An Interpretive Guide to Operatic Arias Martial Singher, Eta Singher, 1983 A premier singer and master teacher here tells other singers how to get the most from 151 famous arias selected for their popularity or their greatness from 66 operas, ranging in time and style from Christopher Gluck to Carlisle Floyd, from Mozart to Menotti. The most memorable thrills in an opera singer's life, according to the author's Introduction, may easily derive from the great arias in his or her repertoire. This book continues the work Martial Singher has done, in performances, in concerts, and in master classes and lessons, by drawing attention not only to precise features of text, notes, and markings but also to psychological motivations and emotional impulses, to laughter and tears, to technical skills, to strokes of genius, and even here and there to variations from the original works that have proved to be fortunate. For each aria, the author gives the dramatic and musical context, advice about interpretation, and the lyric--with the original language (if it is not English) and an idiomatic American English translation, in parallel columns. The major operatic traditions--French, German, Italian, Russian, and American--are represented, as are the major voice types--soprano, mezzo-soprano, tenor, baritone, bass-baritone, and bass. The dramatic context is not a mere summary of the plot but is a penetrating and often witty personality sketch of an operatic character in the midst of a situation. The musical context is presented with the dramatic situation in a cleverly integrated way. Suggestions about interpretation, often illustrated with musical notation and phonetic symbols, are interspersed among the author's explication of the music and the action. An overview of Martial Singher's approach--based on fifty years of experience on stage in a hundred roles and in class at four leading conservatories--is presented in his Introduction. As the reader approaches each opera discussed in this book, he or she experiences the feeling of participation in a rehearsal on stage under an urbane though demanding coach and director. The Interpretive Guide will be of value to professional singers as a source of reference or renewed inspiration and a memory refresher, to coaches for checking and broadening personal impressions, to young singers and students for learning, to teachers who have enjoyed less than a half century of experience, and to opera broadcast listeners and telecast viewers who want to understand what goes into the sounds and sights that delight them.

Opera Scenes for Class and Stage Mary Elaine Wallace, Robert Wallace, 2013-10-01 Musically sound and fully annotated, this new reference work provides ready access to over 700 excerpts from 100 operas, by voice categories, and thus provides

information on a wide variety of matters of interest to directors, teachers, and singers. A table of voice categories, coded excerpts (including length and reference to accessible scores), character descriptions (including estimations of degrees of difficulty of the music), summaries of the action of each excerpt, and indexes to titles, composers, and well-known arias and ensembles make this book an indispensable tool.

Faust - A Lyric Drama in Five Acts Charles François Gounod,1999-08-26 Expertly arranged Vocal score by Charles François Gounod from the Kalmus Edition series. This Opera Score is from the Romantic era.

Faust - Romeo Et Juliet Mary Dibbern,2006 In 1850, the French mezzo-soprano Pauline Viardot wrote to her friend Turgenev: Among that mass of talented composers who are witty in a vulgar sort of way, intelligible not because of their clarity but because of their triviality, the appearance of a musical personality such as Gounod's is so rare that one cannot welcome him heartily enough. Pendragon Press welcomes this addition to their Vox Musicae Series of Operatic Performance Guides by Mary Dibbern. The libretti and literary sources of Gounod's two masterpieces are studied in depth. The libretto section includes word-by-word translations into English and IPA transcriptions of both libretti in their final, opéra-comique versions. Dibbern explains how the literary source materials were converted into libretti, as well as the history of the various musical editions and versions. Numerous illustrations have been provided by a member of Gounod's family.

Hergé musicien? Jean-Jacques Nattiez, Renaud Nattiez, 2025-02-07T00:00:00-05:00 La présence de la musique dans Les Aventures de Tintin montre que les goûts et les emprunts de son créateur aux différents genres musicaux – avec la truculente Bianca Castafiore comme figure emblématique – témoignent d’une culture musicale plus vaste qu’on aurait pu le croire. À coup sûr, Hergé fait preuve d’une inventivité remarquable, notamment lorsqu’il « dessine » le fameux air des Bijoux du Faust de Gounod qu’il décline en variations d’une vignette à l’autre ou d’un album à l’autre. Pourtant, alors que voitures, voyages, rêve ou rire ont fait l’objet d’analyses approfondies, la place de la musique reste encore peu explorée. La diva en serait-elle la seule incarnation? Cet ouvrage dresse un inventaire des manifestations du musical dans l’univers hergéen : allusions à des airs d’opéra, des musiques de variété ou de tradition orale, des chansons populaires, des chants d’enfants. Les notations musicales, parfois fantaisistes, qu’Hergé dissémine ici ou là reflètent-elles une méconnaissance de la musique, comme le suggèrent certains tintinologues, ou au contraire, une culture plus riche qu’on ne l’imagine? Les auteurs se penchent ici sur

cette question fascinante : Hergé était-il musicien?
