The Irish Spirit Margaret M. Johnson, 2006-08-24 The Irish Spirit combines the Emerald Isle's favorite recipes with a touch of ale, stout, cider, or whiskey, creating terrific new flavor combinations. Whether scallops and shrimp are poached in single-malt whiskey, tender brisket is simmered in ale and topped with a golden cheese cobbler, or old-time pineapple upside-down cake is updated with a buttery, toffee liqueur topping, each recipe is enhanced by Ireland's famous spirits. In addition to the terrific recipes is the fascinating history of Irish whiskey, stories of classic events like Belfast's popular Pub Crawl, and the origins of the infamous black and tan, making this spirited cookbook a delight for all with a touch of the Irish.

Irish Puddings, Tarts, Crumbles, and Fools Margaret M. Johnson, 2013-02-08 From the author of *The New Irish Table* comes this celebration of the Emerald Isle's classic desserts, featuring eighty wonderful recipes. Everybody loves a fool—especially made fluffy with ripe strawberries or tangy apple. From lemony puddings and marmalade-slathered scones to fruit-filled tarts and berry-laden crumbles, these contemporary renditions of the traditional desserts of Ireland make perfect use of common staples such as oatmeal, fruit, dairy products, and, of course, whiskey. Steel-Cut Oat Pudding is enhanced with orange zest, nutmeg, and plump golden raisins. A chocolate, walnut, and caramel tart becomes a treat for grownups with a splash of the hard stuff. A final chapter offers the most memorable of holiday delectables including mincemeat tarts, Christmas pudding, and a really good fruitcake. A glossary and source list define and locate unusual ingredients. With gorgeous painterly photographs depicting the food and countryside, this wonderful cookbook serves as a sweet reminder of the people and cuisine of Ireland.

Sharing Your Family History Online Chris Paton,2021-03-15 An expert genealogist explains how to share your family history online and collaborate with distant relatives to build a richer ancestral story. For many enthusiasts pursuing their family history research, the online world offers a seemingly endless archive of digitized materials. In addition to hosting records, however, the internet also offers a unique platform on which we can host our research and potentially connect with distant relatives from around the world. In *Sharing Your Family History Online*, genealogist Chris Paton demonstrates the many ways we can present our research and encourage collaboration online. He details helpful organizations and social media applications, describes the software platforms on which we can collate our stories, and illustrates the variety of ways we can publish our stories online. Along the way, Paton also explores how we can make our research work for us, by connecting with experts and relatives who can help solve ancestral mysteries. This happens not only by sharing stories, but by accessing uniquely held documentation by family members around the world, including our shared DNA.

Making Online News Chris A. Paterson,Chris Paterson,David Domingo,2008 Volume 2 summary: Online journalism has taken center stage in debates about the future of news. Instead of speculating, this volume offers rich empirical evidence about actual developments in online newsrooms. The authors use ethnographic methodologies to provide a vivid, close analysis of processes like newsroom integration, the transition of newspaper and radio journalists to digital multimedia production, the management of user-generated content, the coverage of electoral campaigns, the pressure of marketing logics, the relationship with bloggers or the redefinition of news genres. -- Publisher description.

Post-Celtic Tiger Ireland and Contemporary Women's Writing Claire Bracken,Tara Harney-Mahajan,2021-05-09 *Post-Celtic Tiger Ireland and Contemporary Women's Writing: Feminist Interventions and Imaginings* analyzes and explores women's writing of the post-Tiger period and reflects on the social, cultural, and economic conditions of this writing's

production. The Post-Celtic Tiger period (2008–) in Ireland marks an important moment in the history of women’s writing. It is a time of increased visibility and publication, dynamic feminist activism, and collective projects, as well as a significant garnering of public recognition to a degree that has never been seen before. The collection is framed by interviews with Claire Kilroy and Melatu Uche Okorie—two leading figures in the field—and closes with Okorie’s landmark short story on Direct Provision, “This Hostel Life.” The book features the work of leading scholars in the field of contemporary literature, with essays on Anu Productions, Emma Donoghue, Grace Dyas, Anne Enright, Rita Ann Higgins, Marian Keyes, Claire Kilroy, Eimear McBride, Rosaleen McDonagh, Belinda McKeon, Melatu Uche Okorie, Louise O’Neill, and Waking The Feminists. Reflecting on all the successes and achievements of women’s writing in the contemporary period, this book also considers marginalization and exclusions in the field, especially considering the politics of race, class, gender, sexuality, ethnicity, nationality, and ability. The chapters in this book were originally published in the journal LIT: Literature Interpretation Theory.

Encyclopedia of Social Networks George A. Barnett, 2011-09-07 This two-volume encyclopedia provides a thorough introduction to the wide-ranging, fast-developing field of social networking, a much-needed resource at a time when new social networks or communities seem to spring up on the internet every day. Social networks, or groupings of individuals tied by one or more specific types of interests or interdependencies ranging from likes and dislikes, or disease transmission to the old boy network or overlapping circles of friends, have been in existence for longer than services such as Facebook or YouTube; analysis of these networks emphasizes the relationships within the network. This reference resource offers comprehensive coverage of the theory and research within the social sciences that has sprung from the analysis of such groupings, with accompanying definitions, measures, and research. Featuring approximately 350 signed entries, along with approximately 40 media clips, organized alphabetically and offering cross-references and suggestions for further readings, this encyclopedia opens with a thematic Reader's Guide in the front that groups related entries by topics. A Chronology offers the reader historical perspective on the study of social networks. This two-volume reference work is a must-have resource for libraries serving researchers interested in the various fields related to social networks.

Online Dispute Resolution for Consumers in the European Union Pablo Cortés, 2010-09-13 A PDF version of this book is available for free in open access via www.tandfebooks.com as well as the OAPEN Library platform, www.oapen.org. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license and is part of the OAPEN-UK research project. E-commerce offers immense challenges to traditional dispute resolution methods, as it entails parties often located in different parts of the world making contracts with each other at the click of a mouse. The use of traditional litigation for disputes arising in this forum is often inconvenient, impractical, time-consuming and expensive due to the low value of the transactions and the physical distance between the parties. Thus modern legal systems face a crucial choice: either to adopt traditional dispute resolution methods that have served the legal systems well for hundreds of years

or to find new methods which are better suited to a world not anchored in territorial borders. Online Dispute Resolution (ODR), originally an off-shoot of Alternative Dispute Resolution (ADR), takes advantage of the speed and convenience of the Internet, becoming the best, and often the only option for enhancing consumer redress and strengthening their trust in e-commerce. This book provides an in-depth account of the potential of ODR for European consumers, offering a comprehensive and up to date analysis of the development of ODR. It considers the current expansion of ODR and evaluates the challenges posed in its growth. The book proposes the creation of legal standards to close the gap between the potential of ODR services and their actual use, arguing that ODR, if it is to realise its full potential in the resolution of e-commerce disputes and in the enforcement of consumer rights, must be grounded firmly on a European regulatory model.

Irish Business and Society John Hogan, Paul F. Donnelly, Brendan K. O'Rourke, 2010-10-29 A collection of stimulating essays exploring the wide-ranging debates surrounding the relationship between business and society in 21st century Ireland. Wide-ranging, diverse and thought-provoking contributions from leading business researchers, economists, sociologists and political scientists from Ireland and abroad probe five central themes: the making and unmaking of the Celtic Tiger; governance, regulation and justice; partnership and participation; the nature of Irish borders in Ireland, Europe and the wider world; and interests and concerns in contemporary Ireland. *Irish Business and Society* takes a critical look at Ireland as one of the most open and globally integrated economies in the world, with the activities of Irish and Irish-based foreign business impacting on both national and international societies and businesses; discusses the relationships between business and society within the context of the wider Irish and European, political economy; presents the Irish economic decisions and conditions that precipitated the current recession in Ireland and the resultant lessons to be learned; and examines the relationship between Irish business and society today, contemplating how it might develop into the future. Essential reading for students of Irish Business, Economics, Sociology and Politics, those taking Irish Studies courses and anyone interested in contemporary Ireland.
