Writing Feature Stories Matthew Ricketson, 2020-07-29 Good writing engages as it informs and feature journalism offers writers the opportunity to tell deep, affecting stories that look beyond the immediate mechanics of who, what, where and when and explore the more difficult-and more rewarding- questions: how and why? Whether you're a blogger, a news journalist or an aspiring lifestyle reporter, a strong voice and a fresh, informed perspective remain in short supply and strong demand; this book will help you craft the kind of narratives people can't wait to share on their social media feeds. Writing Feature Stories established a reputation as a comprehensive, thought-provoking and engaging introduction to researching and writing feature stories. This second edition is completely overhauled to reflect the range of print and digital feature formats, and the variety of online, mobile and traditional media in which they appear. This hands-on guide explains how to generate fresh ideas; research online and offline; make the most of interviews; sift and sort raw material; structure and write the story; edit and proofread your work; find the best platform for your story; and pitch your work to editors. 'A wide-ranging, much-needed master class for anyone who tells true yarns in this fast-changing journalistic marketplace' - Bruce Shapiro, Columbia University 'Useful and thought provoking' - Margaret Simons, journalist and author 'A must read for any digital storyteller who wants to write emotive, engaging, believable content.' - Nidhi Dutt, foreign correspondent

Adaptation Theory and Criticism Gordon E. Slethaug, 2014-06-19 Traditional critics of film adaptation generally assumed a) that the written text is better than the film adaptation because the plot is more intricate and the language richer when pictorial images do not intrude; b) that films are better when particularly faithful to the original; c) that authors do not make good script writers and should not sully their imagination by writing film scripts; d) and often that American films lack

the complexity of authored texts because they are sourced out of Hollywood. The 'faithfulness' view has by and large disappeared, and intertextuality is now a generally received notion, but the field still lacks studies with a postmodern methodology and lens. Exploring Hollywood feature films as well as small studio productions, *Adaptation Theory and Criticism* explores the intertextuality of a dozen films through a series of case studies introduced through discussions of postmodern methodology and practice. Providing the reader with informative background on theories of film adaptation as well as carefully articulated postmodern methodology and issues, Gordon Slethaug includes several case studies of major Hollywood productions and small studio films, some of which have been discussed before (*Age of Innocence*, *Gangs of New York*, and *Do the Right Thing*) and some that have received lesser consideration (*Six Degrees of Separation*, *Smoke*, *Smoke Signals*, *Broken Flowers*, and various *Snow White* narratives including *Enchanted*, *Mirror Mirror*, and *Snow White and the Huntsman*). Useful for both film and literary studies students, *Adaptation Theory and Criticism* cogently combines the existing scholarship and uses previous theories to engage readers to think about the current state of American literature and film.

See No Evil Jim DeBrosse, 2018-03-29 After more than fifty years of new evidence and new theories, the Warren Commission's claim that Lee Harvey Oswald acted alone and without clear motive in assassinating John F. Kennedy, has become a wheezing jalopy running on missing and broken parts and fueled with lies. And yet the U.S. media continue to support its findings as the only factual explanation for the murder of JFK. Why does the media marginalize and even ridicule more plausible conspiracy theories when the majority of American people long ago wrote off the Warren Report as a cover-up? *See No Evil* analyzes the built-in biases of the U.S. corporate media, exposes its complicity in the whitewashing, and advocates for the broadest possible investigation into the key players who may have been responsible for the Crime of the Twentieth Century, including the CIA, Organized Crime, and Israel. This book is meant for readers who seek the truth no matter where it leads.

Screening the Author Hila Shachar,2019-06-01 This book is the first comprehensive analysis of the contemporary representation of the author on screen. It does this through two main approaches: by looking at how biographies of well-known authors in Western culture have been adapted onto the film and television screen; and by examining the wider preoccupation with the idea of what the 'author persona' means in broader economic, cultural, industrial, and ideological terms. Drawing from current debates about the uses of the heritage industry and conventions of the Hollywood biopic and celebrity culture, this book re-frames the analysis of the author on screen in contemporary culture and theorises it under its own unique genre: the 'literary biopic'. With case studies including adaptations of the biographies and cultural personas of William Shakespeare, Jane Austen, Oscar Wilde, Sylvia Plath, Virginia Woolf, and Allen Ginsberg—to name a few—this book examines how and why the author continues to be a prominent screen and cultural preoccupation.
