*Culturas y mercados de la ficción televisiva en Iberoamérica* Lorenzo Vilches, 2022-11-15 El Anuario OBITEL 2007 ofrece un estudio sistemático sobre los diferentes ámbitos de la producción y programación de ficción para televisión en el ámbito regional, nacional e internacional en Iberoamérica. El mercado iberoamericano de hoy tiene un peso económico y cultural que, más allá de la lengua, conforma un espacio imaginario común basado en formatos y contenidos nacionales de amplia circulación internacional. Los escenarios de la ficción, sus historias y personajes se relacionan preferentemente con la cultura urbana: en Colombia, la ciudad y el narcotráfico; en México, la presencia en los guiones de la política nacional en la manipulación electoral, o el ajuste de cuentas narrativo con la última dictadura militar en Argentina. En Brasil y Chile, los fragmentos narrativos de las historias y escenarios también están secretamente regulados por la realidad social. La ficción

que se puede ver en Latinoamérica, Portugal, España y el mundo hispano de Estados Unidos ofrece un mínimo de mediación entre las historias locales y el ciclo histórico que se está viviendo en ambos lados del Atlántico. Este libro muestra que la ficción iberoamericana no se agota en la mercancía, siendo como es un producto estratégico para la cuenta de resultados de las televisiones, porque las historias y personajes de la ficción que se asoman en las diferentes televisiones nivelan todos los dispositivos narrativos en una misma identidad. Los coordinadores científicos de este volumen son Maria Immacolata Vasallo de Lopes y Lorenzo Vilches. Coordinadores nacionales: Isabel Ferin (Portugal), Valerio Fuenzalida (Chile), Tomás López-Pumarejo (EE.UU.), Nora Mazziotti (Argentina), Guillermo Orozco (México), Omar Rincón (Colombia), Maria Immacolata Vasallo de Lopez (Brasil) y Lorenzo Vilches (España).
