The Mexican Legal System Francisc Avalos, 1992-05-26 This reference guide to the laws and legal literature of Mexico has been designed carefully by a reference librarian for researchers who do not read or speak Spanish. This basic sourcebook provides answers to the questions that are asked most frequently: Which is the relevant code? Where can the text of the code be found? What secondary material is available? Which material is available in English? This up-to-date guide should be useful as a reference in college, university, law, government, and public libraries and in companies that do business with Mexico. It could also be used in courses dealing with Mexican law and business. An introduction briefly describes Mexico's legal system and provides some historical background. Then the bibliography points to primary and secondary material of importance and is annotated partially. Entries are organized under forty-one subject categories with subdivisions pointing to the laws, the sources for the text of the laws, secondary materials from periodicals, and books and monographs. All Spanish titles are given first in Spanish and then in English. An appendix gives a directory of publishers. Author and subject indexes are included.

Recueil Des Cours - Collected Courses Hague Academy of International Law, 1986-03-01 The Academy is an institution for the study and teaching of public and private international law and related subjects. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law.

Essays on Private Law Ian F.G. Baxter, 1966-12-15 This book contains a series of essays on conflict laws, including jurisdiction of the courts, choice of law, renvoi, property, recognition of family status, and recognition of foreign corporations. It is not a text-book, but an analysis and criticism of existing principles with recommendations for reform and for a different approach to the subject. In general, an approach is advocated that will be simpler and less abstract and doctrinaire than at present, and better integrated with the ordinary laws of the forum. The recommendations made could be thought of as principles on which to build a reform of conflict of laws or a model code. The first two chapters deal with jurisdiction and choice of law, two distinct topics, with different considerations of policy, which have not always been kept distinct by judges and text writers. The third chapter considers certain questions of legal interpretation, mainly in the construction of money obligations expressed in a foreign currency. This shows a working out of the problems of contract analysis and interpretation which are dealt with more generally in other chapters. Another chapter discusses property law, a branch of the law which has been influenced, historically, by the doctrine of situs, and the recognition of status in family law and in corporation law. The concluding chapter draws together the main results of the preceding discussion and states from basic principles, one of which is that there is a need "for greater unity between the conflict rules and the general law," and for "allowing, where appropriate, the influence of legal systems other than that of the forum." Professor Baxter's discussion clearly shows that the complexity of current legal theory can lead to unjust rulings in the courts, and his case for greater simplification is argued compellingly.

De los títulos valores Lisandro Peña Nossa, 2016-01-01 Esta décima edición se ajusta al Código General del Proceso (Ley 1564 de 2012) e incorpora la jurisprudencia y doctrina vigentes en cada uno de los temas que componen la obra. La primera parte trata el concepto de título valor y sus principios rectores, los elementos esenciales genéricos, la letra de cambio, el pagaré, las facturas cambiarias, el cheque, el pago de título valor, la acción de enriquecimiento, y la reposición, cancelación y reivindicación del título valor. En la segunda parte el autor, con base en cuarenta y cinco años de experiencia profesional, ofrece las razones jurídicas para sostener que la carta de porte, el conocimiento de embarque, el certificado de depósito y el bono de prenda no son títulos valores.

Tratado de las obligaciones. Tomo I Fernando Hinestrosa, 2007-01-01 Concebida esta obra principalmente para el servicio de los estudiantes, quienes se inician en el conocimiento de una materia de suyo vasta y abstracta, el autor ha considerado aconsejable procurar la mayor precisión de los conceptos y figuras, dentro de una combinación indispensable de la doctrina con la normatividad y los hechos vitales regulados por ésta, con el cuidado de relacionar, por honestidad y a título de orientación, las obras y la jurisprudencia más relevantes y mayormente consultadas desde la elaboración inicial del trabajo hasta las posteriores, con incorporación de pasajes, a fin de facilitar al lector el acceso al pensamiento ajeno: siempre he querido compartir esos hallazgos y difundir su conocimiento. Todo con el propósito de estimular el empeño de clarificar y profundizar la noticia y la reflexión sobre una materia fundamental para la formación del profesional del derecho, que luego de precisada la noción de la relación obligatoria debe estudiar los distintos aspectos y formas que puede presentar dicho vínculo, cualquiera que sea el fenómeno que le haya dado origen, como también las modificaciones que puede experimentar, prescindiendo por entero de su fuente; para más adelante profundizar en los pormenores de las distintas fuentes y desentrañar la experiencia y el porvenir de su funcionamiento.

Algunos elementos de técnica legislativa Eliseo Muro Ruíz, 2006 En la formación permanente del abogado se ha de contribuir a fomentar valores que persigue la norma jurídica, ya que el desarrollo de un país no depende de la creación de riqueza, sino de como se distribuya con justicia, respetando la dignidad humana, la libertad, la autoridad legítima, el bien común, la justicia, la solidaridad y la honestidad; la producción con calidad de bienes y servicios para la sociedad; el cuidado del medio ambiente; la participación cívica de la empresa y el empresario; respetar las leyes para no afectar las condiciones del mercado y la convivencia social, así como la tolerancia, el pluralismo político y el apego a la legalidad.

Espíritu y estructura del Derecho Positivo Luis Javier Balmori Rodríguez, Beatriz Eugenia del Rosario Montero Rocha, Laura Olivia Flores Acosta, 2017-01-01

Auditoría Forense ,

Derecho de las obligaciones con propuestas de modernización Tomo IV Marcela Castro de Cifuentes, 2022-01-04 El derecho de las obligaciones continúa siendo, no obstante los incesantes cambios normativos, las nuevas corrientes doctrinales y los nacientes campos del saber jurídico, la columna vertebral de las relaciones patrimoniales en nuestro derecho privado. Su estructura y sus principios se proyectan sobre todo el ordenamiento y proveen soluciones razonables a falta de disposiciones especiales. Por ello resulta imperioso estudiarlo en forma continua con miras a su cabal comprensión y

también a su mejoramiento. Este es el espíritu que inspira la segunda edición de la obra Derecho de las obligaciones, publicada inicialmente en 2009. Tras varios años en los que ha servido como texto universitario, como material de consulta profesional y con una exitosa reimpresión, llegó la hora de ponerlo al día revisando sus contenidos para incorporar no solo la bibliografía y la jurisprudencia más recientes, sino más importante aún, presentar propuestas de modernización formuladas por los autores en sus respectivos temas.

Bienes tercera edición Ternera Barrios, Francisco, 2014-04-24 Este libro está dividido en tres partes. En la primera el autor estudia los bienes o cosas, en sus palabras, los objetos de derechos patrimoniales. En la segunda presenta un esquema general de los derechos patrimoniales: derechos reales y personales, y en la última estudia los derechos reales. Se concentra en tres capítulos: clasificación de los derechos reales, modos de adquisición y acciones. El autor hace una muy interesante presentación de una vastísima materia, sirviéndose de argumentos muy sólidos y rigurosos. Denis Mazeaud, Universidad París II.
