

People From My Neighborhood

Hiromi Kawakami

People from My Neighborhood Hiromi Kawakami, 2021-11-30 Nominated for the 2021 Shirley Jackson Award From the author of the internationally bestselling *Strange Weather in Tokyo*, a collection of interlinking stories that masterfully blend the mundane and the mythical—fairy tales in the best Brothers Grimm tradition: naïf, magical, and frequently veering into the macabre (Financial Times). A bossy child who lives under a white cloth near a tree; a schoolgirl who keeps doll's brains in a desk drawer; an old man with two shadows, one docile and one rebellious; a diplomat no one has ever seen who goes fishing at an artificial lake no one has ever heard of. These are some of the inhabitants of *People from My Neighborhood*. In their lives, details of the local and everyday—the lunch menu at a tiny drinking place called the Love, the color and shape of the roof of the tax office—slip into accounts of duels, prophetic dreams, revolutions, and visitations from ghosts and gods. In twenty-six palm of the hand stories—fictions small enough to fit in the palm of one's hand and brief enough to allow for dipping in and out—Hiromi Kawakami creates a universe ruled by mystery and transformation.

Geographies of Women's Health Nancy Davis Lewis, Isabel Dyck, Sara McLafferty, 2012-11-12 This international collection explores the relationships between society, place, gender and health, and how these play out in different parts of the world. The chapters work together in examining the complex layering of social, economic and political relations that frame women's health. The authors demonstrate that women's health needs to be understood 'in place' if gains are to be made in improving women's health and health care.

This Is Where You Belong Melody Warnick, 2017-07-04 In the spirit of Gretchen Rubin's megaseller *The Happiness Project* and Eric Weiner's *The Geography of Bliss*, a journalist embarks on a project to discover what it takes to love where you live The average restless American will move 11.7 times in a lifetime. For Melody Warnick, it was move #6, from Austin, Texas, to Blacksburg, Virginia, that threatened to unhinge her. In the lonely aftermath of unpacking, she wondered: Aren't we supposed to put down roots at some point? How does the place we live become the place we want to stay? This time, she had an epiphany. Rather than hold her breath and hope this new town would be her family's perfect fit, she would figure out

how to fall in love with it—no matter what. How we come to feel at home in our towns and cities is what Warnick sets out to discover in *This Is Where You Belong*. She dives into the body of research around place attachment—the deep sense of connection that binds some of us to our cities and increases our physical and emotional well-being—then travels to towns across America to see it in action. Inspired by a growing movement of placemaking, she examines what its practitioners are doing to create likeable locales. She also speaks with frequent movers and loyal stayers around the country to learn what draws highly mobile Americans to a new city, and what makes us stay. The best ideas she imports to her adopted hometown of Blacksburg for a series of Love Where You Live experiments designed to make her feel more locally connected. Dining with her neighbors. Shopping Small Business Saturday. Marching in the town Christmas parade. Can these efforts make a halfhearted resident happier? Will Blacksburg be the place she finally stays? What Warnick learns will inspire you to embrace your own community—and perhaps discover that the place where you live right now . . . is home.

Community Quality-of-Life Indicators Frank Ridzi, Chantal Stevens, Lyle Wray, 2022-08-27 This volume continues the tradition now established since 2006, of compiling excellent research into the practice and application of community indicators in a single source volume. It focuses on the theme of the Community Indicators Consortium 2020 Summit, as a significant venue for the advancement of the practice and theory of community indicators work. It covers the conference's theme of “community resilience”, which is the capacity of all of a community’s elements to survive, adapt, and grow no matter what kinds of chronic stresses and acute shocks they experience. In keeping with the practical, “best cases” emphasis of this book series, the editors incorporate a case-based approach to chapters discussing how specific indicators, indices or series of indicators can lead to better decisions and outcomes to help communities adapt and transform in the face of challenges, helping them prepare for both the expected and the unexpected to sustain and improve quality of life, including technology and open source approaches to data sharing and data-focussed collaboration; evolving approaches that use shared indicators to improve overall community well-being and quality of life; research related to community indicators and policy, application, research, and/or practice; and techniques and approaches to measure resilience. This volume is of interest to social scientists, management professionals, social workers and policy makers working on various aspects of

community indicators of quality of life and well-being. Community, Crime Control, and Collective Efficacy Craig D. Uchida, Marc L. Swatt, Shellie E. Solomon, Sean P. Varano, 2015-10-30 Collective efficacy is a neighborhood-level concept in which community members create a sense of agency and assume ownership for the state of their local community. This concept is one of several forms of formal and informal social control that predict the overall functioning of a community. In this book, the authors examine collective efficacy and crime in eight Miami-Dade County, Florida neighborhoods, based on data they collected from across the country and in the Miami-Dade neighborhoods themselves. They discuss findings relevant to the theory of collective efficacy itself, ramifications for its use within communities, and make recommendations for future research and for translating these results into actionable, crime prevention activities.

Community Organizing and Community Building for Health and Welfare Meredith Minkler, 2012-07-16 The third edition of *Community Organizing and Community Building for Health and Welfare* provides new and more established ways to approach community building and organizing, from collaborating with communities on assessment and issue selection to using the power of coalition building, media advocacy, and social media to enhance the effectiveness of such work. With a strong emphasis on cultural relevance and humility, this collection offers a wealth of case studies in areas ranging from childhood obesity to immigrant worker rights to health care reform. A tool kit of appendixes includes guidelines for assessing coalition effectiveness, exercises for critical reflection on our own power and privilege, and training tools such as policy bingo. From former organizer and now President Barack Obama to academics and professionals in the fields of public health, social work, urban planning, and community psychology, the book offers a comprehensive vision and on-the-ground examples of the many ways community building and organizing can help us address some of the most intractable health and social problems of our times. Dr. Minkler's course syllabus: Although Dr. Minkler has changed the order of some chapters in the syllabus to accommodate guest speakers and help students prep for the midterm assignment she uses, she arranged the actual book layout in a way that should flow quite naturally if instructors wish to use it in the order in which chapters appear.

Landscapes of the Ethnic Economy David H. Kaplan, 2006-10-26 Immigration has expanded dramatically in both traditional and emerging receiving nations. This worldwide boom has profoundly altered urban areas as new arrivals have transformed inner cities and suburbs alike into bastions of new ethnic economic activity. Examining the essential role of space in assisting and modifying ethnic business activity, this book considers how ethnic economies are reshaping the urban landscape in the United States, Britain, Australia, Canada, Germany, and Italy. Each chapter explores the significance of urban space and local context in the development of an ethnic economy and how, in turn, ethnic economies have helped to recreate urban neighborhoods. With its international scope and rich case studies, this book will be invaluable for scholars and students alike in the fields of ethnic studies, urban studies, economic development, geography, and sociology.
