Urbanismo de Salamanca en el siglo XIX GARCÍA CATALÁN, Enrique, 2015-01-10 [ES] En el siglo XIX las ciudades europeas y españolas experimentaron una transformación notable. El paso del Antiguo al Nuevo Régimen tuvo una incidencia directa en la evolución del urbanismo. Salamanca, como capital de provincia, no fue ajena a esta realidad; sin embargo, su escaso desarrollo demográfico e industrial ralentizó los procesos de desarrollo urbano. El cambio de imagen de la ciudad comenzó con los efectos de la Guerra de la Independencia y las desamortizaciones posteriores, que provocaron la ruina de un número importante de edificios. El ascenso al poder de los gobiernos liberales impulsó una avalancha de iniciativas encaminadas a dar a la ciudad un aspecto más acorde con el gusto y la mentalidad de la burguesía dominante. Las calles San Pablo y Rúa son un buen reflejo de la influencia que estos procesos tuvieron en las calles de Salamanca. Además de las transformaciones en la red viaria, a lo largo del siglo mejoraron las infraestructuras, como las de abastecimiento de agua, saneamiento o alumbrado. Los adelantos también se dejaron notar en los servicios y las dotaciones, con el levantamiento de un mercado, un cementerio, un matadero y un teatro. También mejoró sensiblemente durante la segunda mitad de siglo la red de comunicaciones, con la construcción de carreteras modernas. La llegada del ferrocarril en 1877 supuso la mejora más sensible en este aspecto. [EN] European and Spanish cities underwent a considerable transformation in the XIX century. The shift from the Old to New Regime had a direct effect on the evolution of urban planning. Salamanca, as capital of a province, was not out of touch with this reality; however, its low demographic and industrial development slowed down plans for urban expansion. The city's image began to change with the effects of the War of Independence, as well as the subsequent expropriation of land that caused a significant number of buildings to be knocked down. The rise to power of liberal governments sparked an avalanche of initiatives aimed at giving the city an appearance that was more in line with the taste and mentality of the bourgeoisie. Streets such as San Pedro and Rúa are a prime example of the influence that this process had on Salamanca's streets. In addition to changes in the city's roadways, other infrastructures such as city plumbing and the electric grid also improved significantly throughout the century. Advances in services and endowments were also quite noticeable with the building of a market, cemetery, slaughterhouse, and theatre. The city's connection to other areas also improved in the second half of the century with the construction of modern roads. The arrival of the railway in 1877 was the greatest improvement in this regard.

Los senderos del aprendiz José Felipe Dolz,2019-06-04 Unos manuscritos encontrados por casualidad en Estados Unidos nos transportan a la España de finales del siglo pasado a través de las simpáticas y rocambolescas peripecias de un joven trotamundos: una serie de andanzas y aventuras en las que casi nunca parece haber un buen plan y es el azar quien decide suertes y desenlaces. \r \r Algunas partes de los relatos son francamente divertidos, otras muestran desasosiego y cierto fatalismo vital, casi misticismo. A través de la mirada ingenua y personal del joven anónimo se esboza una visión de un país y una época ricos en contrastes.\r

En ruta por Castilla y León 1 Igor Gonzalo,2022-01-19 La tierra donde nació la lengua de medio planeta espera al visitante con 9 Patrimonios Mundiales, más de 400 castillos, 352 museos, 33 espacios naturales protegidos, 13 Denominaciones de Origen y 61 figuras de Calidad en gastronomía. La gran Meseta Central goza de enormes contrastes naturales, entre la cordillera Cantábrica, los montes de León, los sistemas Central e Ibérico. Las altas cumbres de los Picos de Europa y la Montaña Palentina se burlan de esa Castilla ancha y larga. Ríos como el Ebro, el Duero, el Tormes y el Duratón han rasgado estas tierras ocres y doradas de uva y cereal, formando profundos cañones y desfiladeros. Mientras, la Vía de la Plata, el Camino de Santiago y hasta 15 rutas jacobinas atraviesan el territorio. Millones de viajeros recorren cada año estos pequeños pueblos llenos de vida y sabor, con pintorescas fiestas y tradiciones históricas, y degustan una gastronomía plena de tesoros, como el jamón ibérico de Guijuelo, el lechazo asado, el cochinillo, los quesos y embutidos, el cocido maragato, los torreznos de Soria, la famosa morcilla de Burgos o el hornazo salmantino.

Lectura, sociedad y redes: Colaboración, visibilidad y recomendación en el ecosistema del libro Cordon García, José Antonio,2018-01-01 Si hay algo que caracteriza a la lectura es su vocación comunicativa, de socialización, de intercambio, dialógica. Como una de las formas de conocimiento más sutiles que ha inventado la humanidad, esta actividad implica a todos los actores involucrados en la misma, pero sobre todo a los lectores, de manera individual o colectiva. Un buen libro leído

compele a su difusión, al intercambio de pareceres, a la recomendación, pero también a la intervención, articulando un dialogo, indirecto, a través de anotaciones en la obra, o directo, a través de redes sociales u otros medios, con otros lectores y/o con el autor. El espacio de la lectura es el de la transición entre el pensamiento cifrado en una obra y las interpretaciones que genera, el de los escenarios en donde tiene lugar la misma, el de las vías por las que los libros transitan entre las personas, entre las instituciones. En esta obra se da fe de estas particularidades, de cómo la lectura es un fenómeno social que acontece entre los individuos y los grupos, una actividad que ha migrado, en muchas de sus manifestaciones, de lo analógico a lo digital, ampliando los horizontes de sus representaciones, sus funcionalidades y prestaciones. La lectura como realidad dinámica, en movimiento permanente, de la mente del lector al cerebro de otro(s) lector(es), encuentra en lo social su manifestación más profunda. Lo social como elemento analógico y digital, los sistemas de recomendación, las plataformas de lectura, los clubes de lectores, booktubers, prescriptores, turismo literario o sistemas de crowdfunding, entre otros temas, articulan un discurso global sobre la dimensión multiforme de la lectura compartida.

Paseo entretenido por textos medievales Emilio de Miguel Martínez, 2019-12-02 «¿Queda algo nuevo o, al menos, algo realmente interesante, que aún pueda decirse a propósito de la literatura medieval castellana? Ciertamente no hay que descartar el hallazgo de nuevos textos, aunque la esperanza sea mínima, y ojalá se produzcan nuevos enfoques, nuevas iluminaciones que, ensanchando los cauces de lo tantas veces ejecutado, favorezcan la ampliación de nuestros conocimientos y permitan mejores valoraciones de lo estudiado tantas veces. El presente libro no responde, desde luego, al primero de los supuestos formulados y no tengo seguridad de que cumpla con lo deseado en el segundo. Consiste más bien, conforme anuncia el título, en la invitación a un paseo entretenido que nos permita recrearnos con algunos de los hallazgos literarios -también culturales y sociales- con que nos obsequia la literatura medieval. Me propongo ofrecer algunas consideraciones que, rebasando los límites de lo estrictamente filológico, contribuyan a enfoques si no revolucionarios, quizá menos habituales, en la valoración de la literatura de aquel periodo».
