*Screenwriting* Bridget Conor, 2014-04-16 Screenwriting: Creative Labor and Professional Practice analyzes the histories, practices, identities and subjects which form and shape the daily working lives of screenwriters. Author Bridget Conor considers the ways in which contemporary screenwriters navigate and make sense of the labor markets in which they are immersed. Chapters explore areas including: Screenwriting histories and myths of the profession Screenwriting as creative labor Screenwriters' working lives Screenwriting work and the how-to genre Screenwriting work and inequalities Drawing on historical and critical perspectives of mainstream screenwriting in the USA and UK, as well as valuable interviews with working screenwriters, this book presents a highly original and multi-faceted study of screenwriting as creative labor and

professional practice. The Open Access version of this book, available at [www.taylorandfrancis.com](http://www.taylorandfrancis.com), has been made available under a Creative Commons Attribution-NonCommercial-No Derivatives 4.0 license.<https://www.taylorandfrancis.com/books/9780203080771>

**Genre Screenwriting** Stephen V. Duncan, 2014-09-18 It's simple: films need to have commercial value for the studios to produce them, distributors to sell them, and theater chains to screen them. While talent definitely plays a part in the writing process, it can be the well-executed formulaic approaches to the popular genres that will first get you noticed in the industry. *Genre Screenwriting: How to Write Popular Screenplays That Sell* does not attempt to probe in the deepest psyche of screenwriters and directors of famous or seminal films, nor does it attempt to analyze the deep theoretic machinations of films. Duncan's simple goal is to give the reader, the screenwriter, a practical guide to writing each popular film genre. Employing methods as diverse as using fairy tales to illustrate the 'how to' process for each popular genre, and discussing these popular genres in modern television and its relation to its big screen counterpart, Duncan provides a one-stop shop for novices and professionals alike.

The Thing Jez Conolly, 2014-01-07 Consigned to the deep freeze of critical and commercial reception upon its release in 1982, *The Thing* has bounced back spectacularly to become one of the most highly regarded productions from the 1980s 'Body Horror' cycle of films, experiencing a wholesale and detailed reappraisal that has secured its place in the pantheon of modern cinematic horror. Thirty years on, and with a recent prequel reigniting interest, Jez Conolly looks back to the film's antecedents and to the changing nature of its reception and the work that it has influenced. The themes discussed include the significance of *The Thing*'s subversive antipodal environment, the role that the film has played in the corruption of the onscreen monstrous form, the qualities that make it an exemplar of the director's work and the relevance of its legendary visual effects despite the advent of CGI. Topped and tailed by a full plot breakdown and an appreciation of its notoriously downbeat ending, this exploration of the events at US Outpost 31 in the winter of 1982 captures *The Thing*'s sub-zero terror in all its gory glory.

Alexander Payne Julie Levinson, 2014-10-07 Since 1996, Alexander Payne (b. 1961) has made seven feature films and a short segment of an omnibus movie. Although his body of work is quantitatively small, it is qualitatively impressive. His movies have garnered numerous accolades and awards, including two Academy Awards for Best Adapted Screenplay. As more than one interviewer in this volume points out, he maintains an impressive and unbroken winning streak. Payne's stories of human strivings and follies, alongside his mastery of the craft of filmmaking, mark him as a contemporary auteur of uncommon accomplishment. In this first compilation of his interviews, Payne reveals himself as a captivating conversationalist as well. The discussions collected here range from 1996, shortly after the release of his first film, *Citizen Ruth*, to the 2013 debut of his film, *Nebraska*. He also mentions the long process of bringing to fruition his most recent film, *Downsizing*. Over his career, he muses on many subjects including his own creative processes, his commitment to telling character-centered stories, and his abiding admiration for movies and directors from across decades of film history. Critics describe Payne as one of the few contemporary filmmakers who consistently manages to buck the current trend toward bombastic blockbusters. Like the 1970s director-driven cinema that he cherishes, his films are small-scale character studies that manage to maintain a delicate balance between sharp satire and genuine poignancy.

selected screenwriters, creating an engaging and easily digestible conversational feel, this book chronicles story theory, formatting, business issues and the creative process itself.
