Alice Walker's Metaphysics Nagueyalti Warren,2019-01-16 Catapulted to fame in 1982 with the publication of her third novel—the Pulitzer Prize-winning *The Color Purple*—Alice Walker has become one of America’s most celebrated and divisive authors. With books such as *Meridian* and *The Third Life of Grange Copeland*, Walker’s writing has frequently been cited for messages in support of civil rights and feminism. Above all, however, Walker is a spiritual seeker. Her works are dominated by the search for truth, wholeness, and the spirit that connects everyone and everything. In *Alice Walker’s Metaphysics: Literature of Spirit*, Nagueyalti Warren examines the philosophy and worldview present in all of Walker’s writing. Warren contends that Walker is a literary theologian, citing the transformative changes that take place in the author’s fictional characters. Warren also points to Walker’s bravery in approaching taboo subjects, her generosity of spirit, and her love for humanity, which are represented throughout her poems, novels, short stories, children’s books, and essays. This analysis is further supplemented by primary sources from Walker’s unpublished material, including notes and scrapbooks. By exploring the spirituality evident throughout the author’s work, this volume shows how Walker challenges readers to recognize and understand their responsibility to the earth—and to one another. Providing a fresh, accessible look at one of the twentieth century’s most prolific women writers, *Alice Walker’s Metaphysics: Literature of Spirit* will appeal to both academics and fans of the author’s varied literature.

Love Every Black Debora Sylvester,2019-10-22 In a world where black boys and girls have to constantly put in a hundred times more to be just as successful, it is only necessary that there be a motivational force to help them thrive and excel above all. What this book will do is build up love for themselves and each other. It will propel them to higher heights and let them visualize themselves as greats on the earth. The black race has gone through immensely horrendous pains in this world and also has shown resilient, strength and triumph through many heroes of times past and today. It is important to bring to light the beautiful thing about being black, for it is indeed a gift from God. It is also important that young black girls and boys learn what their purpose and power is and to utilize that for the good of all my kind.

Purposeful Teaching and Learning in Diverse Contexts Darrell Hucks, Yolanda Sealey-Ruiz, Victoria Showunmi, Suzanne C. Carothers, Chance W. Lewis, 2022-01-01 Teachers have faced serious public critique regarding their effectiveness and professionalism in classrooms. At every level, their work is often measured solely against student achievement outcomes, often on standardized tests (Darling-Hammond & Youngs, 2002; Ravitch, 2010). Unfortunately, students who are coming from culturally, economically, and linguistically diverse backgrounds are often occupying the bottom rungs regarding academic achievement (Ladson-Billings, 1995; Milner, 2010; Hucks, 2014). What are the obstacles and challenges teachers and students face in their respective school settings and how do they grapple with and overcome them? Finally, what do these teachers and students know that motivates and informs their work? The scholars in this volume will take up these questions and share the findings of their research in the field of leadership, teacher education, and achievement. These concerns are not limited to the geographic boundaries of the United States of America. Engaging purposeful teaching is an imperative that concerns students, teachers, teacher educators, educational leaders, and education policy makers around the globe. There are many educators worldwide who are committed to delivering this type of teaching and promoting learning that is engaged and active. The four sections of the book capture the work of educators in teaching in diverse global settings such as the Australia, United Kingdom, Jamaica, Turkey, and across America. As diverse populations of students enter American classrooms, it is important for their teachers to have relatable examples of purposeful teaching that are culturally responsive and culturally relevant.

An African American Dilemma Zoë Burkholder, 2021-07-11 An African American Dilemma offers the first social history of northern Black debates over school integration versus separation from the 1840s to the present. Since *Brown v. Board of Education* in 1954 Americans have viewed school integration as a central tenet of the Black civil rights movement. Yet, school integration was not the only--or even always the dominant--civil rights strategy. At times, African Americans also fought for separate, Black controlled schools dedicated to racial uplift and community empowerment. An African American Dilemma offers a social history of these debates within northern Black communities from the 1840s to the present. Drawing on sources including the Black press, school board records, social science studies, the papers of civil rights activists, and court cases, it reveals that northern Black communities, urban and suburban, vacillated between a preference for either school integration or separation during specific eras. Yet, there was never a consensus. It also highlights the chorus of dissent, debate, and counter-narratives that pushed families to consider a fuller range of educational reforms. A sweeping historical analysis that covers the entire history of public education in the North, this work complicates our understanding of school integration by highlighting the diverse perspectives of Black students, parents, teachers, and community leaders all committed to improving public education. It finds that Black school integrationists and separatists have worked together in a dynamic tension that fueled effective strategies for educational reform and the Black civil rights movement, a discussion that continues to be

highly charged in present-day schooling choices.

The Black Abolitionist Papers C. Peter Ripley, Roy E. Finkenbine, 2000-11-09 This five-volume documentary collection--culled from an international archival search that turned up over 14,000 letters, speeches, pamphlets, essays, and newspaper editorials--reveals how black abolitionists represented the core of the antislavery movement. While the first two volumes consider black abolitionists in the British Isles and Canada (the home of some 60,000 black Americans on the eve of the Civil War), the remaining volumes examine the activities and opinions of black abolitionists in the United States from 1830 until the end of the Civil War. In particular, these volumes focus on their reactions to African colonization and the idea of gradual emancipation, the Fugitive Slave Law, and the promise brought by emancipation during the war.

How Hip Hop Became Hit Pop Amy Coddington, 2024-07-26 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *How Hip Hop Became Hit Pop* examines the programming practices at commercial radio stations in the 1980s and early 1990s to uncover how the radio industry facilitated hip hop's introduction into the musical mainstream. Constructed primarily by the Top 40 radio format, the musical mainstream featured mostly white artists for mostly white audiences. With the introduction of hip hop to these programs, the radio industry was fundamentally altered, as stations struggled to incorporate the genre's diverse audience. At the same time, as artists negotiated expanding audiences and industry pressure to make songs fit within the confines of radio formats, the sound of hip hop changed. Drawing from archival research, Amy Coddington shows how the racial structuring of the radio industry influenced the way hip hop was sold to the American public, and how the genre's growing popularity transformed ideas about who constitutes the mainstream. The author gratefully acknowledges the AMS 75 PAYS Fund of the American Musicological Society, supported in part by the National Endowment for the Humanities and the Andrew W. Mellon Foundation.

On Elton John Edwin Erle Sparks Professor of History Anthropology and Women's Gender & Sexuality Studies and Director of Latin American Studies Matthew Restall, Matthew Restall, 2025 Sir Elton John is a living superlative. As the solo musical artist who has sold more records worldwide than any other, his biography is packed with mosts-buoyed by the fact that he is now in his sixth decade in the music business, enacting his retirement (Jexit, as the British press have dubbed it) while simultaneously working as hard as ever to burnish his status as an icon not just of popular music, but of popular culture. Although the literature on John is consequently extensive, a novel approach to his career and music is here offered by historian Matthew Restall--

Black and More than Black Cameron Leader-Picone, 2019-08-23 CHOICE Outstanding Academic Title for 2020 Post-Blackness. Post-Soul. Post-Black Art. New Blackness. How has the meaning of blackness changed in the twenty-first century? Cameron Leader-Picone suggests that this proliferation of terms, along with the renewed focus on questioning the

relationship between individual black artists and the larger black community, indicates the arrival of novel forms of black identity and black art. Leader-Picone defines these terms as significant facets of a larger post era, linking them with the social and political context of Barack Obama's presidency. Analyzing claims of progress associated with Obama's election and post-era thinking, he examines the contours of black aesthetics in the new century. To do so, he sifts through post-era African American fiction, considering both celebrations and rejections of an early twenty-first-century rhetoric of progress. In addition, he maps the subsequent implications of these concepts for rearticulating racial identities. Through the works of Colson Whitehead, Alice Randall, Chimamanda Ngozi Adichie, Paul Beatty, Kiese Laymon, and Jesmyn Ward, Leader-Picone tracks how recent fiction manifests the tension between the embrace of post-civil rights era gains and the recognition of persistent structural racism. Ultimately far less triumphal than the prefix post would imply, these authors address the Black Arts Movement and revise double consciousness and other key themes from the African American literary tradition. They interrogate their relevance in an era encompassing not only the election of the nation's first black president, but also the government's failed response to Hurricane Katrina, the expansion of class divisions within the black community, mass incarceration, and ongoing police violence.

Black World/Negro Digest, 1969-02 Founded in 1943, Negro Digest (later "Black World") was the publication that launched Johnson Publishing. Mothers, Mothering, and COVID-19 Fiona J Green, Andrea O'Reilly, 2021-02-28 There has been little public discussion on the devastating impact of Covid-19 on mothers, or a public acknowledgement that mothering is frontline work in this pandemic. This collection of 45 chapters and with 70 contributors is the first to explore the impact of the pandemic on mothers' care and wage labour in the context of employment, schooling, communities, families, and the relationships of parents and children. With a global perspective and from the standpoint of single, partnered, queer, racialized, Indigenous, economically disadvantaged, disabled, and birthing mothers, the volume examines the increasing complexity and demands of childcare, domestic labour, elder care, and home schooling under the pandemic protocols; the intricacies and difficulties of performing wage labour at home; the impact of the pandemic on mothers' employment; and the strategies mothers have used to manage the competing demands of care and wage labour under COVID-19. By way of creative art, poetry, photography, and creative writing along with scholarly research, the collection seeks to make visible what has been invisibilized and render audible what has been silenced: the care and crisis of motherwork through and after the COVID-19 pandemic.

The Poetics of American Song Lyrics Charlotte Pence, 2012-01-02 The Poetics of American Song Lyrics is the first collection of academic essays that regards songs as literature and that identifies intersections between the literary histories of poems and songs. The essays by well-known poets and scholars including Pulitzer Prize winner Claudia Emerson, Peter Guralnick, Adam Bradley, David Kirby, Kevin Young, and many others, locate points of synthesis and separation so as to better understand both genres and their crafts. The essayists share a desire to write on lyrics in a way that moves beyond sociological, historical, and autobiographical approaches and explicates songs in relation to poetics. Unique to this volume, the essays focus not on a single genre but on folk, rap, hip hop, country, rock, indie, soul, and blues. The first section of the book provides a variety of perspectives on the poetic history and techniques within songs and poems, and the second section focuses on a few prominent American songwriters such as Bob Dylan, Bruce Springsteen, and Michael Stipe. Through conversational yet in-depth analyses of songs, the essays discuss sonnet forms, dramatic monologues, Modernism, ballads, blues poems, confessionalism, Language poetry, Keatsian odes, unreliable narrators, personas, poetic sequences, rhythm, rhyme, transcription methods, the writing process, and more. While the strategies of explication differ from essay to essay,

the nexus of each piece is an unveiling of the poetic history and poetic techniques within songs.

Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals Hartsfield, Danielle E., 2021-06-25 Perspectives and identity are typically reinforced at a young age, giving teachers the responsibility of selecting reading material that could potentially change how the child sees the world. The Epistle of Forgiveness Abū l-'Alā' al-Ma'arri, 2016-03-15 Known as "one of the most complex and unusual texts in Arabic literature" (Banipal Magazine), The Epistle of Forgiveness is the lengthy reply by the prolific Syrian poet and prose writer, Abu l-'Ala' al-Ma'arri (d. 449/1057), to a letter by an obscure grammarian, Ibn al-Qari. With biting irony, The Epistle of Forgiveness mocks Ibn al-Qari's hypocrisy and sycophancy by imagining he has died and arrived with some difficulty in Heaven, where he meets famous poets and philologists from the past. In al-Ma'arri's imaginative telling, Ibn al-Qari also glimpses Hell and converses with the Devil and various heretics. Al-Ma'arri—a maverick, a vegan, and often branded a heretic himself—seems to mock popular ideas about the Hereafter. Among other things, he introduces us to hypocrites, poets, princes, rebels, mystics, and apostates, with asides on piety, superstition, wine-drinking, old age, and other topics. This remarkable book is the first complete translation of this masterpiece into any language, all the more impressive because of Al-Ma'arri's highly ornate and difficult style, his use of rhymed prose, and his numerous obscure words and expressions. Replete with erudite commentary, amusing anecdotes, and sardonic wit, The Epistle of Forgiveness is an imaginative tour-de-force by one of the most pre-eminent figures in classical Arabic literature. An English-only edition.

How to Be an Antiracist Ibram X. Kendi, 2023-01-31 #1 NEW YORK TIMES BESTSELLER • From the National Book Award-winning author of *Stamped from the Beginning* comes a “groundbreaking” (Time) approach to understanding and uprooting racism and inequality in our society and in ourselves—now updated, with a new preface. “The most courageous book to date on the problem of race in the Western mind.”—The New York Times ONE OF THE BEST BOOKS OF THE YEAR—The New York Times Book Review, Time, NPR, The Washington Post, Shelf Awareness, Library Journal, Publishers Weekly, Kirkus Reviews *Antiracism* is a transformative concept that reorients and reenergizes the conversation about racism—and, even more fundamentally, points us toward liberating new ways of thinking about ourselves and each other. At its core, racism is a powerful system that creates false hierarchies of human value; its warped logic extends beyond race, from the way we regard people of different ethnicities or skin colors to the way we treat people of different sexes, gender identities, and body types. Racism intersects with class and culture and geography and even changes the way we see and value ourselves. In *How to Be an Antiracist*, Kendi takes readers through a widening circle of antiracist ideas—from the most basic concepts to visionary possibilities—that will help readers see all forms of racism clearly, understand their poisonous consequences, and work to oppose them in our systems and in ourselves. Kendi weaves an electrifying combination of ethics, history, law, and science with his own personal story of awakening to antiracism. This is an essential work for anyone who wants to go beyond the awareness of racism to the next step: contributing to the formation of a just and equitable society.
