

Characteristics Of A Prostitute

Iwan Bloch

Criminal Woman, the Prostitute, and the Normal Woman Cesare Lombroso, Guglielmo Ferrero, 2004-01-16 Cesare Lombroso is widely considered the founder of the field of criminology. His theory of the “born” criminal dominated discussions of criminology in Europe and the Americas from the 1880s into the early twentieth century. His book, *La donna delinquente*, originally published in Italian in 1893, was the first and most influential book ever written on women and crime. This comprehensive new translation gives readers a full view of his landmark work. Lombroso’s research took him to police stations, prisons, and madhouses where he studied the tattoos, cranial capacities, and sexual behavior of criminals and prostitutes to establish a female criminal type. *Criminal Woman, the Prostitute, and the Normal Woman* anticipated today’s theories of genetic criminal behavior. Lombroso used Darwinian evolutionary science to argue that criminal women are far more cunning and dangerous than criminal men. Designed to make his original text accessible to students and scholars alike, this volume includes extensive notes, appendices, a glossary, and more than thirty of Lombroso’s own illustrations. Nicole Hahn Rafter and Mary Gibson’s introduction, locating his theory in social context, offers a significant new interpretation of Lombroso’s place in criminology.

The Prostitution of Women and Girls Ronald B. Flowers, 1998 According to reports of the World Health Organization, the prostitution of women and children is increasing dramatically throughout the world. The problem is particularly acute in the lower socioeconomic sectors of the population, including teen runaways, drug addicts, and victims of abuse. This survey focuses first on defining prostitution and then on the motivations of those who became prostitutes. In Part II the overall scope of the problem is examined, along with the various subcultures (e.g., street walkers and call girls) and the prevalence of drugs, crime and victimization. Part III covers teenage prostitution and the issues of child sexual abuse. Part IV details other dimensions of the sex trade industry, such as pornography, male prostitutes, customers, laws, and the effects of decriminalization and legalization. Female prostitution outside the United States is discussed in Part V.

Sex and Character Otto Weininger, 2005-04-14 Otto Weininger's controversial book *Sex and Character*, first published in Vienna in 1903, is a prime example of the conflicting discourses central to its time: antisemitism, scientific racism and biologism, misogyny, the cult and crisis of masculinity, psychological introspection versus empiricism, German idealism, the women's movement and the idea of human emancipation, the quest for sexual liberation, and the debates about

homosexuality. Combining rational reasoning with irrational outbursts, in the context of today's scholarship, *Sex and Character* speaks to issues of gender, race, cultural identity, the roots of Nazism, and the intellectual history of modernism and modern European culture. This new translation presents, for the first time, the entire text, including Weininger's extensive appendix with amplifications of the text and bibliographical references, in a reliable English translation, together with a substantial introduction that places the book in its cultural and historical context.

Encyclopedia of Prostitution and Sex Work Melissa Hope Ditmore, 2006-08-30 The cliché is that prostitution is the oldest profession. Isn't it time that the subject received a full reference treatment? This major 2-volume set is the first to treat in an inclusive reference what is usually considered a societal failing and the underside of sexuality and economic survival. The A-to-Z encyclopedia offers wide-ranging entries related to prostitution and the sex industry, past and present, both worldwide (mostly in the West) and in the United States. The topic of prostitution has high-interest appeal across disciplines, and the narrative entries illuminate literature, art, law, medicine, economics, politics, women's studies, religion, sociology, sexuality, film, popular culture, public health, nonfiction, American and world history, business, gender, media, education, crime, race, technology, performing arts, family, social work, social mores, pornography, the military, tourism, child labor, and more. It is targeted to the general reader, who will gain useful insight into the human race through time via its sex industry and prostitution. An introduction overviews the scope of prostitution from the earliest historical records, including the Bible. User-friendly lists that are alphabetically and topically arranged help the reader find entries of interest, as does the comprehensive index. A chronology proffers significant dates related to the topic. Each entry is signed and has suggestions for further reading. Sample entries: Abolition; Actresses; Augustine, Saint; Barr, Candy; Bible; Camp Followers; Chamberlain-Kahn Bill of 1918; Child Prostitution; Clothing, Contagious Diseases Acts of 1864, 1866, and 1869; Crime; Debby Doesn't Do It for Free; Dickens, Charles; Devadasi; Entrapment; Fallen Woman Trope; Feminism; Films, Cult; Five Points; Free Love; Geisha; Globalization; Guidebooks; Hip-Hop; HIV/AIDS and the Prostitution Rights Movement; Human Rights; Incest; Internet; Jack the Ripper; Kama Sutra; League of Nations; Lulu; Male Stripping; Mann Act; Mayhew, Henry; Memoirs; Migration and Mobility; Nazi Germany; Poetry; Purity Movements; R&R; Religion; Salvation Army; Scapegoating; Slang; Storyville; Temporary Marriage; Unions; Venice; Window Prostitution.

The Sexual Life of Our Time in Its Relations to Modern Civilization Iwan Bloch, 1909

Sex and Character Education Edgar Flandreau Van Buskirk,1925

Overcoming Objectification Ann J. Cahill,2024-12-19 The second edition of *Overcoming Objectification: A Carnal Ethics* provides a critical analysis of the widely used (particularly in feminist philosophy) concept of objectification, and offers a new concept (derivatization) in its stead. Cahill suggests an abandonment of objectification due to the concept's dependence on a Kantian ideal of personhood, an ideal that fails to recognize sufficiently the role the body plays in personhood and results in an implicit vilification of the body and sexuality. Phenomena associated with objectification are ethically problematic not because they render women objects, and therefore not-persons, but rather because they construct feminine subjectivity and sexuality as wholly derivative of masculine subjectivity and sexuality. Women are not objectified as much as they are derivatized: turned into a mere reflection or projection of the other. Cahill argues for a sexual ethics grounded in difference, carnality, and intersubjectivity. The preface to the second edition traces new scholarly contributions to conversations regarding sexual ethics, feminist engagements with Kant, intersectionality, and trans philosophy. With original and far-reaching insights regarding the structure of gender inequality, this work will be of interest to students and scholars in the humanities and social sciences alike and will be of particular use to those interested in sexual ethics, sexual assault, and dominant media representations of gendered bodies.

The Pacific Reporter ,1919

The sexual life of our time: a complete encyclopaedia of the sexual Iwan Bloch,1937

A Treatise on the System of Evidence in Trials at Common Law John Henry Wigmore,1904

Safer Sex in the City Maria Ioannou,2016-04-15 Throughout history prostitution has always been a source of fierce debate; societies have either grudgingly tolerated it or tried (always unsuccessfully) to ban it. With the emergence of much more overt acceptance of all forms of sexual activity it has become more apparent that sex workers who ply their trade on the streets of our cities are a particularly vulnerable group at risk of violent attacks and assaults. The realization on the implications for such violence on society overall, led to the emergence of this volume. With research gathered from academics and practitioners hailing from various countries and fields, this edited collection will be invaluable for those who want to better understand the experience of street sex workers, the strategies available for managing this trade and how to help reduce the violence against the men and women who conduct it.
