Theatre Is My Life! Barbara J Sloan,2024-09-04 Meditation day books are popular spiritual or inspirational guides, but none have been written quite like this one. Drawing from over 50 years of working and creating, teaching and nurturing students in theatre, the author uses quotes from plays as a basis for rumination and the exploration of life, making this particular volume part memoir, part life philosophy, and part mini theatre history vignettes. This volume is written to be read each day, with one writing for each of 366 days of a year. With a spiritual message at the heart of the work, the book will also appeal to theatre and arts lovers. The author has many years experience in teaching the Enneagram, the Arts as a

transcendent adventure, and other wisdom subjects. This meditation collection is good for any spiritual seeker who brings a clear heart and an open mind to spiritual exploration. As the author says, "One of the extraordinary things about working in the theatre day in and day out is that the words of the script of the play I am creating soak through my clothing, permeate my skin, penetrate my brain, and saturate my life." From these quotes, Sloan has created short reflections on life, arranged thematically for every day of the year. Plays, written by real people over the centuries, brim with the same sort of emotions and challenges, joys and fears that impact us today. The characters warn, rejoice, fuss, complain, doubt, advise, and cheer their fellows just as we do today. In this work, Sloan suggests that reading and watching plays can assist us as we review the physical, emotional, mental, and spiritual natures of our own lives. From new beginnings in January to tying up loose ends in December, these meditations become a daily traveling partner for those who want to reflect on how art and literature influence and become a part of our lives.

**Power Under Her Foot** Chris Lezotte, 2018-05-31 Since their introduction in 1964, American muscle cars have been closely associated with masculinity. In the 21st century, women have been a growing presence in the muscle car world, exhibiting classic cars at automotive events and rumbling to work in modern Mustangs, Camaros and Challengers. Informed by the experiences of 88 female auto enthusiasts, this book highlights women's admiration and passion for American muscle, and reveals how restoring, showing and driving classic and modern cars provides a means to challenge longstanding perceptions of women drivers and advance ideas of identity and gender equality.

Charles Bukowski Howard Sounes, 2007-12-01 "A lively portrait of American literature's 'Dirty Old Man'." —Library Journal A former postman and long-term alcoholic who did not become a full-time writer until middle age, Charles Bukowski was the author of autobiographical novels that captured the low life—including Post Office, Factotum, and Women—and made him a literary celebrity, with a major Hollywood film (Barfly) based on his life. Drawing on new interviews with virtually all of Bukowski's friends, family, and many lovers; unprecedented access to his private letters and unpublished writing; and commentary from Norman Mailer, Allen Ginsberg, Sean Penn, Mickey Rourke, Lawrence Ferlinghetti, R. Crumb, and Harry Dean Stanton, Howard Sounes has uncovered the extraordinary true story of the Dirty Old Man of American literature. Illustrated with drawings by Bukowski and over sixty photographs, Charles Bukowski is a must for Bukowski devotees and new readers alike. "Bukowski is one of those writers people remember more for the legend than for the work . . . but, as Howard Sounes shows in this exhaustively researched biography, it wasn't the whole story." —Los Angeles Times "Engaging . . . Adroit . . . revealing." —The New York Times Book Review "A must-read for anybody who is a fan of Bukowski's writing." —The Globe and Mail (Toronto)

*Funny Quotes Serious People* Brain Words,2019-06-14 If I were two-faced, would I be wearing this one? — Abraham Lincoln What do Albert Einstein, Winston Churchill, and Abraham Lincoln have in common? They were great achievers, and had a great sense of humor! This book is a collection of the 365 funniest and cleverest quotes from remarkable people across history. They were artists, inventors, business people, politicians; and despite their busy lives, they had always time for a good laugh. I believe we should do the same. We should take a break, laugh, and have a better life! That's what this book is about. Have a happy day!

*Last Laughs* Kathleen E. Miller,2006 Laugh in the face of death! That's what this bold, brash, and often irreverent collection of epitaphs encourages readers to do. It offers more than just the deceased's name and dates of birth and death, plus a touching phrase in memorial. Instead, every fascinating quote presents an unexpectedly cheeky perspective on the tragic, like this one from Uniontown, New Jersey: Here lies the body of Jonathan Blake; stepped on the gas pedal instead of the brake." Some come from the gravestones of the famous: Bette Davis's proudly notes that she did it the hard way." Each thought-provoking line makes an indelible contribution to our folklore.

 web jun 3 2022 the distance protection method is widely used for

power system transmission line protection distance relays are one of the main protection devices in a transmission line distance protection relay approximates the impedance down the line to a fault using currents and voltage measurement units  
[implement protection relay with definite minimum time dmt trip](#) - Aug 16 2023  
 web the protection relay block implements a protection relay for the hardware and the motor with definite minimum time dmt trip characteristics using the reference limit feedback and reset input signals in the event of a fault the block generates a latched fault signal that you can use to protect the hardware and the motor  
[power system relay protection simulation based on matlab](#) - Jan 29 2022  
 web matlab based simulation technology can support the analysis and design of relay protection systems a simulation model is built for the study of power system relay protection as an example the power system fault simulation zero sequence current protection simulation and transformer
