Educazione in età adulta Paolo Federighi,2018 This volume shows the outcome of a series of meetings and seminars which, on several levels, contributed to the construction of the International Conference La ricerca sull'Educazione in età Adulta nelle università italiane held at the University of Florence on the 23rd and 24th November 2017. The different contributions have tried to answer the question on the origin and development of adult education in Italy within academic contexts. What does it mean to work in this research field? The interviewed directors have reflected on a number of research approaches and have reconstructed the variety of theories, models and authors which outlined the development of this discipline in Italy over the last fifty years. Among the covered topics are: increasing the educational quality of the workplace, understanding the education incorporated in the workplace, studying the aims of education in formal and informal contexts. This has led to a new and original theme, which had however not been touched by the Italian academic literature, namely the question of inequalities and relative poverty, two important phenomena for understanding the development of future societies.

Nella rete del body shaming Paola Borgna, Maria Adelaide Gallina, Renato Grimaldi, Cristina Ispas, Tania Parisi, 2025-05-21

Una persona sovrappeso dovrebbe evitare di postare le sue foto sui social in costume da bagno; Se qualcuno riceve un meme su un suo difetto fisico, non se la deve prendere, è soltanto un meme. Ancora: Offendere un compagno/a via Internet per come si veste è sicuramente meno grave che farlo di persona. Queste sono alcune delle affermazioni utilizzate nell'indagine empirica presentata nel volume, condotta su un esteso campione di adolescenti in Italia e in Romania per rilevare la loro propensione al body shaming online. I comportamenti di prevaricazione messi in atto attraverso insulti, prese in giro o umiliazioni - nel mondo fisico e nel mondo virtuale - sono oggetto nel testo di analisi sociologiche, pedagogiche, psicologiche, semiotiche, mediologiche, e di riflessioni di insegnanti e funzionari del sistema scolastico.

Mind, Learning and Knowledge in Educational Contexts Elisa Frauenfelder, Flavia Santoianni, 2003 Bioeducational sciences are a broad field of study, uniting concepts from many disciplines (education, psychology, and neuroscience). At the heart of bioeducational sciences lie the fundamental questions of mind-brain and nature-nurture relationships linked to educational practical aspects. Bioeducational sciences may have three main lines of research: 1. epigenetic perspectives: studies on filogenetic evolution (evolutionary perspectives) and mind/brain ontogenesis (ontogenetic perspectives); 2. biodynamic perspectives: analysis of biological bases of learning process (biological perspectives) and individual rethinking as a whole (whole organismic perspectives); 3. synergic perspectives: mind is distributed and situated and knowledge structures are embedded in domain specific contexts (cultural and domain specific perspectives). The aim of this volume is to identify key foundational questions and classical areas of study characterizing bioeducational sciences as a field of research

that considers both the extent to which biologically prepared structures constrain individual cognitive functioning and the relations between individual cognitive development and cultural domains. Believing education part of the cultural elaboration process and recognizing the importance of neuroscience research findings for educational practice, this volume focuses on topics such as the epigenesis of mind, cognitive development, learning processes, knowledge structures, theories of mind and folk theories, interaction between emotion and cognition, cognition and metacognition, and between symbolic and biological systems, across various disciplines and through a cross-cultural perspective.

I referendum in materia di giustizia del 2022 Mario Tocci, 2022-02-25 Il volume - di taglio sostanzialmente divulgativo ma con riferimenti giuridici specifici (di normativa in primis, indi di giurisprudenza e dottrina) - verte sugli imminenti quesiti referendari in materia di giustizia. Ogni quesito è adeguatamente trattato e commentato, con una proiezione ben argomentata degli effetti della vittoria del "SI".
