Ambiguity in »Star Wars« and »Harry Potter« Christina Flotmann, 2014-03-15 The study combines theories of myth, popular culture, structuralism and poststructuralism to explain the enormous appeal of »Star Wars« and »Harry Potter«. Although much research already exists on both stories individually, this book is the first to explicitly bring them together in order to explore their set-up and the ways in which their structures help produce ideologies on gender and ethnicity. Hereby, the comparison yields central insights into the workings of modern myth and uncovers structure as integral to the success of the popular genre. It addresses academic audiences and all those wishing to approach the tales from a fresh angle.

Comics in French Laurence Grove, 2010 Whereas in English-speaking countries comics are for children or adults 'who should know better', in France and Belgium the form is recognized as the 'Ninth Art' and follows in the path of poetry, architecture, painting and cinema. The bande dessinée [comic strip] has its own national institutions, regularly obtains front-page coverage and has received the accolades of statesmen from De Gaulle onwards. On the way to providing a comprehensive introduction to the most francophone of cultural phenomena, this book considers national specificity as relevant to an anglophone reader, whilst exploring related issues such as text/image expression, historical precedents and sociological implication. To do so it presents and analyses priceless manuscripts, a Franco-American rodent, Nazi propaganda, a museum-piece urinal, intellectual gay porn and a prehistoric warrior who's really Zinedine Zidane.

Brought wholly up to date to include political and social developments in French cinema in the 1990s, its fresh approach and groundbreaking new writing on the subject offers a much further understanding of French cinema and its relationship with the French national identity. New subjects covered include: the GATT negotiations of 1993 French cinema's increasing dependence on investment from television the rise of the multiplex the implications of the introduction of digital technology. Ideal for all students of cinema, film studies and film history, this book traces the eco-history of the French film and its key figures and movements, and it places them in their wider political and cultural context.

The Story of French Jean-Benoît Nadeau, Julie Barlow, 2008-01-08 Why does everything sound better if it's said in French? That fascination is at the heart of *The Story of French*, the first history of one of the most beautiful languages in the world that was, at one time, the pre-eminent language of literature, science and diplomacy. In a captivating narrative that spans the ages, from Charlemagne to Cirque du Soleil, Jean-Benoît Nadeau and Julie Barlow unravel the mysteries of a language that has maintained its global influence despite the rise of English. As in any good story, *The Story of French* has spectacular failures, unexpected successes and bears traces of some of history's greatest figures: the tenacity of William the Conqueror, the staunchness of Cardinal Richelieu, and the endurance of the Lewis and Clark expedition. Through this colorful history, Nadeau and Barlow illustrate how French acquired its own peculiar culture, revealing how the culture of the language spread among francophones the world over and yet remains curiously centered in Paris. In fact, French is not only thriving—it still has a surprisingly strong influence on other languages. As lively as it is fascinating, *The Story of French* challenges long held assumptions about French and shows why it is still the world's other global language.

In The Shoes of the Other Samia Mehrez, 2019-12-10 In the Shoes of the Other Interdisciplinary Essays in Translation Studies from Cairo "This anthology continues a tradition that is intended to give impetus to the development of Egyptian and Arab discourses on translation both within and beyond the American University in Cairo. It is a welcome and important contribution to raising the profile of translation, in all its forms, and of translators in the region." Mona Baker, University of Manchester "Since its founding, the Center for Translation Studies has hosted an astonishing number of academic events that are among the most intellectually serious and internationally prominent of AUC's activities in the humanities; this has been noted by universities across the world. Indeed, the "In Translation" lecture series is, without any exaggeration, the most impressive public lecture series of its kind anywhere, and far beyond anything comparable in Africa or the Middle East." Adam Talib, Durham University "AUC's Center for Translation Studies has proved itself a vital interpreter of texts and events generated by Egypt's turbulent political history and fervent artistic culture. I know of no other group of scholars with equal competence in these matters and with an equivalent respect in the field." Anthony Cordingley, Université Paris VIII

The Story of French Jean-Benoit Nadeau, Julie Barlow, 2010-05-28 A fascinating exploration of the historical and cultural development of the French language from the bestselling authors of *Sixty Million Frenchmen Can't Be Wrong*. Imagine a language that is watched over by a group of forty "Immortals," a language with rules so complex that few people ever completely master it, whose status as the world's lingua franca has been declining for two centuries, whose use in global institutions is waning and whose speakers are so insecure they pass laws banning the use of other languages and spend millions of tax-payers' dollars to make sure it gets used in literature, music and film. Now imagine a language that is second only to English for the number of countries where it is spoken officially, surpassing both Spanish or Arabic, a language that is the official tongue of two G-7 countries and three European nations, that is employed alongside English in most international institutions and that is the number-two choice of language students across the planet – a language with two million teachers and 100 million students worldwide, and whose number of speakers has tripled in the last fifty years. This paradox is the backdrop for *The Story of French*, in which bilingual Canadian authors Jean-Benoît Nadeau and Julie Barlow unravel the mysteries of a language that has maintained its global influence in spite of the ascendancy of English. Mixing historical analysis with journalistic observation, and drawing on their experiences living in and travelling to French-speaking countries,

they explore how the French language developed over the centuries, how it came to be spoken in the Americas, Africa and Asia, and how it has maintained its global appeal.

Originality and Intellectual Property in the French and English Enlightenment Reginald McGinnis, 2013-10-17

Are legal concepts of intellectual property and copyright related to artistic notions of invention and originality? Do literary and legal scholars have anything to learn from each other, or should the legal debate be viewed as separate from questions of aesthetics? Bridging what are usually perceived as two distinct areas of inquiry, this interdisciplinary volume begins with a reflection on the origins of literary and legal questions in the Enlightenment to consider their ramifications in the post-Enlightenment and contemporary world. Tying in to the growing scholarly interest in connections between law and literature, on the one hand, and to the contemporary interrogation of originality and authorship, on the other hand, the present volume furthers research in the field by providing a dense study of the legal and historical context to re-examine our current assumptions about supposed earlier Enlightenment and Romantic ideals of individual authorship and originality.

Pardon My French Rachael Mogan McIntosh, 2023-02-28 'Uproarious and deliciously wise... A pure delight.' Tori Haschka, A Recipe for Family At the school gate, when she accidentally kissed one new friend on the nose and called another a 'beautiful man-horse', Rachael realised that small-town France could hardly be more different to beach-side Australia. The smell of cigarettes replaced the tang of bone-broth and sprouted sourdough, the neighbours sometimes came to blows and under no circumstances would anyone wear activewear in public. Ever. Muddling through every interaction in terrible French pushed Rachael's family to their limits. Some days, everybody cried and ate their feelings with almond croissants. But the town of Sommières embraced these ragtag Australians, and the family fell in love with their temporary hometown and its outrageous gossip, cobblestoned beauty and kind, eccentric inhabitants. Pardon My French is a candid, hilarious love letter to family life and France with three valuable lessons for overcoming adversity: make home a beautiful nest, lean into the tough lessons and look for the comedy in everything.
