Based upon in-depth research, including over seventy interviews with managers and employees, Organisational Learning and Effectiveness is an original and comprehensive analysis of learning organisations. Contents include: * detailed case studies of five major international companies: Coca-Cola and Schweppes Beverages, 3M, Siebe, Mayflower and Morgan Crucible * the intellectual origins of organisational learning * best practice in organisational learning * the importance of leadership roles and skills * a critical examination of the usefulness and relevance of organisational learning and effectiveness. Integrating management theory and practice, this volume is an extremely valuable resource for all those with an interest in organisational behaviour and human resource development.

Guide to Organisation Design Naomi Stanford, The Economist, 2015-04-28 Business failure is not limited to start ups. Industry Watch (published by BDO Stoy Hayward, an accounting firm) 'predicts that 17,043 businesses will fail (in the UK) in 2006, a further 4 per cent increase from 2005'. In America between 1990 and 2000, there were over 6.3 million business start-ups and over 5.7 million business shut-downs. Risk of failure can be greatly reduced through effective organizational design that encourages high performance and adaptability to changing circumstances. Organization design is a straightforward business process but curiously managers rarely talk about it and even more rarely take steps to consciously design or redesign their business for success. This new Economist guide explores the five principles of effective organization design, which are that it must be: driven by the business strategy and the operating context (not by a new IT system, a new leader wanting to make an impact, or some other non-business reason). involve holistic thinking about the organization be for the future rather than for now not to be undertaken lightly - it is resource intensive even when going well be seen as a fundamental process not a repair job. (Racing cars are designed and built. They are then kept in good repair.)
