Etruscology Alessandro Naso, 2017-09-25 This handbook has two purposes: it is intended (1) as a handbook of Etruscology or Etruscan Studies, offering a state-of-the-art and comprehensive overview of the history of the discipline and its development, and (2) it serves as an authoritative reference work representing the current state of knowledge on Etruscan civilization. The organization of the volume reflects this dual purpose. The first part of the volume is dedicated to methodology and leading themes in current research, organized thematically, whereas the second part offers a diachronic account of Etruscan history, culture, religion, art & archaeology, and social and political relations and structures, as well as a systematic treatment of the topography of the Etruscan civilization and sphere of influence.

The World of the Western Greeks Kathryn Lomas, 2025-07-18 This volume presents studies by international experts on aspects of the society, economy, religion, culture, and history of the Greek settlements of the ancient western Mediterranean, one of the most innovative areas of the ancient Greek world. Across 43 chapters, this book synthesizes material evidence, integrates this with ancient sources, and introduces key methodological debates on the nature and study of Greek settlement in the west. It provides an overview of the history of the region, from earliest contact with the Greek world to the Roman period, and examines the relationships between Greek and non-Greek populations of the western Mediterranean and how they shaped each other's histories and cultures. The volume also explores aspects of the economy, society and culture of the region, illustrating the contribution of the western Greeks to shaping wider Greek culture and identity. By adopting a wide-ranging approach, integrating material evidence and ancient sources, it illuminates the diversity and innovative nature of the western Greek world from its earliest development to the aftermath of the Roman conquest. The World of the Western Greeks is an essential reference work for students and scholars of the Greek western Mediterranean and its history, culture, and society.

Diabetes and cardiovascular disease: new therapeutic interventions Ludwig Weckbach, Michele D'Amico, Anca Hermenean, Maria Consiglia Trotta, Bartolo Ferraro, 2024-08-22 Diabetes, also known as diabetes mellitus (DM), is a disease that occurs when the glucose level in the blood becomes too high (hyperglycaemia). Chronic hyperglycaemia is accompanied by both biochemical and pathological complications such as retinopathy, nephropathy, neuropathy, and cardiovascular diseases. Diabetes mellitus can be classified into two types: type I which results from the destruction of pancreatic β -cells,

leading to insulin insufficiency and type II diabetes mellitus, which is mainly related to insulin resistance. Optimal control of blood glucose levels remains the cornerstone of managing DM. To date, the major classes of antidiabetic medications used to treat diabetes include: biguanides, dipeptidyl peptidase 4 (DPP-4) inhibitors, sulfonylureas, meglitinides, thiazolidinediones (TZDs), sodium-glucose cotransporter (SGLT2) inhibitors, α -glucosidase inhibitors, glucose-dependent insulinotropic polypeptide (GIP) receptor and glucagon-like peptide-1 (GLP-1) receptor agonists and the various types of insulin. Several of these drugs may have, besides their antidiabetic properties, also important cardiovascular complications for the patients taking them.

The Youth Experience Gap Francesco Pastore, 2014-08-25 “The education to work transition of young people is key to a successful work-life and to fight youth unemployment. The book provides an impressive outline of the facts and convincing insights of the potential causes. This offers a large and broader audience help to adjust properly to achieve a better life.” Klaus F. Zimmermann, IZA, Bonn, Germany This work points to the youth experience gap as a key concept to explain the meager employment opportunities and earnings many young people face. The transition from education to work remains a long dark tunnel around the world. However, this book shows that there are striking differences between countries: in Germany, the young people of today are no worse off than their adult counterparts, while in Southern European and Eastern European countries they fare 3 through 4 times worse. The current economic and financial crisis has further exacerbated the situation for young people in many advanced economies. Observers are divided as to the optimal design of youth employment policy. Liberalists believe that the market itself should address youth disadvantages. More flexible labor markets should also guarantee greater labor turnover, including temporary work, so as to allow young people to move from one job to the next until they accumulate the work experience they need to become more employable and find the right career. In contrast, other economists oppose approaches focusing on entry flexibility and temporary work, claiming that the former type helps only the most skilled and motivated target groups, while the latter only allows young people to gather generic, not job-specific work experience.

The Other Rāma Brian Collins, 2020-10-01 A systematic analysis of the myth cycle of Paraśurāma (Rāma with the Axe), an avatāra of Viṣṇu with a much darker reputation. The Other Rāma presents a systematic analysis of the myth cycle of Paraśurāma (Rāma with the Axe), an avatāra of Viṣṇu best known for decapitating his own mother and annihilating twenty-one generations of the Katriya warrior caste in an extermination campaign frequently referred to as genocide by modern scholars. Compared to Rāma and Ka, the other human forms of Viṣṇu, Paraśurāma has a much darker reputation, with few temples devoted to him and scant worshippers. He has also attracted far less scholarly attention. But dozens of important castes and clans across the subcontinent claim Paraśurāma as the originator of their bloodline, and his mother, Reukā, is worshipped in the form of a severed head throughout South India. Using the tools of comparative mythology and

psychoanalysis, Brian Collins identifies three major motifs in the mythology of Paraśurāma: his hybrid status as a Brahmin warrior, his act of matricide, and his bloody one-man war to cleanse the earth of Katriyas. Collins considers a wide variety of representations of the myth, from its origins in the Mahābhārata to contemporary debates online. He also examines Paraśurāma alongside the Wandering Jew of European legend and Psycho's matricidal serial killer Norman Bates. He examines why mythmakers once elevated this transgressive and antisocial figure to the level of an avatāra and why he still holds such fascination for a world that continues to grapple with mass killings and violence against women.

Visions and Revisions in Sanskrit Narrative Raj Balkaran, McComas Taylor, 2023-11-21 Sanskrit narrative is the lifeblood of Indian culture, encapsulating and perpetuating insights and values central to Indian thought and practice. This volume brings together eighteen of the foremost scholars across the globe, who, in an unprecedented collaboration, accord these texts the integrity and dignity they deserve. The last time this was attempted, on a much smaller scale, was a generation ago, with Purāṇa Perennis (1993). The pre-eminent contributors to this landmark collection use novel methods and theory to meaningfully engage Sanskrit narrative texts, showcasing the state of contemporary scholarship on the Sanskrit epics and purāṇas.

Clodia of Rome Douglas Boin, 2025-08-12 A thrilling new history of the late Roman Republic, told through one woman's quest for justice. One of Rome's most powerful women, Clodia has been maligned over two thousand years as a promiscuous, husband-murdering harlot—thanks to her starring role in one of Cicero's most famous speeches in the Forum. But Cicero was lying, in defense of his own property and interests. Like so many women libeled or erased from history, Clodia had a life that was much more interesting, complex, and nuanced than the corrupted version passed down through generations. Drawing on neglected sources and deep, empathetic study of Roman lives, classicist Douglas Boin reconstructs Clodia's eventful passage through her politically divided and tumultuous times, from her privileged childhood to her picking up a family baton of egalitarian activism. A widow and single mother, Clodia had a charisma and power that rivaled her male contemporaries and struck fear into the heart of Rome's political elite. That is, until a sensational murder trial, rife with corruption and told here in riveting detail, brought about her fall from grace. For generations of women who came after her—including a young Cleopatra, who might have met a disgraced Clodia when she first came to Rome—Clodia's story would loom as a cautionary tale about the hostilities women would face when they challenged the world of men. Freed from the caricature that Cicero painted of her, Clodia serves as a reminder of countless women whose stories have been erased from the historical record. In a Rome whose citizens were engaged in heated debates on imperialism, immigration, and enfranchisement, amidst rising

anxieties about women's role in society, Clodia was an icon—one worth remembering today.

New Perspectives on Postclassical Comedy Antonis Petrides, 2020-05-15 PIERIDES II, Series Editors: Philip Hardie and Stratis Kyriakidis The re-emergence of Menander from the landfills of Egypt in the late-19th century and the subsequent discovery of the Bodmer Codex in the 1950s caused a sensation among scholars. After a period in which the primary editing and reconstruction of the substantially preserved plays and fragments was the main line of criticism, scholars were finally in a position to take a deep breath and look at Menander and New Comedy, both Greek and Roman, in wider contexts of interpretation and with fresh perspectives drawn from innovative work both in Classical and more modern studies. This book aims to showcase these new approaches to postclassical comedy. The individual contributions, six in total, approach New Comedy as theatrical performance, but also as a dynamic player in the socio-political discourses of the polis culture that gave birth to it. The chapters highlight continuities as well as discontinuities with the cultural and literary past of Athens and the Greek world, but mostly emphasise the progressiveness of New Comedy as a genre and its importance for the nascent culture of Hellenism and Rome thereafter. Blume's introductory chapter tells the story of Menander's re-emergence from the tenebrae in full detail. The other five chapters are dual in nature: expositional of a method, but also practical examples of it.

They are arranged in a fashion which underlines the major theoretical underpinnings of New Comedy studies, as they are being developed in the present: Cultural Studies (David Konstan and Susan Lape), Intertextuality and Performance (Antonis K. Petrides and Rosanna Omitowaju), and Reception in Rome (Sophia Papaioannou).

Italy Taxation Laws and Regulations Handbook Volume 1 Corporate Taxation: Strategic Information and Regulations IBP, Inc.,2017-12 The posthumously published collection Hermit in Paris draws together an array of Italo Calvino's autobiographical writings that provide an illuminating and unexpectedly intimate portrait of one of the postwar era's most inventive and fascinating writers. In these pages, Calvino recounts his experiences in Italy's antifascist resistance, pays homage to his influences, traces the evolution of his literary style, and, in one of the book's most humorous and entertaining sections, provides a wry commentary on his travels in the United States in 1959 and 1960.

Religion as a Human Capacity Timothy Light,Brian C. Wilson,2018-08-14 Prepared in honor of E. Thomas Lawson, the essays in Religion as a Human Capacity represent diverse points of view in the study of religion today. Part I, "Theoretical Studies," offers a broad range of cognitivist theoretical explorations, while Part II, "Studies in Religious Behavior," presents cutting-edge applications of cognitive and other contemporary theories to religious data. This volume celebrates Lawson's critical contributions to cognitive studies of religion and the degree to which his ultimate goal of scholarship as a search for truth is matched by those who have been his colleagues and been influenced by him. Religion as a Human Capacity will be of interest to all those concerned with theory and method in the academic study of religion

Mediterranean Racisms I. Law,2014-10-20 This is the first book to provide an analysis of racism in the Mediterranean region. Ian Law reassesses contemporary processes of racialization, employing theoretical tools including polyracism, racial Arabization and racial Nawarization and drawing on new evidence on racism in North Africa, Lebanon, Cyprus, Greece and the Roma campland in Italy.

Public History of Education. A Brief Introduction Gianfranco Bandini,2024-02-06 Is historical knowledge important for education? How can we build a shared historical knowledge with schools, communities, and education professionals? The book responds to these questions by suggesting the public history approach, as applied in education and, more generally, to all professions that are based on human relations. The public history of education refers directly to North American experiences, but at the same time it is part of a process of European cultural acceptance and re-elaboration that has one of its main points of reference in the Italian Public History Association. The objective is not to make history for the general

public, but to make public history with all those interested, in a collaborative and participative context, in the quest for meaningful knowledge, directly related to the current and challenging needs of our society.

The Revelations of St. Birgitta of Sweden, Volume 3 Saint Bridget (of Sweden),2006 St. Birgitta of Sweden was one of the most charismatic and influential female visionaries of the later Middle Ages. Her revelations influenced the spiritual lives of many individuals including Martin Luther. Interest in Birgitta has grown recently and she is now admired as a powerful voice and prophet of reform.
