web objectives upon completion of this course learners  
should be able to 1 understand the different types  
conventional engineering metrology practices 2 gain  
knowledge about salient features of optical metrology and  
current practices adopted in engineering metrology 3  
understand speckle metrology adopted in industrial  
applications and

web for engineering purposes metrology is restricted to  
measurements of length and angle quantities which are  
expressed in linear or angular terms measurement is a  
process of comparing quantitatively an unknown magnitude  
with a predefined standard objectives of metrology the basic  
objectives of metrology are 1 to provide accuracy at  
minimum
