Nation and Word, 1770-1850 Mary Anne Perkins, 2016-12-05 The emergence of the modern nation state in Europe and the accompanying rise in national consciousness led to a heightened awareness of the close relationship between language and national identity. In this book the author shows that this relationship was expressed through the themes and figures of a 'language' of nationhood, drawn from a common European cultural heritage, particularly the Classical and Christian traditions. Despite its common roots, this language became the medium through which the diversity of national characters was expressed. The idea of the divine Word, for example, enabled the sacredness and power of national language to be celebrated. The identification of poet and prophet gave Romantic nationalists an authority to speak for and to the nation, and the theme of the Chosen People was often adopted to express the elect status of a writer's own nation. In conclusion, it is shown that this language of nationhood remains a powerful force at the end of the twentieth century.

East-West Sword and Word Anwar A. Abdullah, 2017-02-24 Amid the rising technicalities of modernism, the heart of humanity has been ripped apart, and while religionism is tearing throughout the heart of modernity, everything is hinting at danger to come. Caught amid their dramatic collide, we moderns have been left in a de facto despair. And while the glory each claimed seems a key factor for more tragedies, they are almost overshadowed by the merging supremacy of money lifemammonism. They are all letting us down and parts us moderns from our trustworthy dream of truth, beauty, and justice. Further, it is impossible to read far in the underlying factors and related elements of the coming crises, and all of them are worrisome, either of reorganization of tender nature, of reprogramming of living cells, and of current technotronic engineering of time via digitized machines without finding that they will certainly shake the good grounds of faith and beliefs everywhere. De-risking the inevitable and while working around such a failure, we moderns have to humanly build on our own strength.
