Dramaturgia asturiana contemporánea Manuel Palomino Arjona, 2019-02-02 Índice bibliográfico sobre dramaturgia asturiana contemporánea, en el que se incluyen obras de carácter colectivo, creación propia, adaptaciones y dramaturgias basadas en otros textos y géneros literarios, además de coreógrafos, compositores de música, performers, escenógrafos y otros técnicos del arte escénico. Asturias, región que permite la pervivencia de formas como el monologuismo, el teatro costumbrista y las mascaradas de invierno, se ha caracterizado por los movimientos sociales y la emigración. Se incluyen a los autores asturianos que escribieron en eonaviego o en gallego, además de ampliarlo por cuestión lingüística al patsuezu y mirandeses. La formación reglada llevada a cabo por el ITAE y la ESAD, junto a la organización de los grupos de teatro aficionados en torno a FETEAS, hace que vivamos un boom del teatro costumbrista en Asturias, resultando además un revulsivo en la producción teatral.

Participación deportiva de las mujeres asturianas [1939-1977] Concepción Carbajosa Menéndez, 1999 Este libro constituye una descripción detallada del conjunto de la participación deportiva de las jóvenes asturianas desde 1939 hasta 1977, en las diferentes competiciones, tanto las convocadas por la Sección Femenina como las convocadas por las federaciones deportivas. Los límites temporales nos vienen impuestos por ser éste un período histórico en el que la educación física y deportiva que podían practicar las mujeres estaba, por mandato legal, dirigida y supervisada por la Sección Femenina, organización dependiente de la Secretaría General del Movimiento. Como consecuencia de esta situación, la educación física y deportiva femenina, sobre todo en el ámbito escolar, se realizaba de forma totalmente independiente de la practicada por los hombres, que dependía del Frente de Juventudes. Esta separación por sexos finalizó con la aprobación de la Constitución Española de 1978, que impuso la no discriminación por razón de sexo, lo que dio lugar a partir de esta fecha al comienzo de una enseñanza mixta de la Educación Física. La competición deportiva continuó, y continúa, realizándose con separación de sexos en todo el mundo.

Iglesias tardoantiguas y altomedievales en la península ibérica Ma. de los Ángeles Utrero Agudo,María de los Ángeles Utrero Agudo,2006 El estudio de la arquitectura eclesiástica tardoantigua y altomedieval ha adolecido, por un lado, de una escasa comprensión arqueológica de su construcción y, por otro, del desconocimiento del marco social, económico o geográfico en el que vio la luz. Siguiendo una metodología arqueológica en el estudio de los alzados (arqueología de la arquitectura) este libro presenta una secuencia evolutiva de las iglesias tardoantiguas y altomedievales y las sistematiza según una tipología formal y cronológica.

Urban Interactions Michael J. Kelly,Michael Burrows,2020 This volume is dedicated to eliciting the interactions between localities across late antique and early medieval Europe and the wider Mediterranean. Significant research has been done in recent years to explore how late Roman and post-Roman cities, towns and other localities communicated vis-à-vis larger structural phenomena, such as provinces, empires, kingdoms, institutions and so on. This research has contributed considerably to our understanding of the place of the city in its context, but tends to portray the city as a necessarily subordinate conduit within larger structures, rather than an entity in itself, or as a hermeneutical object of enquiry. Consequently, not enough research has been committed to examining how local people and communities thought about, engaged with, and struggled against nearby or distant urban neighbors. Urban Interactions addresses this lacuna in urban history by presenting articles that apply a diverse spectrum of approaches, from archaeological investigation to critical analyses of historiographical and historical biases and developmental consideration of antagonisms between ecclesiastical centers. Through these avenues of investigation, this volume elucidates the relationship between the urban centers and their immediate hinterlands and neighboring cities with which they might vie or collaborate. This entanglement and competition,

whether subterranean or explicit across overarching political, religious or other macro categories, is evaluated through a broad geographical range of late Roman provinces and post-Roman states to maintain an expansive perspective of developmental trends within and about the city.
