Teaching Children's Literature Christine H. Leland, Mitzi Lewison, Jerome C. Harste, 2022-11-17 Now in its third edition, this indispensable text offers a critical perspective on how to integrate children's literature into the curriculum in effective, purposeful ways. Structured around three mantras that build on each other—Enjoy; Dig deeply; Take action—the book is rich with real examples of teachers implementing critical pedagogy and tools to support students' development as enthusiastic readers and thinkers. The materials and practical strategies focus on issues that impact children's lives, building from students' personal experiences and cultural knowledge by using language to question the everyday world, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. Each chapter features classroom vignettes showcasing the use of literature and inviting conversation; three key principles elaborating the main theme of the chapter and connecting theory with practice; and related research on the topics and their importance for curriculum. Thoroughly revised, the third edition includes new recommendations for teaching with a critical edge and exploring alternative approaches to standardized assessment. With more attention to culturally and linguistically diverse learners and addressing new topics such as censorship and controversial texts, the new edition is essential for courses on teaching children's literature and English Language Arts methods, and for every preservice elementary and middle school English teacher. A companion website to enrich and extend the text includes an annotated bibliography of literature selections, suggested text sets, resources by chapter, ideas for professional development, and recommendations for further reading.

The Tropes of Fantasy Fiction Gabrielle Lissauer, 2014-12-24 Comparing various fantasy fiction stories, this book

shows that it is not the tropes and cliches that make a story good or bad but how the author applies them. The book also explores the concept of text versus meta-text--that is, when the story's world and character actions contradict the reader's expectations based on the tropes being used. Covering authors from Mercedes Lackey and Brandon Sanderson to Christopher Paolini and Stephenie Meyer, the author finds that it is the nature of tropes and the language used that make a fantasy story, for bad or good.

I'm Alive Christine Holubec-Jackson,2023-11-16 You will laugh cry and be inspired while reading Christine Holubec-Jackson's memoir *I Am Alive*. This gentle wife and mother tells her story of survival through an unbelievable host of trials and tribulations as she hangs on for dear life on the roller coaster of life. In the Midst of Chaos Bonnie J. Miller-McLemore,2019-03-01 How the daily practices of life with children can shape our faith *In the Midst of Chaos* explores parenting as spiritual practice, building on Bonnie J. Miller-McLemore's fresh conceptions of children from her book *Let the Children Come*. She questions conventional perceptions that spiritual practices require silence, solitude, and uninterrupted prayer and that assume a life unburdened by care of others. She is both honest about the difficulties and attentive to the blessings present in everyday life and demonstrates that the life of faith encompasses children and the adults who care for them. Miller-McLemore explores how parents might use seven daily practices, such as play, reading, chores, and saying goodbye or goodnight as rich opportunities to shape both parent and child morally and spiritually. Through these experiences, she shows how the very care of children forms and reforms the faith of adults themselves, contrary to the belief that adults must form children. *In the Midst of Chaos* also goes beyond the typical focus on individual self-fulfillment by tackling difficult questions of social justice and mutuality in the ways families live together. Readers will find in this book an invitation to love those around them in the midst of life's craziness and to live more deeply in grace.

Learning from the Boys Valarie G. Lee, 2013-01-01 The "Boy Crisis" is cited often in educational and news reports due to the consistent reading achievement gap for boys and the statistics paint a dismal picture of boys in school. Politicians and researchers often focus on boys' low scores on reading achievement tests and compare these scores to the girls' scores with little consideration for the actual reading lives of boys. As a result, adolescent boys' vernacular reading is most often misunderstood. This book documents my journey as a mother of three boys and teacher of adolescents, as I attempt to articulate both the in-school and out-of-school experiences of boys. The book describes my attempts at creating a more complete picture of the reading lives and experiences of adolescent boys by describing three boys and their reading experiences in their natural contexts. It provides a rich description, revealing disconnects between school literacy practices and boys' vernacular literacy practices. In this book, parents, administrators, and teachers will find discover the complexity of boys as readers, challenging educators to pursue effective practice and curricular decisions which go beyond the quick fixes for the boy problem so often seen in response to low test scores. This book provides parents, administrators, and teachers with an in-depth description of three boy readers. What emerges is a description of the complexity of boys as readers, challenging educators to pursue effective practice and curricular decisions which go beyond the quick fixes for "the boy problem" so often seen in response to low test scores. Teachers interested in mentoring boy readers will find this book helpful. This book can also be used with pre-service and in-service teachers, in undergraduate and graduate courses, and in professional development.

The Scholarship of Creative Writing Practice Marshall Moore, Sam Meekings, 2024-01-25 The first study to explore deeply and intimately the complex and multifaceted nature of creative writing practice, The Scholarship of Creative Writing and Practice offers a new route in scholarly inquiry for creative writing studies, probing beyond pedagogical methods (with which most of the field's scholarship is occupied) to explore the writing life as it is experienced by a wealth of international writer/academics. With academic creative writing programs beginning to adopt a more pragmatic, industry-focused stance, students of writing increasingly need and expect to complete their degrees moderately prepared to monetize the skills they have learned - so there is now more than ever a great responsibility to present studies, methodologies and experience that can inform students and instructors. In response, Sam Meekings and Marshall Moore have pulled together academic investigations from some of the most prominent names in creative writing studies to take stock of the diverse definitions and pluralities of creative practice, to examine how they have carved out a 'writing life', what work habits they have adopted to achieve this, how these practitioners work as creatives both within and outside of the academy and to put forward strategies

for a viable writing life. Offering intelligent, philosophical, pragmatic and actionable methods for robust writing practice, this book provides a multi-national perspective on the various aspects of practice and process. Essays explore what writing practice means for individuals and how this can be modeled for students; how the mythic nature of creativity can be channeled through practical working habits; practice through the lenses of social responsibility, sensitivity, empathy and imagination; writing during times of duress and the barriers writers encounter in their craft; the demand of author platforms; the role of the creative writing academic/writer; and the process of learning from published and practicing authors. Wide-ranging in its investigations and generous in insight, *The Scholarship of Creative Writing and Practice* presents creative, imaginative and transdisciplinary approaches to this under-researched area.
