Internationalisation of Post-1992 UK Universities Peter Brady,2020-03-19 When they gained university status ex-polytechnics expected to be funded on a par with their new university colleagues. This was not the case and a number of government initiatives encouraged them to look overseas to recruit fee-paying students. 'Internationalisation of Post-1992 UK Universities' details how the reaction to these initiatives changed the nature of post-1992 universities. It also looks at how these universities work overseas and how foreign government strategies and policies mean that they are helping competitors and ensuring that foreign students gain a better educational experience than home students.

Britain and the Cyprus Crisis of 1974 John Burke,2017-11-28 This book examines the ideological and socio-political discourses shaping the remembrance and representation of Britain and the Cyprus conflict of 1974 within Greek Cypriot society. By combining the official with the popular and drawing on an extensive range of oral history interviews, this monograph shows that a suspicion born out of Britain's long (neo-)colonial connection to Cyprus has come to frame the image and understanding of British actions associated with the events, and lasting consequences, of 1974. Indeed, with the island of Cyprus still divided, and the requirement to remember a national imperative, this book has a direct contemporary relevance. However, within the existent literature, while much has been written about the political roots of the Cyprus conflict, no study has yet sought to systematically analyse and understand the influences shaping the history and memory of British actions on Cyprus in 1974. One defined by the existence of 'partitionist' conspiracies, collusive accusations and a series of memory distortions which continue to resonate strongly irrespective of the evidence that is now available. As such, by analysing the influences shaping the image of Britain in 1974, one can begin to understand in ever greater detail the Anglo-Greek Cypriot relationship in a modern context.

Ideas, Institutions, and the Politics of Schools in Postwar Britain and Germany Gregory Baldi,2022-05-16 This book addresses one the most contentious issues of postwar Western Europe, namely the organization of the primary and secondary stages of schooling in state education systems. In examining the politics of continuity and change in postwar schooling in

Britain and the Federal Republic Germany, Gregory Baldi seeks to contribute to more general understandings of education's place in the welfare state, the development of social institutions, and the relationship between material and ideational factors in shaping political outcomes over time.

Justice Denied: Exploring Inequities in the Legal System Ed Johnston, Claire-Michelle Smyth, 2025-08-15 This volume focuses on injustice in the Criminal Justice System in England and Wales and discusses the barriers to achieving justice. The book draws on contributions from established and emerging scholars, as well as insight from professional practice to provide insight into the contemporary challenges in distinct areas of injustice through original analysis and argument. Topics covered include the theory of punishment, criminal justice, access to justice, climate justice, migrant justice and barriers to justice. The volume will be of interest to researchers, academics and policy-makers working in the areas of Criminal Law, Criminology, Sociology of Law and Human Rights Law. Focused on the legal system of England and Wales, the issues raised are relevant for an international readership.

Immigration Policy in the Federal Republic of Germany Douglas B. Klusmeyer, Demetrios G. Papademetriou, 2009 German migration policy now stands at a major crossroad, caught between a fifty-year history of missed opportunities and serious new challenges. Focusing on these new challenges that German policy makers face, the authors, both internationally recognized in this field, use historical argument, theoretical analysis, and empirical evaluation to advance a more nuanced understanding of recent initiatives and the implications of these initiatives. Their approach combines both synthesis and original research in a presentation that is not only accessible to the general educated reader but also addresses the concerns of academic scholars and policy analysts. This important volume offers a comprehensive and critical examination of the history of German migration law and policy from the Federal Republic's inception in 1949 to the present.

A Place of Refuge, 2005 *A Place of Refuge* tackles the topical issue of asylum in the UK. Against a background of ignorance, racism and media bias, the Christian Church is called by God to show care of the marginalized. After exploring this biblical call to offer hospitality, *A Place of Refuge* examines the claims made against refugees - that they are lazy, uneducated or involved in criminal activity - and uses statistical evidence to show that these claims are largely unfounded. It explains the legal and factual basis of the asylum system and highlights the positive contribution that refugees make to the UK. It includes: practical suggestions for action at a local and national level; useful contacts and resources. Based on up-to-date detailed research, this study is a positive and challenging contribution to an important debate.

Like an Animal: Critical Animal Studies Approaches to Borders, Displacement, and Othering, 2021-06-17 The contributors of *Like an Animal* challenge most fundamental concepts in the fields of racism, dehumanization, borders, displacement, and refugees that rest on the assumption of humanism. They show how we can bend the arc of the moral universe toward justice at the border. The goal of this interdisciplinary collection is twofold. First, to invite border/migration

studies to consider a broader social justice perspective that includes nonhuman animals. Second, to start a discussion if nonhumans maybe refugees of a kind and how humans can address nonhumans' interests and needs from the perspective of addressing refugee issues. As capitalism and the climate crisis are taking a catastrophic toll on the planet, this timely volume exposes the alternative origins of violence that lie at the heart of the planet's destruction.

A Man of Resolve: Richard Henry Brunton Geoff Goolnik, 2025-04-28 A fascinating, well-illustrated and internationally researched biography of Richard Henry Brunton, a talented civil engineer in the nineteenth century and a proud representative of his profession in a rapidly changing world. Brunton was born in Muchalls, Aberdeenshire and initially worked on railway line development. He then came to prominence as Chief Engineer to the Japanese Government when the country was forced to "open up". As well as eventually supervising the building of 26 Western-style tower lighthouses along with various other navigational initiatives, he additionally established a groundbreaking staff training and technical complex for this move. Furthermore, he also took a lead in town planning of the chief trading settlement of Yokohama, and in other matters too. Returning to the United Kingdom, Brunton eventually became manager of a large petrochemical plant in the central 'belt' of Scotland, getting involved as well with working man's' broader education and then, moving back south, took over an architectural ornaments business in London. The company won prizes and worked at home and around the globe. Unfortunately, although extensive, the work was over-stressful and he over-dipped into its income to the extent he was declared personally bankrupt. However, one of his theatrical clients, based in Ireland, approached him to become their architect and there he created three gems of theatre design, two of which, in the cities of Dublin and Cork, still successfully function.
