**Perils of the Seas and Inherent Vice in Marine Insurance Law** Ayça Uçar,2020-10-28 The Supreme Court ruling in *Global Process System Inc. v Syarikat Takaful Malaysia Berhad (The Cendor MOPU)* created a shock wave in the London marine insurance market, as the Supreme Court decision changed the boundaries of doctrine with respect to the meaning of 'perils of the sea' and 'inherent vice'. Both phrases play an important role in the insurance market, affecting both assureds and insurers and their respective interests under all classes of marine insurance policies. This book reviews the origin of the clauses 'perils of the sea' and 'inherent vice' by tracing back through the early cases in order to understand the origin and noting how and why the changes occurred. It will examine how the law has been developed in the recent cases and discuss whether the Supreme Court case *The Cendor MOPU* has overruled the previous cases in terms of the clauses 'inherent vice' and 'perils of the sea'. Considering the impact of *The Cendor MOPU* decision with respect to the Marine Insurance Act 1906, as well as the standard Institute Cargo Clauses, it evaluates whether the decision is consistent with these things and discusses the effect of the decision on recent cases and on the insurance market.

*Moorings* Nidhi Mahajan,2025 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. *Moorings* follows sailors from the Gulf of

Kachchh in India as they voyage across the ocean on mechanized wooden sailing vessels known as vahans, or dhows. These voyages produce capital through moorings that are spatial, moral, material, and conceptual. With a view from the dhow, the book examines the social worlds of Muslim seafarers who have been rendered invisible even as they maneuver multiple regulatory regimes and the exigencies of life, navigating colonialism, neoliberalism, the rise of Hindutva, insurgency, climate change, and border regimes across the Indian Ocean. Based on historical and ethnographic research aboard ships, at ports and religious shrines, and in homes, Moorings shows how capitalism derives value from historically sedimented practices grounded in caste, gender, and transregional community-based forms of regulation.
