Nobody's Business Brian M. Reed, 2013-08-15 Since the turn of the new millennium English-language verse has entered a new historical phase, but explanations vary as to what has actually happened and why. What might constitute a viable avant-garde poetics in the aftermath of such momentous developments as 9/11, globalization, and the financial crisis? Much of this discussion has taken place in ephemeral venues such as blogs, e-zines, public lectures, and conferences. Nobody's Business is the first book to treat the emergence of Flarf and Conceptual Poetry in a serious way. In his engaging account, Brian M. Reed argues that these movements must be understood in relation to the proliferation of digital communications technologies and their integration into the corporate workplace. Writers such as Andrea Brady, Craig Dworkin, Kenneth Goldsmith, Danny Snelson, and Rachel Zolf specifically target for criticism the institutions, skill sets, and values that make possible the smooth functioning of a postindustrial, globalized economy. Authorship comes in for particular scrutiny: how does writing a poem differ in any meaningful way from other forms of content providing? While often adept at using new technologies, these writers nonetheless choose to explore anachronism, ineptitude, and error as aesthetic and political

strategies. The results can appear derivative, tedious, or vulgar; they can also be stirring, compelling, and even sublime. As Reed sees it, this new generation of writers is carrying on the Duchampian practice of generating antiart that both challenges prevalent definitions of art and calls into question the legitimacy of the institutions that define it.

Bubble Jordan Morris, Sarah Morgan, 2021-07-13 Based on the smash-hit audio serial, *Bubble* is a hilarious high-energy graphic novel with a satirical take on the “gig economy.” Built and maintained by corporate benevolence, the city of Fairhaven is a literal bubble of safety and order (and amazing coffee) in the midst of the Brush, a harsh alien wilderness ruled by monstrous Imps and rogue bands of humans. Humans like Morgan, who’s Brush-born and Bubble-raised and fully capable of fending off an Imp attack during her morning jog. She’s got a great routine going—she has a chill day job, she recreationally kills the occasional Imp, then she takes that Imp home for her roommate and BFF, Annie, to transform into drugs as a side hustle. But cracks appear in her tidy life when one of those Imps nearly murders a delivery guy in her apartment, accidentally transforming him into a Brush-powered mutant in the process. And when Morgan’s company launches Huntr, a gig economy app for Imp extermination, she finds herself press-ganged into kicking her stabby side job up to the next level as she battles a parade of monsters and monstrously Brush-turned citizens, from a living hipster beard to a book club hive mind.

The History of Living Forever Jake Wolff,2019-06-11 A chemistry student falls for his teacher and uncovers a centuries-old quest for the elixir of life The morning after the death of his first love, Conrad Aybinder receives a bequest. Sammy Tampari was Conrad's lover. He was his teacher. And, it turns out, he was not just a chemist, but an alchemist, searching for a mythic elixir of life. Sammy's death was sudden, yet he somehow managed to leave twenty years' worth of his notebooks and a storage locker full of expensive, sometimes baffling equipment in the hands of his star student. The notebooks contain cryptic "recipes," but no instructions; they tell his life story, but only hint at what might have caused his death. And Sammy's research is littered with his favorite teaching question: What's missing? As Conrad pieces together the solution, he finds he is not the only one to suspect that Sammy succeeded in his quest. And if he wants to save his father from a mysterious illness, Conrad will have to make some very difficult choices. A globe-trotting, century-spanning adventure story, Jake Wolff's *The History of Living Forever* takes us from Maine to Romania to Easter Island and introduces a cast of unforgettable characters—drug kingpins, Big Pharma flunkies, centenarians, boy geniuses, and even a group of immortalists masquerading as coin collectors. It takes us deep into the mysteries of life—from first love to first heartbreak, from the long pall of grief to the irreconcilable loneliness of depression to the possibility of medical miracles, from coming of age to coming out. Hilarious, haunting, heart-busting, life-affirming, it asks each of us one of life's essential questions: How far would you go for someone you love?
