*Quotations from Georg Ebers* Georg Ebers, 2019-12-06 In *Quotations from Georg Ebers*, readers are presented with a meticulously curated collection of reflections and insights drawn from the prolific works of the 19th-century German novelist and Egyptologist. Ebers blends a rich narrative style with philosophical musings that echo the Romantic era's fascination with history, nature, and the human experience. The text transcends mere quotes, offering a thematic exploration of cultural identity, existential thought, and the intertwining of personal and societal narratives, which underscores the literary context of his time while remaining profoundly relevant today. Georg Ebers, celebrated for his historical novels such as *Uarda* and *Arachne*, was deeply influenced by his academic pursuits in philology and archaeology, as well as his travels to Egypt. These experiences not only shaped his narrative style but also enriched his understanding of ancient civilizations, informing the quotes collected in this volume. Ebers used his literature as a vehicle for deeper philosophical inquiry, earning him recognition as one of the early proponents of popularizing Egyptological themes in fiction. For readers interested in the intersections of literature, philosophy, and history, *Quotations from Georg Ebers* serves as an invaluable resource. This anthology not only reflects Ebers's literary genius but also offers profound insights that resonate beyond its historical roots, making it a must-read for scholars and enthusiasts alike.

As the daily newsfeed full of suffering and injustice scrolls by, it's all too easy to question what one person can really do to enact the profound change the world needs. Like moviegoers, we often watch and witness with care, but assume the script has already been written. Disruptive Compassion dares to make a bold counter: you possess the power to provoke real and meaningful change. Why? Because God has empowered you to rewrite the story of tomorrow. Over 2,000 years ago, Jesus created a model for revolutionaries that has been followed ever since. These principles are just as powerful to guide our journey today. With raw and inspiring stories from the world's most desperate places and his own journey to find meaning, Convoy of Hope founder and CEO Hal Donaldson will take you on a tour along the frontlines of courage and compassion. Let this book be your crash course in what it means to become a revolutionary, as you learn how to: Evaluate the resources you already have Navigate real concerns and risks Check your motives And ultimately become equipped as an agitator with purpose With principles and insights gleaned from two decades of relief work, Hal reveals what he's learned from the journey and what we can take with us as we join the revolution.

**Viewpoints** Mary Strong, Laena Wilder, 2009-05-01 Early in its history, anthropology was a visual as well as verbal discipline. But as time passed, visually oriented professionals became a minority among their colleagues, and most anthropologists used written words rather than audiovisual modes as their professional means of communication. Today, however, contemporary electronic and interactive media once more place visual anthropologists and anthropologically oriented artists within the mainstream. Digital media, small-sized and easy-to-use equipment, and the Internet, with its interactive and public forum websites, democratize roles once relegated to highly trained professionals alone. However, having access to a good set of tools does not guarantee accurate and reliable work. Visual anthropology involves much more than media alone. This book presents visual anthropology as a work-in-progress, open to the myriad innovations that the new audiovisual communications technologies bring to the field. It is intended to aid in contextualizing, explaining, and humanizing the storehouse of visual knowledge that university students and general readers now encounter, and to help inform them about how these new media tools can be used for intellectually and socially beneficial purposes. Concentrating on documentary photography and ethnographic film, as well as lesser-known areas of study and presentation including dance, painting, architecture, archaeology, and primate research, the book's fifteen contributors feature populations living on all of the world's continents as well as within the United States. The final chapter gives readers practical advice about how to use the most current digital and interactive technologies to present research findings.
