibe Skagen,2010-08-30 This anthology brings together scholars from literature, the natural sciences, and the philosophy of science, to present new perspectives on the relations between literary and scientific communities. Drawing on literature spanning the 19th and 20th centuries, as well as Europe and the Americas, the authors explore how science has been portrayed from the perspective of literature at different times and in different places - as challenge or opportunity, promise or scandal. The disturbance of science emanates perhaps from its association with a frightening future or its ability to change the appearance of the past; the scandal occurs as it recalls us to thresholds and hybrids: human and non-human, animal and machine. Science, however, also emerges as a source of metaphor and imaginative modelling, of encodings and decodings, representations and discoveries. Less prominent in the collection, though no less important, is the view on how scientific cultures portray literature or the literary academic, and how science reflects on itself.

Appropriating the Dao Lukas K. Pokorny,Franz Winter,2024-04-04 Assembling original contributions, this book is a pioneering attempt to address the Euro-American esoteric reception and appropriation of China. Positioned between eighteenth-century's mesmerism and intersections with the modern martial arts current, the contributions specifically centre on nineteenth and early twentieth-century occult appraisals and representations. This book opens up an under-explored area of research in the field of East-West interactions and the global history of religions.
