

La Casa Degli Spiriti

DP Hallahan

La casa degli spiriti Isabel Allende, 1989 Una saga familiare del nostro secolo in cui si rispecchiano la storia e il destino di tutto un popolo, quello cileno, nei racconti delle donne di una importante e stravagante famiglia. Un grande affresco che per fascino ed emozione può ricordare al lettore, nell'ambito della narrativa sudamericana, soltanto i Cent'anni di solitudine di García Márquez.

Favole per Bambini. Una grande raccolta di favole e fiabe fantastiche. (Vol.3) Storie Meravigliose, 2023-06-01 C'erano una volta... Gnomi birichini, dolci fate e animali parlanti che vivevano felici nella foresta. C'erano anche bambini, principi e principesse, fiori magici e streghe su scope volanti. C'erano, anzi ci sono, storie incantate, divertenti, tutte riunite in un'incredibile raccolta di fiabe. Aggiungete questo libro al vostro carrello e preparatevi a volare sulle ali della fantasia... preparatevi a sognare!

The Life of Sir Walter Scott, Vol. 7: 1826 - 1832 John Gibson Lockhart, 2014-09-01 Biography yields to no other species of composition, in interest and instruction. More especially is this true, when the subjects of which it treats are the struggles and vicissitudes of a life devoted to the pursuits of literature. There is a pleasure of the purest kind in observing the gradual development of thought and refinement of expression in one, who, smitten with a love of the good and the beautiful, and desirous to leave something behind him less perishable than his tombstone, has scorned delights and loved laborious days. No one can read these Memoirs of Sir Walter Scott, so long and so anxiously expected, without feeling this pleasure, and without deriving from them that instruction which might not be received from the perusal of less interesting works. In our judgment, not the least important lesson which these memoirs teach, is the advantage, or rather the necessity, which there is of having some profession less precarious than that of literature, upon which the child of genius can fall back for comfort or support in the hour when adversity clouds the lights which hope hung up in the uncertain future. This is volume 7 out of 7 of one of the best and most extensive Scott biographies ever and it covers the years 1816 through 1820.

Memoirs of Sir Walter Scott John Gibson Lockhart,1900 In a world awash in data, information systems help provide structure and access to information. Since libraries build, manage, and maintain information systems, librarians and LIS students are often propelled onto the front lines of interactions between library users and technology. But what do librarians need to know to best meet their patron's needs? What exactly are information systems and how do they work? Information expert Ratzan uses plain language, humor, and everyday examples like baseball and arithmetic to make sense of information systems (computer hardware, software, databases, the Internet). He also explores their characteristics, uses, abuses, advantages, and shortcomings for your library. Fun exercises and appendixes are provided to illustrate key points in the book and measure understanding. You can be a technophobe and still learn about systems and subsystems to represent, organize, retrieve, network, secure, conceal, measure, and manage information. This basic introduction addresses both theoretical and practical issues, including: What questions to ask technology vendors to meet your library's needs When technology may not be the solution to a problem Secrets for managing an information system How to make your information system a success LIS instructors and students, IT staff, digital librarians, library generalists and managers will welcome this expert sourcebook, complete with exercises, references, examples, terms, and charts that clarify concepts.
