Diabetes: Sugar-Coated Crisis David Spero,2006-11-01 Type 2 diabetes is a social pandemic caused by toxic environments—high in stress and sugar, low in opportunities to exercise or feel good about yourself—and a lack of power. Millions are suffering and being blamed for it, communities are being devastated, health systems bankrupted. *Diabetes: Sugar-Coated Crisis* describes the social sources of the toxic environment, covering deeper causes too: the stress and inequality built into our modern culture, the traumas and loss of community that make people vulnerable to illness. Mind Over Medicine - REVISED EDITION Lissa Rankin, M.D.,2020-06-09 New York Times bestseller and beloved guide, revised and updated with up-to-the minute scientific and spiritual insight, teaches readers how to listen to their bodies and assess all areas of their lives--relational, psychological, creative, environmental, professional--to understand what they need for health. What a pleasure it is to see the next generation of physicians waking up to what I call real medicine--the kind that acknowledges our true power to heal and be well. - Christiane Northrup, M.D., OB/GYN physician and author of the New York Times bestsellers: Women's Bodies, Women's Wisdom and The Wisdom of Menopause When Mind Over Medicine was first published, it broke new ground in the fertile region where science and spirituality intersect. Through the process of restoring her own health, Dr. Lissa Rankin discovered that the conventional health care she had been taught to practice was missing something crucial: a recognition of the body's innate ability to self-repair and an appreciation for how we can control these self-healing mechanisms with the power of our own consciousness. To better understand this phenomenon, she explored peer-reviewed medical literature and found evidence that the medical establishment had been proving that the body can heal itself for over 50 years. She shared her findings and laid out a practical plan for readers to heal themselves in this profoundly wise book--a New York Times bestseller and now a classic guide for people who are on a healing journey from illness, injury, or trauma. In the years since then, Dr. Rankin has deepened her exploration of the world's healing tradition and her understanding of the healing power we hold within ourselves--if only we can tap into it. This revised edition of Mind Over Medicine reflects her latest research, evolving wisdom, and work with clients and students in her healing community,

as well as with doctors and other healers in her Whole Health Medicine Institute. Inside, readers will discover: • A thorough update of Dr. Rankin's signature Six Steps to Healing Yourself • New insight into how unresolved trauma can stand in the way of healing from chronic and life-threatening illnesses-and powerful tools we can use to heal it • How to tune in to our Inner Pilot Light for intuitive guidance in our healing And much more The healing that is possible may be right here, Dr. Rankin writes, closer than close, underneath all your efforting and striving, available if you are ready to humble yourself before this possibility and receive what awaits you.

The Unshaming Way David Bedrick, 2025-01-07 “In this astute work, David Bedrick provides a deep investigation of shame, the most debilitating of our mind states, and offers a workable, practice-based, and accessible path to divesting ourselves from it.” —Gabor Maté, MD, New York Times best-selling author of *In the Realm of Hungry Ghosts* An empowering, stigma-free approach to dismantling shame—a trauma-informed guide to restoring our authentic self Shame affects us all...often in ways we might not expect. Author, mental health expert, and professor David Bedrick helps us understand how shame shows up—and offers a revolutionary, stigma-free model to help us unshame and release its hold on our happiness. Shame is more than feeling guilty, sad, or responsible. It develops when we experience a trauma but can't access the tools or freedom to express how we feel—or are denied the ability to ask for the care we need. It shows up when we aren't witnessed—whether by a loved one, our community, our culture, or anyone from whom we need to hear: whatever happened to you, these parts of you that you think are unlovable or wrong—you're not broken. I see you. Bedrick helps readers bring shame out of the shadows, inviting us to get to know it and listen to its wisdom without minimizing our traumas or pathologizing our experiences. He helps us move from seeing shame as a feeling toward holding it as an internal viewpoint—and offers us practical tools and exercises to dismantle the narratives that hold us back from living our lives whole, free, and in alignment with our most authentic selves.

Questions from a Life Watcher Mary-Beth Klastorin MSW LCSW, 2017-11-13 This book is my treasure. It represents wisdom spiritually anchored in the soul's journey inward. So I invite you to come with me as we enter the realm of self-exploration, where I pose questions that explore the heart's quest to feel complete. This book wrote me. The questions and insights presented themselves as fine-tuned instruments playing counterpoint in the orchestra of my life. The music created an experience that took me on a great adventure. I discovered that we can truly evolve into who we were meant to be by paying attention and observing ourselves, others, and our environment. I realize now that any one of us can change if we choose to become a life watcher.

EBOOK: Coaching and Trauma Julia Vaughan Smith, 2019-09-10 Why do coaches need to understand trauma? This book highlights the role coaches must play - and how it differs to psychotherapists - in supporting clients with trauma. A role that both enhances the coach's skills and supports their clients' personal development. Trauma isn't an event, it is a lasting internal process through which the 'here and now' of life experience is affected by the 'there and then' of traumatising experience. Vaughan Smith provides a way to understand the internal process that affects all aspects of our physical and mental wellbeing. While providing an introduction to the theory of trauma, the main focus is on practical application within the context of coaching; distilling Franz Ruppert's theory of the surviving self and the healthy self. Written for practitioners, this important text raises trauma awareness, addresses the 'what if?' questions many coaches have and provides a clear framework for implementation. Rarely do coaching or organisational development books address the very prevalent issue of trauma and yet this is something every coach will come across in their practice. "This book busts the myth that trauma has nothing to do with coaching, while underlining clearly how coaches can maintain appropriate boundaries. A real gift to the profession and absolutely essential reading for any coaching supervisor." Paul Heardman, Leadership Coach and Coaching Supervisor "A clear, enlightening, practical book that is well-grounded in theory." Carolyn Mumby, Executive and Personal Coach-Therapist, Supervisor and Facilitator, Chair BACP Coaching Division "This is a book that coaching has been missing. From the first pages it's clear that we are in safe hands as Julia guides us through a topic that is sadly still taboo for many coaches." Helen Sieroda, Director Wise Goose School of Coaching "Necessary reading for anyone serious about coaching. It's a profound book, and because it goes deep, it reveals fertile possibilities. It touches, evokes and - with great care - honours our necessary inventiveness." Jonathan Gosling, Emeritus Professor of Leadership, Exeter University and co-founder of CoachingOurselves.com This book should interest therapists and coaches. If not, they should ask themselves why. It is a magnificent fusion of Julia's career as a clinician, manager, management consultant, therapist, coach and author." Brian

Lewis, Bellettes Bay Company, Tasmania, Australia “Essential reading for coaching supervisors and coaches. It has transformed my practice. Dr Louise Sheppard, Coaching Supervisor and Executive Coach at Praesta Partners LLP “A must for anyone wanting to take their coaching to another level.” Shirley Greenaway, Executive Coach, Head of Coaching at Management Futures

Moody Bitches Julie Holland, 2015-03-03 A groundbreaking guide for women of all ages that shows their natural moodiness is a strength, not a weakness As women, we learn from an early age that our moods are a problem, an annoyance to be stuffed away. But our bodies are wiser than we imagine. Moods are a finely tuned feedback system that allows us to be more empathic, intuitive, and aware of our own capabilities. If we deny our emotionality, we deny the breadth of our talents. Yet millions of American women are medicating away their emotions with psychiatric drugs whose effects are more far-reaching than most of us realize. And even if we don't pop a pill, women everywhere are numbing their emotions with food, alcohol, and a host of addictive behaviors that deny the wisdom of our bodies and keep us from addressing the real issues we face. Psychiatrist Julie Holland knows there is a better way. In *Moody Bitches*, she shares insider information about the drugs we're being offered and the direct link between food and mood, and she offers practical advice on sex, exercise, and sleep strategies, as well as some surprisingly effective natural therapies. In the tradition of *Our Bodies, Our Selves*, this groundbreaking guide will forge a much needed new path in women's health—and offer women invaluable information on how to live better, and be more balanced, at every stage of life.
