**The Routledge Companion to Northeast India** Jelle J. P. Wouters, Tanka B. Subba, 2022-09-30 The Routledge Companion to Northeast India is a trans-disciplinary and comprehensive compendium of a vital yet under-researched region in South Asia. It provides a unique guide to prevailing themes, theories, arguments, and history of Northeast India by discussing its life-forms – human and not – languages, landscapes, and lifeways in all its diversity and difference. The companion contains authoritative entries from leading specialists from and on the region and offers clear, concise, and illuminating explanations of key themes and ideas. A hands-on, practical, and comprehensive guide to Northeast India, this companion fills a significant gap in the literature and will be an invaluable teaching, learning, and research resource for scholars and students of Northeast India Studies, South Asian and Southeast Asian societies, culture, politics, humanities, and the social sciences in general.

*North-East India: Land, People and Economy* K.R. Dikshit, Jutta K Dikshit, 2013-10-21 North-East India, comprising the seven contiguous states around Assam, the principal state of the region, is a relatively unknown, yet very fascinating region. The forest clad peripheral mountains, home to indigenous peoples like the Nagas, Mizos and the Khasis, the densely populated Brahmaputra valley with its lush green tea gardens and the golden rice fields, the moderately populated hill

regions and plateaus, and the sparsely inhabited Himalayas, form a unique mosaic of natural and cultural landscapes and human interactions, with unparalleled diversity. The book provides a glimpse into the region's past and gives a comprehensive picture of its physical environment, people, resources and its economy. The physical environment takes into account not only the structural base of the region, its physical characteristics and natural vegetation but also offers an impression of the region's biodiversity and the measures undertaken to preserve it. The people of the region, especially the indigenous population, inhabiting contrasting environments and speaking a variety of regional and local dialects, have received special attention, bringing into focus the role of migration that has influenced the traditional societies, for centuries. The book acquaints the readers with spatial distribution, life style and culture of the indigenous people, outlining the unique features of each tribe. The economy of the region, depending originally on primitive farming and cottage industries, like silkworm rearing, but now greatly transformed with the emergence of modern industries, power resources and expanding trade, is reviewed based on authentic data and actual field observations. The epilogue, the last chapter in the book, summarizes the authors' perception of the region and its future.

*North East India* Rohmingmawii, Gorky Chakraborty, 2025-07-15 Colonialism transformed the areas what is now referred as the North East India into a 'frontier'. It was marked by fluidity of borders, flux in community relationship and resource extraction. Separation of Burma (1937), the partition of India (1947 and the birth of Bangladesh (1971) had an enormous effect on North East India and their ramifications are felt in contemporary times as well. This book examines whether the post-colonial discursive practices on North East India still carries traces of colonial paradigm of a 'frontier'. The chapters use the understanding of 'space' as it has emerged in social sciences to understand this changing frontier beyond the notions of pre-given building blocks of a nation-state to a process of socially and politically constructed entities, where creation and de-creation of spatial categories remain an inseparable part of today's North East India. This book facilitates the reader with a fresh perspective to understand these processes beyond the often-marked zones of separation into an overlapping and intermingling spaces.

**Northeast India Through the Ages** Rituparna Bhattacharyya, 2022-07-29 This volume explores the rich pre-history, history, and oral history of the northeast region of India--a land-locked region that is home to over 350 ethnolinguistic communities. Despite its uniqueness and diversity, little is known to the outside world. The book studies the vibrant and diverse socio-political and cultural history of this region through a transdisciplinary perspective, covering a wide range of topics such as the pre-history, medieval and colonial histories of Assam, the geopolitics of the creation of independent states from undivided Assam, oral narratives from Manipur, prehistoric cultures of Meghalaya, the Naga National Movement, Sikkim's Namgyal dynasty, and Tripura's transition from monarchy to democracy. It also discusses the invaluable contributions made by Professor Mohammad Taher (1931-2015), who laid the foundation of geography in Northeast India. A

compelling exploration of this geo-politically contested space, this volume will be of interest to students and researchers of anthropology, archaeology, history, human geography, South Asian studies, and minority studies.

**Trans-Border Transactions in North East India** Asok Kumar Ray,2024-12-02 This book analyses the cross-border transactions in North-East India, with particular focus on the Tripura-Bangladesh border. It explores the inter-relationship between community, state and market, and also discusses the spatial identity of Tripura in pre and post-partition era and the implications of partition and border-making to the cross-border communities of Tripura and Bangladesh. It reflects on trade transactions between India and Bangladesh and more significantly, on informal cross-border trade, social transactions and people-to-people contact across the border. The subject matter in this book also captures the community anxieties emerging from land boundary institutions and the issues of conflict and development in the cross-border space of Tripura-Bangladesh. It also discusses the dynamics of community inter-dependence and opposition in the post-partition condition in the Tripura and Bangladesh. Print edition not for sale in South Asia (India, Sri Lanka, Nepal, Bangladesh, Pakistan or Bhutan)

**Placing the Frontier in British North-East India** Reetu Ray,2023 This book is about the entanglements of colonial law, space, and place, in regions defined as frontiers in British India.

Materiality and Visuality in North East India Tiplut Nongbri,Rashi Bhargava,2021-07-16 This edited book set in the context of North East India explores issues concerning symbols, meanings, representations, and social implications of materiality and visuality, as well as the dynamics of power, social reproduction, ideological dominance and knowledge production, from an interdisciplinary perspective. It seeks to answer the question of why some things matter more than others or what happens when certain things are made more visible than others. The book provides valuable insights into the process of identity construction through the use of cultural sources, both material and visual. Following on the debates/discussions on material and visual culture in the 1970s and 1980s, the book argues that instead of viewing objects as mere representation(s), one should see them as active agents in creating perceptions, bodily practices, discourses and perceptions of our social world. Each chapter in the book unravels and engages with these pertinent issues in order to arrive at a more comprehensive understanding of the status quo. The book is of interest to scholars of ethnicity, identity construction, politics and state, cultural studies, media studies, visual, social and cultural anthropology and sociology, as well as lay readers who want to learn more about the region.

It gives a riveting account of the brave Gorkhas and their supreme sacrifice of life in fighting against the British army, as an important segment of the Azad Hind Fouj of Subhas Chandra Bose for liberation of mother India. The book also throws light on the exemplary contribution made by the civilian Nepalis of Assam towards Mahatma Gandhi's Swadeshi campaign, Civil Disobedience Movement and the Bharat Chhodo Andolan of India. Sustainable Development Goals in Northeast India Subhash Anand, Madhushree Das, Rituparna Bhattacharyya, R. B. Singh, 2023-04-19 This book covers themes related to the geosphere, biosphere, sociosphere and ecosphere dealing with changing geographical, environmental and socio-economic realities to plan a sustainable future for the northeast region (NER) of India. The NER consists of eight states—Assam, Arunachal Pradesh, Tripura, Nagaland, Manipur, Mizoram, Meghalaya and Sikkim—and they carry political, economic and social importance. The book integrates the past, present and future of geospheric attributes incorporating progress towards the Sustainable Development Goals (SDGs) to meet the demands for improving human wellbeing under diverse and challenging socio-economic, political and environmental conditions. The key SDGs, as in food and agriculture, health, education, water, energy and other overarching goals of the region, have yet to incorporate providing sustainable jobs and promoting equality and inclusive development, although there have been a few studies in that regard. The challenges to achieve SDGs in the NER are formidable compared to the rest of India. The NER has put a great deal of effort into achieving the SDGs, mainly in poverty (SDG-1), good health (SDG-3), education (SDG-4), gender (SDG-5), decent work (SDG-8) and reduced inequalities (SDG-10), similar to the rest of the country. However, the standard development indicators such as road length, access to health care, power consumption and other measures are far below the national average. A multi-pronged strategy has played a pivotal role in the region, but development strategy to attain the SDGs 2030 must be more inclusive in empowering people with maximising self-governance, considering the resources, needs and aspirations of the people. This book evaluates the performance of the

SDGs and fills in the gaps. It includes case studies focusing on different SDGs using advanced cartographic, statistical and GIS techniques and methods. It also provides unique findings that serve as valuable resources for planners and policy-makers so that a sustainable future in Northeast India can be achieved.

Home to many communities, cultures, natural resources and political boundaries, it is the geopolitical landscape of the Himalayas between India and China that dominates other narratives and discourses. The traditional notion of Himalayas as India's frontiers and buffer is challenged by China. Despite various mechanisms to address border resolution there are violations and transgressions from China. This book examines India's responses to the new emerging challenges in the Himalayas. How the statist discourse on strategic interests incorporates people's discourse. It provides a nuanced understanding of India's strategic undertakings, diplomatic initiatives and development framework. This book will be a valuable addition to existing knowledge on the Himalayas between India and China. Scholars and practitioners interested in International Relations, Strategic Studies, Himalayan Studies and South Asian Studies will find it useful.
