The Greene Book of Black Knowledge Will EL M. STJ Heron,2022-05-04 What stake do we as Foundational Black Americans really have to claim in the history of this country, this continent, and the world, if any? When you think of Foundational Black Americans (formerly misnomered as African Americans/Negroes/Coloreds/Black) what thought comes to mind and what accomplishments are we known for? Were we slaves brought to this country by force, low-class citizens of a foreign nation with no home to call their own? Or is there more to the story, so much more that even the mere mention of our accolades would discredit the history of the masses? What if I were to tell you that our history in this country, from the perspective that everything we have been taught, is but a half truth? Who built the buildings, roads, and monuments in this country? Where did those people come from and where did they go? Where did the many science, technology and artforms of the country and the world develop? What is the hidden history behind what we are taught, but most importantly why is this knowledge kept from us? This book will capture some of the lesser known accomplishments and esoteric information that has been passed down "word of mouth" by some and systematically discredited by others. Fortunately, true knowledge can neither cease nor desist and this text will show what you can do to utilize that information today. It is time that we take our own history by the rungs away from those who would paint an inaccurate picture of our past. This will allow us to re-introduce ourselves, not for exposure and clout, but for self-vindication and reasonable doubt.

Extraordinary Encounters Jerome Clark,2000-12-15 Here is the first A-Z encyclopedia to explore the convictions held by many in the modern day world that extraterrestrials, angels, fairy-folk, and other-dimensional intelligences regularly interact with human beings. Extraordinary Encounters: An Encyclopedia of Extraterrestrials and Otherworldly Beings is the first ever illustrated A-Z encyclopedia to explore these fascinating modern day beliefs, personalities, beings, and events. Among the beings you'll meet in its pages are Abraham, a collection of highly evolved entities that speak in one voice; Metranon, the divine interface between God and the Outer Worlds (and sometime Old Testament angel); and The Planetary Council, whose members include Jove, Merlin, Quetzalcoatl, and Lao-Tzu.

The End of the Age Frederick Guttman, In the first part of 'Apocalypse, Remote Vision' we have observed the points that deal with what is related to the 'Great Tribulation' that our world will live and even the elect and faithful (so that with this many may be perfected, and likewise many other lukewarm awaken). I have told you that the basis of these two end-

world books is intuition, premonition, visions, revelations, dreams, extrasensory perception and remote viewing regarding things to come, and I have chosen many topics that I have been able to compare and link with each other. There are other popular people who have seen remarkable things, but some of them are not the subject that I am dealing with here at the moment, or they are not entirely clear. There are others from which data can be taken with tweezers, as is the case of Mrs. 'Baba Vanga', a Bulgarian citizen who predicted many things in her time. She is said to have given specific dates for future events, but the times and sequences attributed to the events predicted by her are exaggerated and mixed up in their temporal location. Baba Vanga would have died on August 11, 1996, at the age of 85, and the only allusion that seems coherent that he gave for just after his death is the one that defines that by 2018 the nation of China would become the new power world. Even so, we will see that this will not be exactly the case, despite the fact that it is now the global economic power - and perhaps the second or third military power on our planet. If we remove the dates that he is supposed to have mentioned, and simply refer to his warnings, then we do have logical citations and which coincide with a host of other prophecies. Vanga is said to have prophesied that after China became the world power, the subsequent thing would be that the Earth's orbit would change slightly; I would also have argued that then Europe would have serious demographic problems, that hunger would slowly become a problem for humanity, that there would be polar melting and strong sea level rise, and the like. It is also said that he warned that later the world economy would improve remarkably while in Europe the Muslims dominate. We already know that this has to do with the new currency and the Islamic invasion, but Vanga adds something strange...

Heaven on Earth Richard Landes, 2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth. They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society. And all their promises have invariably failed. We tend, therefore, to dismiss these prophets of doom and salvation as crackpots and madmen, and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world. Now, Richard Landes offers a lucid and ground-breaking analysis of this widely misunderstood phenomenon. This long-awaited study shows that many events typically regarded as secular--including the French Revolution, Marxism, Bolshevism, Nazism--not only contain key millennialist elements, but follow the apocalyptic curve of enthusiastic launch, disappointment and (often catastrophic) re-entry into normal time. Indeed, as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979, he challenges the common notion that modern history is largely driven by secular interests. By focusing on ten widely different case studies, none of which come from Judaism or Christianity, he shows that millennialism is not only a cultural universal, but also an extremely adaptive social phenomenon that persists across the modern and post-modern divides. At the same time, he also offers valuable insight into the social and

psychological factors that drive such beliefs. Ranging from ancient Egypt to modern-day UFO cults and global Jihad, Heaven on Earth both delivers an eye-opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today.

A Culture of Conspiracy Michael Barkun, 2003 Unravelling the genealogies and permutations of conspiracist worldviews, this work shows how this web of urban legends has spread among sub-cultures on the Internet and through mass media, and how this phenomenon relates to larger changes in American culture.

Desert Oracle Ken Layne, 2020-12-08 The cult-y pocket-size field guide to the strange and intriguing secrets of the Mojave—its myths and legends, outcasts and oddballs, flora, fauna, and UFOs—becomes the definitive, oracular book of the desert For the past five years, Desert Oracle has existed as a quasi-mythical, quarterly periodical available to the very determined only by subscription or at the odd desert-town gas station or the occasional hipster boutique, its canary-yellow-covered, forty-four-page issues handed from one curious desert zealot to the next, word spreading faster than the printers could keep up with. It became a radio show, a podcast, a live performance. Now, for the first time—and including both classic and new, never-before-seen revelations—Desert Oracle has been bound between two hard covers and is available to you. Straight out of Joshua Tree, California, Desert Oracle is “The Voice of the Desert”: a field guide to the strange tales, singing sand dunes, sagebrush trails, artists and aliens, authors and oddballs, ghost towns and modern legends, musicians and mystics, scorpions and saguaros, out there in the sand. Desert Oracle is your companion at a roadside diner, around a campfire, in your tent or cabin (or high-rise apartment or suburban living room) as the wind and the coyotes howl outside at night. From journal entries of long-deceased adventurers to stray railroad ad copy, and musings on everything from desert flora, rumored cryptid sightings, and other paranormal phenomena, Ken Layne's Desert Oracle collects the weird and the wonderful of the American Southwest into a single, essential volume.

UFO Garrett M. Graff, 2024-11-12 “One of the rare books on the topic that manages to be both entertaining and factually grounded.” —The Wall Street Journal From the bestselling author of Raven Rock, The Only Plane in the Sky, and Watergate (finalist for the Pulitzer Prize in history) comes the first comprehensive and eye-opening exploration of our government’s decades-long quest to solve one of humanity’s greatest mysteries: Are we alone in the universe? For as long as we have looked to the skies, the question of whether life on earth is the only life to exist has been at the core of the human experience, driving scientific debate and discovery, shaping spiritual belief, and prompting existential thought across borders and generations. It’s one of our culture’s favorite conversations, and yet, the idea of extraterrestrial intelligence has been largely banished to the realm of fantasy and conspiracy. Now, for the first time, the full story of our national obsession with UFOs—and the covert search by scientists, the United States military, and the CIA for proof of alien life—is told by bestselling author and Pulitzer Prize finalist Garrett M. Graff in a deeply reported and researched history. It begins in 1947,

when two headline-making sightings of strange flying objects prompt the US Air Force's newly formed Department of Defense to create a series of secret programs to determine how unidentified phenomena may pose a threat to national security. Over the next half-century, as the atomic age gives way to the space race and the Cold War, the mission continues, bringing together an unexpected group of astronomers, military officials, civilian contactees, and true believers who bring us closer, then further, then closer again, to answering one of our most enduring questions: What exactly is out there? Drawing from original archival research, declassified documents, and interviews with senior intelligence and military officials, Graff brings readers a story that's "Loads of fun...[a] fascinating deep dive down the rabbit hole" (Publishers Weekly).

Real Enemies Kathryn S. Olmsted, 2019-03-20 Many Americans believe that their own government is guilty of shocking crimes. Government agents shot the president. They faked the moon landing. They stood by and allowed the murders of 2,400 servicemen in Hawaii. Although paranoia has been a feature of the American scene since the birth of the Republic, in *Real Enemies* Kathryn Olmsted shows that it was only in the twentieth century that strange and unlikely conspiracy theories became central to American politics. In particular, she posits World War I as a critical turning point and shows that as the federal bureaucracy expanded, Americans grew more fearful of the government itself--the military, the intelligence community, and even the President. Analyzing the wide-spread suspicions surrounding such events as Pearl Harbor, the JFK assassination, Watergate, and 9/11, Olmsted sheds light on why so many Americans believe that their government conspires against them, why more people believe these theories over time, and how real conspiracies--such as the infamous Northwoods plan--have fueled our paranoia about the governments we ourselves elect. This 10th Anniversary Edition includes a new epilogue on conspiracy theories and the 2016 election and its aftermath.

Culture of Conspiracy Michael Barkun, 2003-11-07 What do UFO believers, Christian millennialists, and right-wing conspiracy theorists have in common? According to Michael Barkun in this fascinating yet disturbing book, quite a lot. It is well known that some Americans are obsessed with conspiracies. The Kennedy assassination, the Oklahoma City bombing, and the 2001 terrorist attacks have all generated elaborate stories of hidden plots. What is far less known is the extent to which conspiracist worldviews have recently become linked in strange and unpredictable ways with other fringe notions such as a belief in UFOs, Nostradamus, and the Illuminati. Unraveling the extraordinary genealogies and permutations of these increasingly widespread ideas, Barkun shows how this web of urban legends has spread among subcultures on the Internet and through mass media, how a new style of conspiracy thinking has recently arisen, and how this phenomenon relates to larger changes in American culture. This book, written by a leading expert on the subject, is the most comprehensive and authoritative examination of contemporary American conspiracism to date. Barkun discusses a range of material--involving inner-earth caves, government black helicopters, alien abductions, secret New World Order cabals, and much more--that few realize exists in our culture. Looking closely at the manifestations of these ideas in a wide range of literature and source

material from religious and political literature, to New Age and UFO publications, to popular culture phenomena such as The X-Files, and to websites, radio programs, and more, Barkun finds that America is in the throes of an unrivaled period of millennial activity. His book underscores the importance of understanding why this phenomenon is now spreading into more mainstream segments of American culture.

Saucer Movies Paul Meehan,1998 The first book to examine the relationship between cinema and the UFO phenomenon, analyzing more than 300 films in terms of their aesthetic merit (direction, acting, screenplay, etc.) and their UFOlogical significance.

Conspiracy Theories Jeffrey B. Webb,2024-04-04 Provides a comprehensive guide to the history and current shape of conspiracy theories in American life, including the findings of research seeking to understand their origins, type, function, and widespread appeal. This all-in-one resource provides an accessible overview of conspiracy theories past and present in all their many forms. Taking an even-handed, scholarly approach, the book outlines the longer history of conspiracy theories, starting with Ancient Greece and Rome and continuing the story up to the present day, including analysis of 9/11, anti-vaccine, COVID, and QAnon theories. It surveys an array of current books and articles to try to understand why people believe in and act on outlandish and evidence-free conspiracy theories. Notably, this resource also outlines the problems created by untrue conspiracy theories in terms of their negative impact on public debate, trust in others, and efforts to nurture an informed and educated citizenry. Instead, many conspiracy claims have become sources of misinformation, cynicism, and polarization. This book will benefit anyone who seeks a pathway through our current epistemic crisis in which the lines between fact and fiction-and between truth and falsehood-have become blurred.

Secret Societies John Lawrence Reynolds,2011-09-01 Provides a behind-the-scenes glimpse into the world's most notorious secret societies, chronicling their origins, history, initiations, rituals, beliefs, activities, secret signs, members, and influence.

Classic Movies The Best and the Worst Pictures to see! Films to avoid! John Howard Reid,2015-03-03 Gathered in this large volume paperback are some of Hollywood's best loved and most famous movies. In addition to the many film classics, however, the author has included a number of equally entertaining films that deserve to be better known. Many of these movies are now available on DVD. Full credits and detailed reviews are provided for over a hundred of these classic films. Over two hundred more movies are represented by short reviews. Many of the reviews contain DVD details. Of course, not all classic movies have surfaced on DVD to date, but they are being issued at the rate of around forty a month! If you love classic movies, this book will provide an invaluable guide to some of the enjoyable films that are now available (and also, of course, some of the disappointing films that you might wisely avoid).

Western Movies Michael R. Pitts,2013-01-04 This revised and greatly expanded edition of a well-established reference

book presents 5105 feature length (four reels or more) Western films, from the early silent era to the present. More than 900 new entries are in this edition. Each entry has film title, release company and year, running time, color indication, cast listing, plot synopsis, and a brief critical review and other details. Not only are Hollywood productions included, but the volume also looks at Westerns made abroad as well as frontier epics, north woods adventures and nature related productions. Many of the films combine genres, such as horror and science fiction Westerns. The volume includes a list of cowboys and their horses and a screen names cross reference. There are more than 100 photographs.

Shadow People John Lawrence Reynolds, 2006 Roving from the parched wadis of the Middle East, to an isolated farmhouse in rural Quebec, to the crowded boutiques of Beverly Hills, master storyteller and award-winning writer John Lawrence Reynolds explores the most notorious secret societies in history, probing their origins and activities, and revealing secrets maintained and distorted over hundred of years. Reynolds peels away the layers of speculation, paranoia and fear, and shines a brilliant light on individuals and organizations that have generated suspicion and terror over several centuries. He treats the reader to a behind-the-scenes look at rituals and initiations, artifacts and secret signs, influences and dangers. And in the telling, he uncovers a rogue's gallery of assassins, con artists, thieves, racists, drug smugglers, adulterers, pranksters and crooks. But where does the truth lie? Does global power actually control the election of world leaders? Has an ancient mystical religion really been reduced to a length of red string selling for a dollar an inch? Are some secret societies little more than a group of boys playing at secret handshakes? From the Assassins to the Yakuza, from Freemasons to Bonesmen, shadow people and their secrets have flourished throughout history. Some fear them, some dismiss them, but everyone is fascinated by them. Secret societies fuel our imagination, and their shadows continue to fall across our daily lives.

C-O-V-I-D, The Biggest Conspiracy in History Frederick Guttman, Have you ever wondered ...? Why did the first cases of an apparent new "flu-pneumonia" also appear in the same cities where the 5G antennas were activated? Why was the study of other possibilities of non-viral origin not accepted as the cause of the symptoms, nor was it allowed to give opinions to scientists or doctors in televised debates? Why were healthy people forced into their homes? Why did they send the population to wear masks instead of fresh air to boost their immune systems? Why were they told to distance themselves instead of allowing herd immunization? Why did George Soros invested 18 billion dollars in promoting anti-covid measures in almost every country in the world? Why do you censor any opinion that contradicts the official version? Why is WHO 73% funded by Rockefeller bankers? Why do governments only promote the solution of vaccines, and their agreements with pharmaceutical companies, and the scientific opinion of the alkalization of the body is not accepted? Why do you ask for PCR tests if the polymerase tests do not detect viruses but the person's own microbiota? How can there be a vaccine if the virus has never been isolated (nor is there a single photomicrograph of it)? How do you know that people die of such a virus if

autopsies are not done to determine the causes? What are they really not telling us? This book presents ample scientific evidence and classified documents on a globalist Agenda that seeks to establish a new Nazism worldwide, where technology and the police state serve the benefit of an elite that controls governments, corporations and banks. You will know, not only who is behind, but step by step all the guidelines that they will carry out and how you can escape from their network.

Hollywood Surf and Beach Movies Thomas Lisanti, 2015-05-07 Surfers loathed them, teenagers flocked to them, critics dismissed them, producers banked on them--surf and beach movies. For a short time in the 1960s they were extremely popular with younger audiences--mainly because of the shirtless surfer boys and bikini-clad beach girls, the musical performers, and the wild surfing footage. This lavishly illustrated filmography details 32 sizzling fun-in-the-sun teenage epics from Gidget to the Beach Party movies with Frankie and Annette to The Sweet Ride plus a few offshoots in the snow!) Entries include credits, plot synopses, memorable lines, reviews and awards, and commentary from such as Aron Kincaid of The Girls on the Beach, Susan Hart of The Ghost in the Invisible Bikini, Peter Brown of Ride the Wild Surf, Chris Noel of Beach Ball, and Ed Garner of Beach Blanket Bingo. Biographies of actors and leading actresses who made their marks in the genre are included.

The Movie Guide James Monaco, 1992 From The Big Sleep to Babette's Feast, from Lawrence of Arabia to Drugstore Cowboy, The Movie Guide offers the inside word on 3,500 of the best motion pictures ever made. James Monaco is the president and founder of BASELINE, the world's leading supplier of information to the film and television industries. America's Film Legacy Daniel Eagan, 2009-11-26 America's Film Legacy is a guide to the most significant films ever made in the United States. Unlike opinionated Top 100 and arbitrary Best of lists, these are the real thing: groundbreaking films that make up the backbone of American cinema. Some are well-known, such as Citizen Kane, The Jazz Singer, All Quiet on the Western Front, The Birth of a Nation, and Boyz n the Hood. Others are more obscure, such as Blacksmith Scene, The Blue Bird, The Docks of New York, Star Theatre, and A Bronx Morning. Daniel Eagan's beautifully written and authoritative book is for anyone who loves American movies and who wants to learn more about them.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively

evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.
