**At Risk** Patricia Cornwell, 2007 A 'one-off' from the best-selling creator of the Dr Kay Scarpetta series, based on the serialisation in the New York Times. Moving between the chill of Cambridge, Massachusetts and the sultry humidity of Knoxville, Tennessee, Winston Garano, a police investigator, is instructed to look into a twenty-year-old murder case. Although Win reckons there are many more pressing current cases which should have higher priority, he gets on with the task, unaware of the can of worms he will prise open. With her hallmark qualities of deft characterisation, perfect research and tense story-telling, Patricia Cornwell has created a novel which entertains, intrigues and satisfies.

*At Risk* Patricia Cornwell, 2007-04-03 Sparks fly and twists abound in this electrifying thriller from #1 New York Times bestselling crime author Patricia Cornwell. Massachusetts state investigator Win Garano is called home from Knoxville, Tennessee, where he is completing a course at the National Forensic Academy. His boss, the district attorney, attractive but hard-charging, is planning to run for governor, and as a showcase she's planning to use a new crime initiative called At Risk—its motto: “Any crime, any time.” In particular, she's been looking for a way to employ cutting-edge DNA technology, and she thinks she's found the perfect subject in an unsolved twenty-year-old murder in Tennessee. If her office solves the case, it ought to make them all look pretty good, right? Win isn't so sure—not sure about anything to do with this woman, really—but before he can open his mouth, a shocking piece of violence intervenes, an act that shakes up both their lives and the lives of everyone around them. It's not a random event. Is it personal? Is it professional? Whatever it is, the implications are very, very bad indeed...and they're about to get much worse.

**The Front** Patricia Cornwell,2008-05-20 #1 New York Times bestselling author Patricia Cornwell takes readers to a place where what you see can't be believed in this pulse-pounding thriller. DA Monique Lamont has a special job for Massachusetts state investigator Win Garano. As part of a new public relations campaign about the dangers of declining neighborhoods, Lamont is sending Win to Watertown to come up with a “drama,” and she thinks she knows just the case that will serve. Garano is skeptical because he knows that Watertown is also the home base for a loose association of municipal police departments called the FRONT, set up so they aren't dependent on the state—much to Lamont's anger. Win senses a much deeper agenda—but has no idea just how deep it goes. In the days that follow, he'll find Lamont's task. and the places it leads him, will resemble a house of mirrors—everywhere he turns, he's not quite sure if what he's seeing is true.

**The Faces and Stakes of Brand Insertion** Sébastien Lefait,Sandrine Villers,2022-03-22 With traditional forms of advertisement facing increasing challenges, brand placement - the integration of a product or brand in a work of art - has exploded. It has become a lucrative phenomenon whose goal is to produce a reaction of purchase in the mind of the receiver (reader, viewer or listener). This volume seeks to complement extant studies of product placement strategies by introducing a methodology more systematically related to the field of cultural studies, especially where the reception and impact of product placement are concerned. It explores the many iterations of brand placement in popular culture, with a consideration of the crossover between advertisement and art in everything from Wes Anderson, Blade Runner and the Fast and Furious franchise, to music videos, late night shows and plastic art. The book considers the impact of brand placement in TV series on teenagers, as well as the evolution of such placement in literature. The originality of this volume is that, when the impact of the placement is mentioned, it is to be understood as an intended aesthetic impact at least as much as a prompt to buy a product. Consequently, the placement of consumer goods in a cultural production, the book suggests, may both increase the sales of specific products and positively impact the production's ratings. This book is perfect for researchers and students interested in marketing, brand placement, mass media, art, film, and cultural studies.

In an attempt to prove his theory, Edward grows the mold he believes responsible with samples from the Stewart estate. In a brilliant designer-drug transformation, the poison becomes Ultra, the next generation of antidepressants with truly startling therapeutic capabilities.
