Claves para la definición de un paisaje cultural Desiderio Vaquerizo-Gil, Ana Ruiz-Osuna, Belén Vázquez-Navajas, 2023-07-20 The Guadalquivir River has been a feature of the identities of the communities settled around it throughout history. This book aims to reflect on contemporary threats to the sustainability of the region's complex cultural landscapes from multiple perspectives, including archaeology, the natural environment, didactics, new technologies and tourism.

Normas sanitarias para cementerios Joaquín Gámez de la Hoz, Ana Padilla Fortes, Ana Rubio García, 2013-02-08 La presente publicación recopila los requisitos técnicos específicos relativos a las condiciones sanitarias de los cementerios y construcciones funerarias asociadas de las 17 comunidades autónomas españolas, proporcionando un compendio de las principales diferencias y elementos en común contemplados en las distintas normas de sanidad ambiental. Con esta guía práctica pretendemos que sirva de herramienta de consulta tanto para el sector profesional (proyectistas, empresas funerarias, gestores, fabricantes, constructores, etc), administraciones públicas en sus diferentes niveles, así como la sociedad civil en su conjunto (asociaciones, agentes sociales, usuarios...), con el propósito de difundir los criterios mínimos necesarios para lograr ambientes libres de riesgos en espacios de uso colectivo.

Historias en la Piedra. La escritura última en los cementerios ingleses de Canarias Manuel Ramírez Sánchez, 2016-12-13 En este libro se realiza un acercamiento inédito a la presencia británica en las islas Canarias a través del estudio de los monumentos funerarios que se conservan en los tres cementerios protestantes que existen aún en el Archipiélago. El estudio de estas escrituras últimas, siguiendo la definición del paleógrafo italiano Armando Petrucci, permite conocer desde una nueva perspectiva la evolución de la actitud ante la muerte de la comunidad británica residente en un país católico como España, desde la época victoriana hasta mediados del pasado siglo. A través del análisis de sus inscripciones, pero también del simbolismo de los propios monumentos, en su mayoría importados del Reino Unido, es posible reconstruir las historias personales, pero también las mentalidades de aquellas personas que descansan en paz en un territorio muy alejado del que les vio nacer. Manuel Ramírez Sánchez (Las Palmas de Gran Canaria, 1967), es Profesor Titular de Ciencias y Técnicas Historiográficas en la Universidad de Las Palmas de Gran Canaria, en cuya Facultad de Geografía e Historia imparte docencia desde 1993. Licenciado en Geografía e Historia en la Universidad de Salamanca en 1991, se doctora en la

Universidad de Las Palmas de Gran Canaria en 1999, obteniendo el Premio Extraordinario de Doctorado en esta Universidad. Sus intereses en materia de investigación se centran en el estudio de la epigrafía hispánica en época antigua, así como en la recuperación de los modelos epigráficos romanos durante el Renacimiento. Su interés por el estudio de las escrituras expuestas, desde la Antigüedad hasta la Edad Moderna, le ha llevado a interesarse por el estudio de las inscripciones en contextos cronológicos más recientes, siempre desde la perspectiva de la historia social de la cultura escrita.

Galicia insumisa Evangelina Sierra Bernardino, 2022-12-01 Derechos humanos plenamente reconocidos como libertad de conciencia o respeto por las minorías religiosas fueron, en el pasado, conceptos perseguidos por el Estado español. El presente libro describe la formación de los núcleos protestantes y los descubre en sus estrategias de implantación y supervivencia, en su organización interna y sus convicciones; y explica como el protestantismo se convirtió en la resistencia pacífica y tenaz en la lucha por la modernización del país. Libertad de conciencia, diversidad, normalización y respeto a las minorías religiosas son conceptos ligados a algunos derechos humanos fundamentales hoy plenamente reconocidos en el mundo occidental. Sin embargo, en España estos conceptos han estado dramáticamente asociados hasta hace muy pocas décadas a una realidad muy diferente: monolitismo religioso excluyente, persecución al disidente, intolerancia religiosa y resistencia por motivos de conciencia han escrito las páginas de nuestra historia prácticamente hasta la Constitución de 1978. *Galicia Insumisa* se adentra en el naciente protestantismo gallego decimonónico y analiza su implantación e impacto en el solar galaico, teniendo en cuenta dos perspectivas de análisis: por un lado, describe la formación de los núcleos protestantes y los descubre en sus estrategias de implantación y supervivencia, en su organización interna, su sociabilidad como familia de la fe y sus convicciones más profundas, aquellas que, como su concepto de la muerte y del paso al más allá, les enfrenta más dramáticamente con el entorno social circundante. Por otro lado, se centra en descubrir las razones históricas de la manifiesta incapacidad de todo un país para aceptar de manera normalizada la diversidad religiosa, que interpreta la pluralidad de credos como una espantosa traición a la identidad nacional. Así queda demostrado que, lejos de tratarse de un fenómeno propio de un segmento acotado de la población, con una mentalidad trasnochada y nostálgica de las viejas glorias del imperio, se trata de la acción que vincula de manera dinámica los antiguos estereotipos antiprotestantes con las muy vigentes estrategias para mantener la unidad religiosa, monolítica y excluyente a toda costa. Además, participan de ello amplios sectores sociales, políticos y culturales en toda España. De este modo, el protestantismo desde mediados del siglo XIX vino a convertirse -sin pretenderlo, pero de manera irremediable-, en silencioso protagonista de la resistencia pacífica y tenaz en la lucha por la modernización del país.

La protección jurídica del patrimonio religioso en Cantabria Enrique Herrera Ceballos,2015-01-14 En el ámbito del Patrimonio Cultural español adquiere especial importancia el Patrimonio Religioso y, dentro de éste, el perteneciente a la Iglesia católica. Esta afirmación general es extrapolable a Cantabria, en donde aproximadamente el 40% del Patrimonio Cultural está en posesión de la Diócesis de Santander o de otras entidades eclesiásticas. La existencia de tan vasto legado cultural, su importancia como motor económico de la región y la insuficiencia de medios para su adecuada protección, hace necesario el establecimiento de cauces de colaboración con la Administración pública para garantizar que el Patrimonio Común se mantenga adecuadamente preservado para disfrute de generaciones futuras. Todo ello justifica la presente monografía que, desde la perspectiva del Derecho Eclesiástico del Estado, analiza, pormenorizadamente, los instrumentos jurídicos vigentes para la protección del Patrimonio Religioso en Cantabria.

La inmigración en España Antonio Eiras Roel,Domingo L. González Lopo,2004 Se divide en dos partes. En la primera se aborda la presencia de extranjeros en nuestro país desde finales del siglo XV hasta las postrimerías del XVIII, momento que el que España se convirtió en foco de atracción tanto para hombres de negocios de diversas procedencias como para otras migraciones de trabajo masivas, formadas por profesionales menos cualificados. El segundo apartado se dedica a los nuevos retos de la inmigración actual, procedente ahora de otros horizontes extraeuropeos o que reviste nuevas modalidades desconocidas en el pasado.
