Religion and the State Scott A. Merriman, 2009-07-14 This timely and authoritative resource combines both topical and country-by-country coverage to help readers understand the coexistence of church and state in nations around the world today. At a time when faith-based groups have become more politically active in the United States, and with religious conflicts at the epicenter of many of the world's most dangerous hotspots, *Religion and the State: An International Analysis of Roles and Relationships* could not be more welcomed or timely. Country by country, faith by faith, it unravels the historic underpinnings and long-range effects of the relationship between religious principles and the operations of government in its many guises worldwide. The work combines topical essays on significant developments in the confluence of religion and law throughout the world with short descriptions of each countries' current treatment of religion. Readers can investigate specific nations, compare situations across nations, and explore key issues in the pervasive, often controversial relationship between religion and government.

Routledge Handbook of South Asian Religions Knut A. Jacobsen, 2020-11-29 The *Routledge Handbook of South Asian Religions* presents critical research, overviews, and case studies on religion in historical South Asia, in the seven nation states of contemporary South Asia: India, Pakistan, Bangladesh, Nepal, Bhutan, Sri Lanka, and the Maldives, and in the South Asian diaspora. Chapters by an international set of experts analyse formative developments, roots, changes and transformations, religious practices and ideas, identities, relations, territorialisation, and globalisation in historical and contemporary South Asia. The Handbook is divided into two parts which first analyse historical South Asian religions and their developments and second contemporary South Asia religions that are influenced by both religious pluralism and their close connection to nation states and their ideological power. Contributors argue that religion has been used as a tool for creating nations as well as majorities within those nations in South Asia, despite their enormous diversity, in particular religious diversity. The Handbook explores these diversities and tensions, historical developments, and the present situation

across religious traditions by utilising an array of approaches and from the point of view of various academic disciplines. Drawing together a remarkable collection of leading and emerging scholars, this handbook is an invaluable research tool and will be of interest to researchers and students in the fields of Asian religion, religion in context, and South Asian religions.

The Archaeology of Buddhism in the Maldives Egil Mikkelsen, 2025-05-29 Part of a Buddhist monastery dating to A.D. 200–1500 was excavated between 1996 and 1998 on the island of Kaashidhoo in the Maldives, uncovering extensive ruins and human graves. This book compares the findings with those from monasteries elsewhere in Asia, investigating the spread of cowrie shells, Chinese stoneware and South Asian earthenware. It documents all known Buddhist sites, sculptures and artefacts in the Maldives, presenting new evidence of Buddhist life, religious behaviour, funerary practice, faunal history and trading networks. The book offers a fresh interpretation of the conversion from Buddhism to Islam in the Maldives.

The World Almanac of Islamism 2019 American Foreign Policy Council, 2019-04-30 Now in its fourth edition, The World Almanac of Islamism is the first comprehensive reference work to detail the current activities of radical Islamist movements worldwide. The contributions, written by subject expert, provide up-to-date assessments on the contemporary Islamist threat in all countries and regions where it exists. Each country study will include valuable metrics for gauging the advance or decline of Islamism. In places where Islamists are not in power, these include year-on-year comparisons of the number of terrorist attacks that have taken place, the level of popular support being received by radical religious organizations and political parties, and applicable government responses to these trends, if any. In places where they are in power, metrics encompass relevant changes to domestic human rights practices and social conditions, foreign policy rhetoric and action, and the overall stability of the state.

Islam and Democracy in the Maldives Azim Zahir, 2021-11-29 This book examines Islam's relationship to democratization in the Indian Ocean nation of the Maldives. It explores how and why an electoral democracy based in a constitution that has many liberal features but also Islam-based limitations, especially lack of religious freedom, emerged in the country by 2009. In doing so, the book interrogates a major approach to Muslim politics that assumes reformist interpretations of Islam are a positive, and even a necessary, force for liberalization and democratization in Muslim-majority contexts. This book shows reformist Islam did play certain positive roles in democratization in the Maldives. However, the book suggests reformist Islam may not be an invariably uncontroversial force in the space of politics. It argues that modern nation building in the Maldives shaped by political actors with reformist Islamic orientations, since around the 1930s, has also completely transformed Islam as a modern institutional and discursive political religion. These transformations of Islam as a modern political religion have existed as path-dependent constraints on the depth of democratization, ensuring religion-based limitations and intensifying controversy over religion vis-à-vis the state and individual rights. An original empirical

contribution towards a better understanding of Islam and politics in the Maldives, this book will be of interest to academics and students working on democracy, and Islam in particular, and in the fields of political science and area studies, especially South Asian politics.

Terrorism, Security and Development in South Asia M. Raymond Izarali, Dalbir Ahlawat, 2021-04-28 This book provides a rich analysis of the actors and organizations to reflect on the antecedents and trajectories of terrorism and insurgency in South Asia, and the different countermeasures adopted by the countries to deal with the security and developmental challenges. South Asia is a complex geography that has been both a victim and a playing field for indigenous insurgencies, and domestic and transnational terrorist movements. The contributors to this volume explore how this situation has posed serious challenges to the sovereignty of the states, to national and human security, and to the socioeconomic fabric of the communities, and to the ethnic and religious cohesion. The book provides detailed studies of country cases on terrorism, security, and insurgencies, and it underlines the national, regional, and global implications of the threats that emanate from this region. Presenting an opportunity to diversify away from a Western-centric focus on terrorism and security, this book will be valuable to researchers in political science, criminology, defense and security studies, and to policy makers and think tanks.

Political Secularism, Religion, and the State Jonathan Fox, 2015-04-27 This book examines how the competition between religious and secular forces influenced state religion policy between 1990 and 2008. While both sides were active, the religious side had considerably more success. The book examines how states supported religion as well as how they restricted it.

Recognition of Religion or Belief (RoRB) Cometan, 2022-06-29 Recognition of Religion or Belief presents a global overview of the systems, laws and mechanisms states have established to recognise religions and beliefs and to legally register their affiliated organisations. Recognition of Religion or Belief is the first book of its kind to dedicate its contents to the recognition and registration issues, especially how they intersect with religious freedom conditions around the world. The book provides an analysis of the most up-to-date data on the recognition systems and registration procedures of every country and territory on the planet using terminology derived from Cometan's doctoral research forming his upcoming thesis titled Religious Freedom & State Recognition of Belief to which Recognition of Religion or Belief acts as both a compliment and precursor.

Religion and Politics in South Asia Ali Riaz, 2020-12-29 This revised edition of Religion and Politics in South Asia presents a comprehensive analysis of the interaction of religion and politics in Afghanistan, Bangladesh, India, the Maldives, Nepal, Pakistan, and Sri Lanka. The book highlights that in recent decades, religion, religio-political parties, and religious

rhetoric have become dominant features of the political scenes in all seven countries. By presenting each country's political system and the socio-economic environment within which the interactions of religion and politics are taking place, chapters explore various factors that affect both the lives of people in the region and global politics. Designed in an easy-to-follow structure, the book includes sections on the history and politics, major religions and religious composition of the population, legal and constitutional provisions regarding religion, religious freedom and the treatment of minorities, the political landscape, and religio-political parties and groups within the countries. In doing so, the book addresses concerns including the effects of religio-political interactions on political stability, human rights, and the implications for internal and external security situations. A timely contribution written by experts in their field, this book is a useful guide to religion and politics and will be of interest to undergraduate and graduate students in South Asian politics, Asian politics, religion and politics, history, and international studies.

Going to School in South Asia Amita Gupta, 2007-02-28 Afghanistan is one of many South Asian countries appearing in daily headlines, as it attempts to rebuild its society, including its educational system, after decades of war. Sri Lanka, devastated by the tsunami of 2004, and parts of Pakistan and Northern India, coping with the aftereffects of a major earthquake, are also struggling for teachers, classrooms, supplies, and a sense of normalcy for their students. This volume, part of the Schooling Around the World series, provides readers with a history and survey of education in eight of the region's countries. It examines the Primary, Secondary, and Postsecondary levels of education, identifying the types of education available (public, private, tutoring, etc), any race, gender or social class issues that impact education, and major reforms taking place. Readers will find discussions of curriculum and teaching methods most helpful, as well as a special day in the life feature, which gives a personal look at what it's like for students attending school in that country today.

Descent into Paradise Daniel Bosley, 2023-09-13 'Rich and valuable' ANJAN SUNDARAM 'Honest ... written in sharp, rippling prose' ANDREW FIDEL FERNANDO 'A brave and timely effort' JASON BURKE 'Immersive and eye-opening' HASSAN UGAIL 'A moving, personal and heartfelt tale of the real Maldives: far deeper and more sinister waters than the azure lagoons of the resorts for which it is famed' JJ ROBINSON In the autumn of 2011, the postman-turned-journalist Daniel

Bosley embarked on an unexpected adventure which started as an internship in London's Maldives High Commission – the diplomatic mission of the Indian Ocean tourism hotspot. Little did he know that he would soon set off on an odyssey through an imperilled island nation undergoing one of the most tumultuous periods in its history. Over the next seven years, Bosley worked as a journalist in the Maldives, reporting on its volatile political landscape and shattering the picture-perfect view of this supposed paradise. Taking us into a nation of a thousand isles, he reveals a shaded past of sultans, imperialists and Western explorers before a modern-day dictatorship was finally overturned by a democracy that immediately plunged into turmoil. While dissenters and intrepid reporters faced abduction, imprisonment, and even death, the climate crisis and Islamist zealots posed ever greater threats to the country's vulnerable environment and its ancient culture. As the editor of the Maldives' main English-language news website, Bosley witnessed some of these events first-hand, his personal distress assuaged only by the love and hope he would come to find – against all odds – within these isolated atoll communities. Richly observed and infused with empathy and essential humour, *Descent into Paradise* thoroughly alters our understanding of the Maldives, a place where magical waters and surreal skies hide unthinkable dangers even as the struggle for justice risks submersion.

Freedom of Religion or Belief Heiner Bielefeldt, Nazila Ghanea, Michael Wiener, 2016-01-21 Violations of religious freedom and violence committed in the name of religion grab our attention on a daily basis. Freedom of religion or belief is a key human right: the International Covenant on Civil and Political Rights, numerous conventions, declarations and soft law standards include specific provisions on freedom of religion or belief. The 1981 Declaration on the Elimination of All Forms of Intolerance and of Discrimination Based on Religion or Belief has been interpreted since 1986 by the mandate of the UN Special Rapporteur on freedom of religion or belief. Special Rapporteurs (for example those on racism, freedom of expression, minority issues and cultural rights) and Treaty Bodies (for example the Human Rights Committee, the Committee on the Elimination of Racial Discrimination and the Committee on the Rights of the Child) have also elaborated on freedom of religion or belief in the context of their respective mandates. *Freedom of Religion or Belief: An International Law Commentary* is the first commentary to look comprehensively at the international provisions for the protection of freedom of religion or belief, considering how they are interpreted by various United Nations Special Procedures and Treaty Bodies. Structured around the thematic categories of the United Nations Special Rapporteur's framework for communications, the commentary analyses, for example, the limitations on the wearing of religious symbols and vulnerable situations, including those of women, detainees, refugees, children, minorities and migrants, through a combination of scholarly expertise and practical experience.

This timely book uncovers the political drivers behind both recent regional and country-based changes to the recognition, promotion, and protection of rights. Human Rights in Asia focuses on the relationships between political regimes, institutions and cultures, and external actors, such as international organisations, NGOs, and business. The contributing authors provide important discussions on Burma, Cambodia, China, India, Indonesia, Malaysia, Singapore, Thailand, and the Phillipines.
