Arming Against Hitler Eugenia C. Kiesling, 1996 In May-June 1940 the Germans demolished the French Army, inflicting more than 300,000 French casualties, including more than 120,000 dead. While many historians have focused on Frances' failure to avoid this catastrophe, Eugenia Kiesling is the first to show why the French had good reason to trust that their prewar defense policies, military doctrine, and combat forces would preserve the nation.

Réduction des méfaits et tolérance en santé publique Isabelle Mondou, Raymond Massé, 2013-05-28T00:00:00-04:00

Au cours des dernières décennies, dans ses efforts lutter contre les comportements à risque pour la santé des citoyens, la santé publique a élargi son éventail d'interventions. La lutte inconditionnelle aux pratiques et aux habitudes de vie délétères à la santé cohabite désormais avec une approche plus tolérante qui vise, avec pragmatisme et humanisme, la réduction des risques et des méfaits, plutôt que l'élimination de ces pratiques. L'approche, initialement mise en oeuvre dans le champ de la toxicomanie, s'étend aujourd'hui largement à d'autres domaines tels ceux de la violence conjugale et des mutilations sexuelles. Quels critères faut-il retenir pour définir les pourtours de cette approche? Comment a-t-elle été institutionnalisée? Avec quelles conséquences? Quels en sont les fondements et les limites éthiques? Quelles sont les interactions entre les enjeux sociaux et politiques de son développement dans les histoires des politiques de santé au Québec et ailleurs dans le monde? Les auteurs de cet ouvrage font le point sur l'état de ces questions et ouvrent de nouveaux horizons.

French Humanist Tragedy Donald Stone, 1974 In this, the first study of its kind to appear in English, the author - a professor of Romance Languages at Harvard University - discusses the concepts which determined the nature and function of French humanist tragedy and the importance of those concepts with regard to the genre's relationship to medieval, ancient and French classical drama. The emphasis on conceptual rather than formal considerations reveals strong ties between tragedy and other sixteenth century genres, now largely neglected. The book also shows that the formal changes in tragedy introduced by the humanists are less consequential than once thought, and in his last chapter suggests that a deeper appreciation of the character of French humanist tragedy can shed new light on the coming of classicism.

The French Encounter with Africans William B. Cohen, 2009-07-22 As French and American historians of France are

revisiting the history of French racism today, William B. Cohen's book is more important than ever. It has become a classic. -- Nancy L. Green In this pioneering work, William B. Cohen traces the ways in which negative attitudes toward blacks became deeply embedded in French culture. Examining the forces that shaped these views, Cohen reveals the persistent inequality of French interactions with blacks in Africa, in the slave colonies of the West Indies, and in France itself. Now a classic, *The French Encounter with Africans* is essential reading for anyone engaged in current discussions of European relations with non-Europeans and with issues of racism, ethnicity, identity, colonialism, and empire.

Analyses of Nineteenth- and Twentieth-Century Music, 1940-2000 D. J. Hoek, 2007-02-15 The latest volume in the Music Library Association's Index and Bibliography series, *Analyses of Nineteenth- and Twentieth-Century Music, 1940-2000*, features over 9,000 references to analyses of works by more than 1,000 composers of the nineteenth and twentieth centuries. References that address form, harmony, melody, rhythm, and other structural elements of musical compositions have been compiled into this valuable resource. This update of Arthur Wenk's well-known bibliography, last published in 1987, includes all the original entries from that work, along with additional references to analyses through 2000. International in scope, the bibliography covers writings in English, French, German, Italian, and other European languages, and draws from 167 periodicals as well as important theses, dissertations, books, and *Festschriften*. References are arranged alphabetically by composer, and include subheadings for specific works and genres. This bibliography provides students, scholars, performers, and librarians with broad coverage, detailed indexing, and ready access to a large and diverse body of analytical literature on nineteenth- and twentieth-century music.

Democratic Despot Thomas Anthony Buchanan Corley, 1974 Louis-Napoléon Bonaparte (20 April 1808 ? 9 January 1873) was the first President of the French Republic and, as Napoleon III, the ruler of the Second French Empire. He was the nephew and heir of Napoleon I. Elected President by popular vote in 1848, he initiated a coup d'état in 1851, before ascending the throne as Napoleon III on 2 December 1852, the forty-eighth anniversary of Napoleon I's coronation. He ruled as Emperor of the French until 4 September 1870. He holds the distinction of being both the first titular president and the last monarch of France.--Wikipedia.

Comprendre la comptabilité nationale (édition 2014) Sandrine ROQUE, 2015-03-19 Cette édition actualisée tient compte de la réforme du système européen des comptes 2010. Mise en place en 2014, elle permet d'harmoniser les systèmes de comptabilité des pays de l'Union européenne, facilitant ainsi leur comparaison. Outil de pilotage et aide à la décision, la comptabilité nationale fournit un tableau de bord de l'économie, nécessaire pour mener à bien des politiques économiques. Organisé en quatre séquences de travail, cet ouvrage permet de maîtriser les termes forgés par l'Insee et d'acquérir une indispensable vue d'ensemble du fonctionnement du circuit économique. Ce livre fait partie de la collection J'apprends, coéditée avec Eduter CNPR.

World Bank Assistance to Agriculture in Sub-Saharan Africa, 2007-01-01 Sub-Saharan Africa is a critical development priority-it has some of the world's poorest countries and during the past two decades the number of poor in the Region has doubled, to 300 million-more than 40 percent of the Region's population. Africa remains behind on most of the Millennium Development Goals (MDGs) and is unlikely to reach them by 2015. With some of the world's poorest countries, Africa is a development priority for the donor community. A major drag on Africa's development is the underperformance of the critical agriculture sector, which has been neglected both by donors and governments over the past two decades. The sector faces a variety of constraints that are particular to agriculture in Africa and make its development a complex challenge. Poor governance and conflict in several countries further complicate matters. IEG has assessed the development effectiveness of World Bank assistance in addressing constraints to agricultural development in Africa over the period of fiscal 1991-2006.
