The Palgrave Handbook on Rethinking Colonial Commemorations Bronwyn Carlson, Terri Farrelly, 2023-06-30 The Palgrave Handbook on Rethinking Colonial Commemorations explores global efforts, particularly from Indigenous and Bla(c)k communities, to dismantle colonial commemorations, monuments, and memorials. Across the world, many Indigenous and Bla(c)k communities have taken action to remove, rectify and/or re-imagine colonial commemorations. These efforts have had the support of some non-Indigenous and white community members, but very often they have faced fierce opposition. In spite of this, many have succeeded, and this work aims to acknowledge and honour these efforts. As a current and much-debated issue, this book will present fresh findings and analyses of recent and historical events, including #RhodesMustFall, Anzac Day protests, and the transferral of confederate monuments to museums. Comprising of chapters written by Indigenous, Bla(c)k and non-Indigenous authors, from a wide variety of locations, backgrounds and purposes, this topical volume is a timely and important contribution to the fields of memory studies, Indigenous Studies, and cultural heritage.

Heritage Tourism Hyung Yu Park, 2013-11-20 Heritage tourism has become an increasingly significant component of the global tourism industry, particularly in countries striving to diversify away from sea, sand and sun. This growth has had profound influences on the presentation and representation of both tangible and intangible heritage within tourism context. The concept of heritage continues to evolve with its fast-changing political, economic and socio-cultural surroundings. Therefore it is essential that heritage tourism engages with the new form of globalised communities and societies, which have become more assimilated to each other but yet strive to sustain their own distinctive locality. This book aims to offer a thorough critical examination and systematic evaluation of the unique dynamics of heritage and tourism development from

both social sciences and management perspectives. It incorporates both global and local perspectives in theorising and managing heritage tourism. While focusing on reviewing and analysing key academic concepts and debates including authenticity, commodification, globalisation and heritage interpretation, this book also discusses and evaluates topical issues such as sustainable development, marketing strategies and digital technologies including social media. It theoretically locates heritage discourses in the analysis of heritage tourism development and management drawing on various perspectives, from tourism, heritage studies, sociology, anthropology, politics and geography to management and marketing studies. Including case studies of topical concerns, controversies and challenges it will encourage readers to develop a new and insightful understanding of the dialectical relationship between heritage and tourism development. This book is essential reading for students studying tourism, heritage studies, cultural studies as well as related disciplines.

The Afterlife of Discarded Objects Andrei Guriuanu, Natalia Andrievskikh, 2018-12-18 *The Afterlife of Discarded Objects: Memory and Forgetting in a Culture of Waste* As one of its driving principles, *The Afterlife of Discarded Objects: Memory and Forgetting in a Culture of Waste* analyzes the double reconstitution of discarded items. In this afterlife, discarded objects might transform from a worthless object into a plaything or a work of art, and then to an artifact marking a specific historical time period. This transformation is represented through various forms of recollection—stories, photographs, collectibles, heirlooms, monuments, and more. Shaped by nostalgia and wishful thinking, discarded objects represent what is wasted, desired, and aestheticized, existing at the intersection of individual and collective consciousness. While *The Afterlife of Discarded Objects* constitutes a version of revisionist historiography through its engagement with alternative anthropological artifacts, its ambition stretches beyond that to consider how seemingly immaterial phenomena such as memory and identity are embedded in and shaped by material networks, including ephemera. Guriuanu and Andrievskikh create a written, visual, and virtual playground where transnational narratives fuse into a discourse on the persistent materiality of ephemera, especially when magnified through narrative and digital embodiment. *The Afterlife of Discarded Objects* is printed in full color and includes references, an index, and over seventy hi-resolution color images. “*The Afterlife of Discarded Objects: Memory and Forgetting in a Culture of Waste* uses contemporary theory, literature, popular culture, and personal narratives to investigate how we assign political, socio-cultural, and aesthetic meaning to objects. The book is unique in applying personal narratives and testimonies of contributors from around the world to provide insights and critiques of Western attitudes toward these objects. *The Afterlife of Discarded Objects* provides transformative social commentary through scrutiny and stories of discarded/found objects in Eastern Europe and in the West encouraging us to reflect more critically on our relationships with things. The stories and theories interwoven in Guriuanu and Andrievskikh’s book turn memory into matter and aspire to teach through their exploration. It’s a lofty goal, and the book succeeds.” —Sohui Lee

Public Art Encounters Martin Zebracki, Joni M. Palmer, 2017-09-05 Public art is produced and ‘lived’ within multiple,

interlaced and contested political, economic, social and cultural-symbolic spheres. This lively collection is a mix of academic and practice-based writings that scrutinise conventional claims on the inclusiveness of public art practice. Contributions examine how various social differences, across class, ethnicity, age, gender, religion, ability and literacy, shape encounters with public art within the ambits of the design, regeneration and everyday experiences of public spaces. The chapters richly draw on case studies from the Global North and South, providing comprehensive insights into the experiences of encountering public art via a variety of scales and realms. This book advances critical insights of how socially practised public arts articulate and cultivate geographies of social difference through the themes of power (the politics of encountering), affect (the embodied ways of encountering), and diversity (the inclusiveness of encountering). It will appeal to scholars, students and practitioners of cultural geography, the visual arts, urban studies, political studies and anthropology.

Written in the Blood Stephen Lloyd Jones, 2015-05-26 See the girl. Leah Wilde is twenty-four, a runaway on a black motorbike, hunting for answers while changing her identity with each new Central European town. See the man, having come of age in extraordinary suffering and tragedy in nineteenth-century Budapest: a witness to horror, to love, to death, and the wrath of a true monster. Izsv°k still lives in the present day, impossibly middle-aged. He's driven not only to hunt this immortal evil but to find his daughter, stolen from an Arctic cabin and grown into the thing Izsv°k has sworn to kill. See the monster, a beautiful, seemingly young woman who stalks the American West, seeking the young and the strong to feed upon, desperate to return to Europe where her coven calls. Written in the Blood is the epic thriller of the year, a blazing and dexterous saga spanning generations, and threading the lives of five individuals driven by love, by sacrifice, by hunger and by fear. They seek to save a race -- or to extinguish it forever.

Revolutionary Aftereffects Megan Swift, 2022-05-30 Thirty years after the fall of the Soviet Union, the 1917 Revolution still looms large: not only because Russians remain divided over whether the revolution arrived forcibly or inevitably and whether it was a colossally tragic or colossally generative event, but also because its social, cultural, scientific, and even moral residues remain everywhere in Putin's Russia. Revolutionary Aftereffects looks at the ways in which 1917 has been and continues to be commemorated in Russia. Although post-Soviet Russia has emphasized its complete break with the past, this study of the memorialization and legacy of 1917 explores a fundamental continuity underlying an apparent discourse of discontinuity in post-socialist Russia. Contributors provide insight into the continuing reverberations of the revolution from a variety of disciplinary perspectives, including history and literary studies as well as heritage studies, anthropology, geography, and sociology. Collectively, these essays demonstrate the changing nature of the revolution's memorialization in the Soviet Union and post-Soviet Russia and the ambivalence and contradictions within those narratives.

Atlas Obscura, 2nd Edition Joshua Foer, Ella Morton, Dylan Thurau, Atlas Obscura, 2019-10-15 Discover wonder. "A wanderlust-whetting cabinet of curiosities on paper."— New York Times Inspiring equal parts wonder and wanderlust, Atlas

Obscura is a phenomenon of a travel book that shot to the top of bestseller lists when it was first published and changed the way we think about the world, expanding our sense of how strange and marvelous it really is. This second edition takes readers to even more curious and unusual destinations, with more than 100 new places, dozens and dozens of new photographs, and two very special features: twelve city guides, covering Berlin, Budapest, Buenos Aires, Cairo, London, Los Angeles, Mexico City, Moscow, New York City, Paris, Shanghai, and Tokyo. Plus a foldout map with a dream itinerary for the ultimate around-the-world road trip. More a cabinet of curiosities than traditional guidebook, Atlas Obscura revels in the unexpected, the overlooked, the bizarre, and the mysterious. Here are natural wonders, like the dazzling glowworm caves in New Zealand, or a baobab tree in South Africa so large it has a pub inside where 15 people can sit and drink comfortably. Architectural marvels, including the M. C. Escher-like stepwells in India. Mind-boggling events, like the Baby-Jumping Festival in Spain—and no, it's not the babies doing the jumping, but masked men dressed as devils who vault over rows of squirming infants. Every page gets to the very core of why humans want to travel in the first place: to be delighted and disoriented, uprooted from the familiar and amazed by the new. With its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, and new city guides, it is a book you can open anywhere and be transported. But proceed with caution: It's almost impossible not to turn to the next entry, and the next, and the next.

Red Hangover Kristen Ghodsee, 2017-10-19 In *Red Hangover* Kristen Ghodsee examines the legacies of twentieth-century communism twenty-five years after the Berlin Wall fell. Ghodsee's essays and short stories reflect on the lived experience of postsocialism and how many ordinary men and women across Eastern Europe suffered from the massive social and economic upheavals in their lives after 1989. Ghodsee shows how recent major crises—from the Russian annexation of Crimea and the Syrian Civil War to the rise of Islamic State and the influx of migrants in Europe—are linked to mistakes made after the collapse of the Eastern Bloc when fantasies about the triumph of free markets and liberal democracy blinded Western leaders to the human costs of regime change. Just as the communist ideal has become permanently tainted by its association with the worst excesses of twentieth-century Eastern European regimes, today the democratic ideal is increasingly sullied by its links to the ravages of neoliberalism. An accessible introduction to the history of European state socialism and postcommunism, *Red Hangover* reveals how the events of 1989 continue to shape the world today.

War and Public Memory David A. Messenger, 2020-01-07 An introduction to key issues in the study of war and memory that examines significant conflicts in twentieth-century Europe In order to understand the history of twentieth-century Europe, we must first appreciate and accept how different societies and cultures remember their national conflicts. We must also be aware of the ways that those memories evolve over time. In *War and Public Memory: Case Studies in Twentieth-Century Europe*, Messenger outlines the relevant history of war and its impact on different European nations and assesses how and where the memory of these conflicts emerges in political and public discourse and in the public sphere and public spaces of Europe. The case studies presented emphasize the major wars fought on European soil as well as the violence perpetrated against civilian populations. Each chapter begins with a brief overview of the conflict and then proceeds with a study of how memory of that struggle has entered into public consciousness in different national societies. The focus throughout is on collective social, cultural, and public memory, and in particular how memory has emerged in public spaces throughout Europe, such as parks, museums, and memorial sites. Messenger discusses memories of the First World War for both the victors and the vanquished as well as their successor states. Other events discussed include the Bolshevik Revolution and subsequent conflicts in the former Soviet Union, the Armenian genocide, the collapse of Yugoslavia, the legacy of the civil war in Spain, Germany's reckoning with its Nazi past, and the memory of occupation and the Holocaust in France and Poland.

From Socialist to Post-Socialist Cities Alexander C. Diener, Joshua Hagen, 2016-04-14 The development of post-socialist cities has become a major field of study among critical theorists from across the social sciences and humanities. Originally constructed under the dictates of central planners and designed to serve the demands of command economies, post-socialist

urban centers currently develop at the nexus of varied and often competing economic, cultural, and political forces. Among these, nationalist aspirations, previously simmering beneath the official rhetoric of communist fraternity and veneer of architectural conformity, have emerged as dominant factors shaping the urban landscape. This book explores this burgeoning field of research through detailed cases studies relating to the cultural politics of architecture, urban planning, and identity in the post-socialist cities of Eurasia. This book was published as a special issue of Nationalities Papers.

Peace Through Tourism Freya Higgins-Desbiolles, Lynda-Ann Blanchard, Yoko Urbain, 2022-12-26 Peace through Tourism considers the possibilities for tourism to contribute to efforts to unmask conflict and promote peace. This edited volume considers the intersections between tourism, peace, justice and sustainability through conceptual and empirical works surveying practices, problems and challenges all around the globe. It presents a complex and critical approach, arguing that peace through tourism is dialogic and not as simple as describing a few “good” niche segments of tourism. The pedagogies of peace represented here work to analyse structural violence associated with tourism—such as in the dominance of neoliberal market imperatives over local or social economies; colonising, patriarchal and anthropocentric practices in tourism; and tourism’s complex role in post-conflict settings. Analyses found here place scholars, industry and communities in conversation about building shared tourism futures where peace is understood as peace with justice and differences are bridged through dialogues towards understanding. In light of the many challenges in attaining sustainable development in the 21st century, this volume is an important and timely endeavour. Radical practices are explored that support more ‘just’ tourism futures. With a new introduction, this book is an insightful resource for scholars and researchers of Tourism and Peace and Conflict Studies. The chapters in this book were originally published in Journal of Sustainable Tourism.
