Comunicación para Ingenieros Ludivina Cantú Ortiz, María Del Carmen Roque Segovia, 2014-10-21 El lenguaje es el instrumento más importante que ha creado el hombre. A través de él se comunica con su mundo y con los demás seres humanos; gracias a él ha trascendido en el tiempo y en el espacio. Con el propósito de que los ingenieros aprendan el arte del lenguaje y de la comunicación, sobre todo de forma escrita, las autoras han desarrollado este material. Se presentan una serie de actividades relacionadas con diferentes áreas de la ingeniería donde el alumno se tiene que comunicar y expresar.

14th International Conference on Computational Intelligence in Security for Information Systems and 12th International Conference on European Transnational Educational (CISIS 2021 and ICEUTE 2021) Juan José Gude Prego, José Gaviria de la Puerta, Pablo García Bringas, Héctor Quintián, Emilio Corchado, 2021-09-21 This book of Advances in Intelligent and Soft Computing contains accepted papers presented at CISIS 2021 and ICEUTE 2021, all conferences held in the beautiful and historic city of Bilbao (Spain), in September 2021. The aim of the 14th CISIS 2021 conference is to offer a meeting opportunity for academic and industry-related researchers belonging to the various, vast communities of computational intelligence, information security, and data mining. The need for intelligent, flexible behavior by large, complex systems, especially in mission-critical domains, is intended to be the catalyst and the aggregation stimulus for the overall event. After a thorough peer-review process, the CISIS 2021 International Program Committee selected 23 papers which are published in these conference proceedings achieving an acceptance rate of 40%. In this relevant edition, a special emphasis was put on the organization of special sessions. One special session is organized related to relevant topics as follows: building trust in ecosystems and ecosystem components. In the case of 12th ICEUTE 2021, the International Program Committee selected 17 papers, which are published in these conference proceedings. One special session is

organized related to relevant topics as follows: sustainable personal goals: engaging students in their learning process. The selection of papers is extremely rigorous in order to maintain the high quality of the conference, and we would like to thank the members of the program committees for their hard work in the reviewing process. This is a crucial process to the creation of a high standard conference, and the CISIS and ICEUTE conferences would not exist without their help.

Escribir para objetivar el saber. 2 EDICION Hamburger Fernández, Álvaro Andrés,2017-07-28 Este no es un libro de recetas mágicas sobre cómo escribir, pero sí es un texto que propone rutas y pautas para llegar a alguna parte. Se puede decir que para escribir bastan los siguientes elementos: tener qué decir, saber cómo decirlo, tener a quién decirlo y saber para qué decirlo. Todo esto lo encontraran en el libro del profesor Hamburger: parte de una investigación dentro de su campo, ha elegido la forma de texto para comunicarse con sus interlocutores, dialoga precisamente con docentes y trata de responder a una necesidad básica en esa población: la ausencia de una escritura que objetive lo que ellos saben. No existe en el texto una complacencia del saber por el saber o del escribir por escribir, sino que el saber que aquí se expone viene a cumplir una función social: orientar, animar y motivar a los docentes a escribir y a publicar sus escritos; como queda explícito en el propósito general del volumen, que no sólo brinda explicaciones teóricas sobre la necesidad y la urgencia de objetivar el saber, sino que también los ubica ante una serie de medios y de ejercicios para que la tarea de escribir sea posible. No sólo encontraran definiciones de artículo, libro, texto y reseña, sino que también explica la forma como están estructuradas estas manifestaciones académicas y, lo mejor de todo, indica cómo se planea, cuáles son los pasos por seguir en la escritura de cada uno de estos géneros de expresión escrita.No sólo encontraran definiciones de artículo, libro, texto y reseña, sino que también explica la forma como están estructuradas estas manifestaciones académicas y, lo mejor de todo, indica cómo se planea, cuáles son los pasos por seguir en la escritura de cada uno de estos géneros de expresión escrita.

La presente obra tiene como propósito ofrecer al lector un compendio de capítulos reflexivos divididos en dos grandes ejes: el primero que trata sobre aquellos aportes investigativos que se han desarrollado en beneficio de la mejora educativa y el segundo que aborda la línea emergente de las tecnologías en la educación.
