**Buried in the Sky** Peter Zuckerman, Amanda Padoan, 2012-06-11 In August 2008, when 11 climbers lost their lives on K2, the world's most dangerous peak, two Sherpas survived and are two of the most skillful mountaineers on earth.

Buried in the Sky Peter Zuckerman, Amanda Padoan, 2013-06-04 Winner of the National Outdoor Book Award and the Banff Mountain Book Award for Mountain Literature Gripping, intense...Buried in the Sky will satisfy anyone who loved [Into Thin Air]. —Kate Tuttle, Boston Globe When eleven climbers died on K2 in 2008, two Sherpas survived. Their astonishing tale became the stuff of mountaineering legend. This white-knuckle adventure follows the Sherpas from their remote villages in Nepal to the peak of the world's most dangerous mountain, recounting one of the most dramatic disasters in alpine history from a fascinating new perspective. Winner of the NCTE George Orwell Award and an official selection of the American Alpine Club Book Club.

**Summary of Peter Zuckerman & Amanda Padoan's Buried in the Sky** Everest Media, 2022-03-24T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Chhiring's first name, Cheerful, was a reflection of his determination. He was always cheerful, and his clients praised his attitude. He was always moving fast, and he couldn't control the pace. Speed was hardwired into his DNA. #2 The Sherpa people of Rolwaling Valley are a small ethnicity that inhabit Beding and the other villages of the Rolwaling Valley. They rarely describe themselves this way, preferring to recognize what they have: faith and a self-reliant community. #3 The legend of Guru Rinpoche and the demons of Rolwaling is a scare tactic used to get visitors to visit the valley more often. The younger generation is less concerned with the apocalypse. #4 Rolwaling was a beyul, a frontier community that granted amnesty to refugees. It was thought to be guarded by a powerful mountain goddess. The Sherpa people relied on local materials and their own labor to feed and clothe themselves.

*Inlets of the Soul* Pierre François, 1999 The relationship of myth to literature has largely been overshadowed in contemporary theory by perspectives of a linguistic or sociological orientation and by relativist, sometimes negatory, stances on all searches for meaning. This book attempts to show that myth criticism and critical theories of more recent provenance are not irreconcilable. While taking into consideration some of the more influential tenets of structuralist, post-structuralist, Marxist and feminist theory, it applies a post-Jungian ('archetypal') approach to illustrating the perennial nature of a

particular myth (the Fall of Man) in two main traditions (Mesopotamian and Christian) and in the contemporary novel in English. The discussions of five major novels by William Golding, Patrick White, Martin Amis, Salman Rushdie, and Wilson Harris not only serve to expand the mythological insights achieved in the first part of the book; they also suggest the incommensurability of imaginal, novelistic life with mythology's age-old intuitions about the human condition. Myth criticism emerges from this book as an irreplaceable vantage-point from which man's lapsarian predicament can be scrutinized synchronically as archaic wisdom, contemporary anxiety, and post-colonial commitment to the building of a new human city.

Companions of the Day and Night Wilson Harris, 2012-11-15 'He ascended, eyes riveted, nailed to the steps leading up to the top of the pyramid of the sun. How many human hearts he wondered had been plucked from bodies there to feed the dying light of the sun and create an obsession with royal sculptures, echoing stone?... It was time to take stock of others as hollow bodies and shelters into which one fell...' In *Companions of the Day and Night* (first published in 1975) Wilson Harris revives figures from his earlier *Black Marsden* - chiefly Clive Goodrich, the 'editor' of this text, who constructs a narrative from the papers of a figure known as Idiot Nameless: a wanderer between present and past, taking an Easter sojourn in Mexico that lasts both for days and for centuries. The results have the strangely hypnotic power characteristic of Wilson Harris's fiction.

**Buried in the Sky** Jack Geurts, 2018

Moonlight Rests on My Left Palm Yu Xiuhua, 2021-09-14 Starting with the viral poem "Crossing Half of China to Fuck You," Yu Xiuhua's raw collection in Fiona Sze-Lorrain's translation chronicles her life as a disabled, divorced, single mother in rural China. Yu Xiuhua was born with cerebral palsy in Hengdian village in the Hubei Province, in central China. Unable to attend college, travel, or work the land with her parents, Yu remained home where she could help with housework. Eventually she was forced into an arranged marriage that became abusive. She divorced her husband and moved back in with her parents, taking her son with her. In defiance of the stigma attached to her disability, her status as a divorced single mother, and as a peasant in rural China, Yu found her voice in poetry. Starting in the late 90's, her writing became a vehicle with which to explore and share her reflections on homesickness, family and ancestry, the reality of disability in the context of a body's urges and desires. Then, Yu's poem "Crossing Half of China to Fuck You" blew open the doors on the patriarchal and traditionalist world of contemporary Chinese poetry. She became an internet sensation, finding a devoted following among young readers who enthusiastically welcomed her fresh, bold, confessional voice into the literary canon. Thematically organized, Yu's essays and poems are in conversation with each other around subjects that include love, nostalgia, mortality, the natural world and writing itself.

**Geopoetics in Practice** Eric Magrane, Linda Russo, Sarah de Leeuw, Craig Santos Perez, 2019-12-05 This breakthrough book examines dynamic intersections of poetics and geography. Gathering the essays of an international cohort whose work

converges at the crossroads of poetics and the material world, *Geopoetics in Practice* offers insights into poetry, place, ecology, and writing the world through a critical-creative geographic lens. This collection approaches geopoetics as a practice by bringing together contemporary geographers, poets, and artists who contribute their research, methodologies, and creative writing. The 24 chapters, divided into the sections “Documenting,” “Reading,” and “Intervening,” poetically engage discourses about space, power, difference, and landscape, as well as about human, non-human, and more-than-human relationships with Earth. Key explorations of this edited volume include how poets engage with geographical phenomena through poetry and how geographers use creativity to explore space, place, and environment. This book makes a major contribution to the geohumanities and creative geographies by presenting geopoetics as a practice that compels its agents to take action. It will appeal to academics and students in the fields of creative writing, literature, geography, and the environmental and spatial humanities, as well as to readers from outside of the academy interested in where poetry and place overlap.

Video Astronomy on the Go Joseph Ashley, 2016-10-24 Author Joseph Ashley explains video astronomy's many benefits in this comprehensive reference guide for amateurs. Video astronomy offers a wonderful way to see objects in far greater detail than is possible through an eyepiece, and the ability to use the modern, entry-level video camera to image deep space objects is a wonderful development for urban astronomers in particular, as it helps sidestep the issue of light pollution. The author addresses both the positive attributes of these cameras for deep space imaging as well as the limitations, such as amp glow. The equipment needed for imaging as well as how it is configured is identified with hook-up diagrams and photographs. Imaging techniques are discussed together with image processing (stacking and image enhancement). Video astronomy has evolved to offer great results and great ease of use, and both novices and more experienced amateurs can use this book to find the set-up that works best for them. Flexible and portable, they open up a whole new way of seeing space.

Into The Sky Yu Qing, 2020-06-07 Eighteen years ago, a first god body appeared in the Xu family. It had ten divine veins, but the news of it had been leaked out, and ten divine veins had been destroyed. From then on, even though he had the qualifications of a god body, he could no longer cultivate. He had never been known to shake the mountains and rivers; he had never been able to cover the sky with his hands, but he had guided the world; he had never possessed endless abilities, but he had been respected by the world as a teacher; he was destined to not live past twenty, even though he was young and extraordinary.

*The Prairie in Her Eyes* Ann Daum, 2001 Captures the beauty, despair, rewards, and loneliness of ranching in the modern West.

Buried in the Sky Jack Geurts, 2018-11-12 The people of the Zend don't bury their dead, nor do they burn them. What they do instead is build towers... When a lonely corpse bearer sees soldiers on the horizon, he knows his ancient way of life is

over. His country is about to fall victim to an empire on the rise. An empire with a terrible, secret power...

*Voroshilovgrad* Serhiy Zhadan,2016-05-02 The power source for Zhadan's writing is in its linguistic passion.—Die Zeit One of the most important creative forces in modern Ukrainian alternative culture.—KulturSpiegel A city-dwelling executive heads home to take over his brother's gas station after his mysterious disappearance, but all he finds at home are mysteries and ghosts. The bleak industrial landscape of now-war-torn eastern Ukraine sets the stage for Voroshilovgrad, the Soviet era name of the Ukranian city of Luhansk, mixing magical realism and exhilarating road novel in poetic, powerful, and expressive prose. Serhiy Zhadan, one of the key figureheads in contemporary Ukrainian literature and the most famous poet in the country, has become the voice of Ukraine's Euro-Maidan movement. He lives in Kharkiv, Ukraine.

**Windows of the Heavens** Henry G. Brinton,2021-11-23 When the heavens open on the small river town of Occoquan, Virginia, the streets flood and a candle shop is swept away. A Methodist pastor named Harley Camden witnesses the destructive deluge and then discovers, in the debris, a dead man with a crude carving of Satan's claws in his back. Harley is drawn into the mystery of what caused the flood and who killed the man, while diving into questions of good and evil, body and spirit, humanity and the environment--especially questions about the change in climate that now threatens life around the globe. He discovers that there is a spiritual dimension to every social issue, whether it be the violence of Central American gangs or the racism that leads a black businessman to make a fateful choice. When the windows of the heavens open, surprising truths are revealed about how people can coexist in an interfaith, multicultural community, and how humans can establish a sustainable relationship with the natural world around them.

**Harper's Young People** ,1899

**The Great Canoes in the Sky** Stephen Robert Chadwick,Martin Paviour-Smith,2016-11-29 Presenting spectacular photographs of astronomical objects of the southern sky, all taken by author Stephen Chadwick, this book explores what peoples of the South Pacific see when they look up at the heavens and what they have done with this knowledge. From wives killing brothers to emus rising out of the desert and great canoes in the sky, this book offers the perfect blend of science, tradition and mythology to bring to life the most famous sights in the heavens above the southern hemisphere. The authors place this starlore in the context of contemporary understandings of astronomy. The night sky of southern societies is as rich in culture as it is in stars. Stories, myths and legends based on constellations, heavenly bodies and other night sky phenomena have played a fundamental role in shaping the culture of pre-modern civilizations throughout the world. Such starlore continues to influence societies throughout the Pacific to this day, with cultures throughout the region - from Australia and New Zealand in the south to New Guinea and Micronesia in the north - using traditional cosmology as a means of interpreting various aspects of everyday life.

Islands in the Sky Rose Hammond, 2013-01-11 Homer provides an enormous challenge to the student; the potentialities of these lengthy texts are legion and the scholarship vast. The author has relied upon her knowledge of symbolic discourse to make a fresh study of the Odyssey, prioritising early neighbouring religions, their mythology, and shamanic practice. The latter has yielded particularly rich material concerning the axis of the world (axis mundi) as a route to the stars and the world of the gods. Man's shared experience of the night skies has also provided some remarkably consistent patterns for the geography of an Otherworld in the skies and the means to reach the gods residing there. By applying world-wide motifs of the soul journey, the initiatory process and established points of transformation along a solar path, it has been possible to recast the hero's sea voyage in cosmic terms and give a celestial homeland to the many islands visited by Odysseus and his companions. The result gives a surprising twist to the meaning of the epic and reveals Homer the poet as both philosopher and student of the cosmos. The 'wine-dark sea' is revealed as none other than the night sky which serves as backdrop to the hero's adventures among the stars, and Ithaka itself with its many conflicts finds a place at the very centre of the known universe of Bronze Age Greece.
