HandiLand Elizabeth A. Wheeler,2019-08-21 HandiLand looks at young adult novels, fantasy series, graphic memoirs, and picture books of the last 25 years in which characters with disabilities take center stage for the first time. These books take what others regard as weaknesses—for instance, Harry Potter’s headaches or Hazel Lancaster’s oxygen tank—and redefine them as part of the hero’s journey. HandiLand places this movement from sidekick to hero in the political contexts of disability rights movements in the United States, the United Kingdom, and Ghana. Elizabeth A. Wheeler invokes the fantasy of HandiLand, an ideal society ready for young people with disabilities before they get there, as a yardstick to measure how far we’ve come and how far we still need to go toward the goal of total inclusion. The book moves through the public spaces young people with disabilities have entered, including schools, nature, and online communities. As a disabled person and parent of children with disabilities, Wheeler offers an inside look into families who collude with their kids in shaping a better world. Moving, funny, and beautifully written, *HandiLand: The Crippest Place on Earth* is the definitive study of disability in contemporary literature for young readers.

Dance in Musical Theatre Phoebe Rumsey,Dustyn Martincich,2023-12-14 From *Oklahoma!* and *West Side Story*, to *Spring Awakening* and *Hamilton*, dance remains one of the most important and key factors in musical theatre. Through the integration of song and dance in the 'dream ballets' of choreographers like Agnes De Mille; the triple threat performances of Jerome Robbins' dancers; the signature style creation by choreographers like Bob Fosse with dancers like Gwen Verdon; and the contemporary, identity-driven work of choreographers like Camille A. Brown, the history of the body in movement is one that begs study and appreciation. *Dance in Musical Theatre* offers guidelines in how to read this movement by analyzing it in terms of composition and movement vocabulary whilst simultaneously situating it both historically and critically. This collection provides the tools, terms, history, and movement theory for reading, interpreting, and centralizing a discussion of dance in musical theatre, importantly, with added emphasis on women and artists of color. Bringing together musical theatre and dance scholars, choreographers and practitioners, this edited collection highlights musical theatre case studies that employ dance in a dramaturgically essential manner, tracking the emergence of the dancer as a key figure in the genre, and

connecting the contributions to past and present choreographers. This collection foregrounds the work of the ensemble, incorporating firsthand and autoethnographic accounts that intersect with historical and cultural contexts. Through a selection of essays, this volume conceptualizes the function of dance in musical: how it functions diegetically as a part of the story or non-diegetically as an amplification of emotion, as well as how the dancing body works to reveal character psychology by expressing an unspoken aspect of the libretto, embodying emotions or ideas through metaphor or abstraction. Dance in Musical Theatre makes dance language accessible for instructors, students, and musical theatre enthusiasts, providing the tools to critically engage with the work of important choreographers and dancers from the beginning of the 20th century to today.

Fearlessly Different Mickey Rowe, 2022-03-15 ... powerfully renders what it's like to live life to the fullest. Publishers Weekly Starred Review My name is Mickey Rowe. I am an actor, a theatre director, a father, and a husband. I am also a man with autism. You think those things don't go together? Let me show you that they do. Growing up, Mickey Rowe was told that he couldn't enter the mainstream world. He was iced out by classmates and colleagues, infantilized by well-meaning theatre directors, barred from even earning a minimum wage. Why? Because he is autistic. *Fearlessly Different: An Autistic Actor's Journey to Broadway's Biggest Stage* is Mickey Rowe's story of growing up autistic and pushing beyond the restrictions of a special education classroom to shine on the stage. As an autistic and legally blind person, living in a society designed by and for non-disabled people, it was always made clear to Mickey the many things he was apparently incapable of doing. But Mickey did them all anyway—and he succeeded because of, not in spite of, his autism. He became the first autistic actor to play the lead role in the play *The Curious Incident of the Dog in the Night-Time*, landed the title role in the play *Amadeus*, co-created the theatre/philanthropy company Arts on the Waterfront, and founded the National Disability Theatre. Mickey faced untold obstacles along the way, but his story ends in triumph. Many people feel they are locked out of the world of autism—that it's impossible to even begin to understand. In *Fearlessly Different*, Mickey guides readers to that world while also helping those with autism to feel seen and understood. And he shows all people—autistic and non-autistic alike—that the things that make us different are often our biggest strengths.

The Language of Inclusive Education Elizabeth Walton, 2015-12-22 The Language of Inclusive Education is an insightful text which considers the writing, speaking, reading and hearing of inclusive education. Based on the premise that humans use language to construct their worlds and their realities, this book is concerned with how language works to determine what we know and understand about issues related to in/exclusion in education. Using a variety of analytical tools, the author exposes language-at-work in academic and popular literature and in policy documents. Areas of focus include: What inclusive education means and how it is defined How metaphor works to position inclusive education How textbooks construct inclusive education How we use language to build what we understand to be difference and disability, with particular reference to AD(H)D and Asperger's Syndrome Listening to children and young people as a means to promote inclusion in schools Woven through this volume is the argument for a more critical awareness of how we use language in the field that we call 'inclusive education'. This book is a must-read for any individual studying, practicing or an interest in inclusion and exploring the associations with language.

Crime Fiction Migration Christiana Gregoriou, 2017-07-27 Crime narratives form a large and central part of the modern cultural landscape. This book explores the cognitive stylistic processing of prose and audiovisual fictional crime 'texts'. It also examines instances where such narratives find themselves, through popular demand, 'migrating' - meaning that they cross

languages, media formats and/or cultures. In doing so, Crime Fiction Migration proposes a move from a monomodal to a multimodal approach to the study of crime fiction. Examining original crime fiction works alongside their translations, adaptations and remakings proves instrumental in understanding how various semiotic modes interact with one another. The book analyses works such as *We Need to Talk About Kevin*, *The Killing* trilogy and the reimaginings of plays such as *Shear Madness* and films such as *Funny Games*. Crime fiction is consistently popular and 'on the move' - witness the spate of detective series exported out of Scandinavia, or the ever popular exporting of these shows from the USA. This multimodal and semiotically-aware analysis of global crime narratives expands the discipline and is key reading for students of linguistics, criminology, literature and film.

Elusive Brain Jason Tougaw, 2018-04-24 Featuring a foreword by renowned neuroscientist Joseph E. LeDoux, *The Elusive Brain* is an illuminating, comprehensive survey of contemporary literature's engagement with neuroscience. This fascinating book explores how literature interacts with neuroscience to provide a better understanding of the brain's relationship to the self. Jason Tougaw surveys the work of contemporary writers—including Oliver Sacks, Temple Grandin, Richard Powers, Siri Hustvedt, and Tito Rajarshi Mukhopadhyay—analyzing the way they experiment with literary forms to frame new views of the immaterial experiences that compose a self. He argues that their work offers a necessary counterbalance to a wider cultural neuromania that seeks out purely neural explanations for human behaviors as varied as reading, economics, empathy, and racism. Building on recent scholarship, Tougaw's evenhanded account will be an original contribution to the growing field of neuroscience and literature.

The Disabled Child Amanda Apgar, 2023-01-10 When children are born with disabilities or become disabled in childhood, parents often experience bewilderment: they find themselves unexpectedly in another world, without a roadmap, without community, and without narratives to make sense of their experiences. *The Disabled Child: Memoirs of a Normal Future* tracks the narratives that have emerged from the community of parent-memoirists who, since the 1980s, have written in resistance of their children's exclusion from culture. Though the disabilities represented in the genre are diverse, the memoirs share a number of remarkable similarities; they are generally written by white, heterosexual, middle or upper-middle class, able-bodied parents, and they depict narratives in which the disabled child overcomes barriers to a normal childhood and adulthood. Apgar demonstrates that in the process of telling these stories, which recuperate their children as productive members of society, parental memoirists write their children into dominant cultural narratives about gender, race, and class. By reinforcing and buying into these norms, Apgar argues, "special needs" parental memoirs reinforce ableism at the same time that they're writing against it.

Performing Psychologies Nicola Shaughnessy, Philip Barnard, 2019-02-07 Performing Psychologies offers new perspectives on arts and health, focussing on the different ways in which performance interacting with psychology can enhance understanding of the mind. The book challenges stereotypes of disability, madness and creativity, addressing a range of conditions (autism, dementia and schizophrenia) and performance practices including staged productions and applied work in custodial, health and community settings. Featuring case studies ranging from Hamlet to The Curious Incident of the Dog in the Night-Time, the pioneering work of companies such as Spare Tyre and Ridiculusmus, and embracing dance and music as well as theatre and drama, the volume offers new perspectives on the dynamic interactions between performance, psychology and states of mind. It contains contributions from psychologists, performance scholars, therapists and healthcare professionals, who offer multiple perspectives on working through performance-based media. Presenting a richly interdisciplinary and collaborative investigation of the arts in practice, this volume opens up new ways of thinking about the performance of psychologies, and about how psychologies perform.

The Cambridge Companion to British Theatre since 1945 Jen Harvie, Dan Rebellato, 2024-03-21 British theatre underwent a vast transformation and expansion in the decades after World War II. This Companion explores the historical, political, and social contexts and conditions that not only allowed it to expand but, crucially, shaped it. Resisting a critical tendency to focus on plays alone, the collection expands understanding of British theatre by illuminating contexts such as funding, unionisation, devolution, immigration, and changes to legislation. Divided into four parts, it guides readers through changing attitudes to theatre-making (acting, directing, writing), theatre sectors (West End, subsidised, Fringe), theatre communities (audiences, Black theatre, queer theatre), and theatre's relationship to the state (government, infrastructure, nationhood). Supplemented by a valuable Chronology and Guide to Further Reading, it presents up-to-date approaches informed by critical race theory, queer studies, audience studies, and archival research to demonstrate important new ways of conceptualising post-war British theatre's history, practices and potential futures.

Beautiful Game Theory Ignacio Palacios-Huerta, 2016-04-19 The first book to use the world's most popular sport to test economic theories and document novel human behavior A wealth of research in recent decades has seen the economic approach to human behavior extended over many areas previously considered to belong to sociology, political science, law, and other fields. Research has also shown that economics can provide insight into many aspects of sports, including soccer. Beautiful Game Theory is the first book that uses soccer to test economic theories and document novel human behavior. In this brilliant and entertaining book, Ignacio Palacios-Huerta illuminates economics through the world's most popular sport.

He offers unique and often startling insights into game theory and microeconomics, covering topics such as mixed strategies, discrimination, incentives, and human preferences. He also looks at finance, experimental economics, behavioral economics, and neuroeconomics. Soccer provides rich data sets and environments that shed light on universal economic principles in interesting and useful ways. Essential reading for students, researchers, and sports enthusiasts, *Beautiful Game Theory* is the first book to show what soccer can do for economics.

The Theatre of Simon Stephens Jacqueline Bolton, 2021-06-17 Simon Stephens is one of Europe's pre-eminent living playwrights. Since the beginning of his career in 1998, Stephens's award-winning plays have been translated into over twenty languages, been produced on four continents, and continue to feature prominently in the repertoires of European theatre. His original works have garnered numerous awards, with his stage adaptation of Mark Haddon's novel *The Curious Incident of the Dog in the Night-Time* winning seven Olivier Awards and enjoying acclaim on Broadway. In the first book to provide a critical account of Stephens's work, Jacqueline Bolton draws upon the playwright's unpublished personal archives, as well as original interviews with directors and actors, to advance detailed analyses of his original plays and their productions, examine contemporary approaches to playwriting, and deliver insights into broader debates regarding text, performance and authorship. Caridad Svich addresses Stephens's theatrical output between 2014 and 2019, and essays from Mireia Aragay and James Hudson provide additional perspectives on international productions and the playwright's adaptive practices. Andrew Haydon's edited interviews with six of Stephens's key collaborators – Marianne Elliott, Sarah Frankcom, Sean Holmes, Ramin Gray, Katie Mitchell and Carrie Cracknell – further illuminate the work from a director's viewpoint. *The Theatre of Simon Stephens* situates the playwright's oeuvre within his embrace of aesthetics and working relations encountered in European theatre cultures, focusing in particular upon shifting attitudes towards the function of the playwright, the relationship between playwrights and directors, and the role of the audience in live performance. The Companion serves as a lively and engaging study of one of the most restlessly creative and important dramatists of our generation.

Teaching Contemporary English Literature Hans Osterwalder, 2017-08-14 This book provides a theoretical introduction to the task-based methodology in language and literature teaching. For teachers the main points of interest are Part Two and Three, where a plethora of contemporary texts both from Britain and the US are given a literary analysis which is followed by detailed task-based lesson plans. Part Two focuses on multiculturalism, one of the seminal issues of our time, Part Three tackles gender, another highly topical theme which students are naturally interested in. Well-known authors like

the British-Asian writer Hanif Kureish and the Indian-American novelist Jhumpa Lahiri feature in the chapter on multiculturalism; the gender question is represented by Carol Ann Duffy, the current Poet Laureate and Caryl Churchill, the main representative of feminist drama.

A Companion to Wittgenstein on Education Michael A. Peters, Jeff Stickney, 2017-05-03 This book, bringing together contributions by forty-five authors from fourteen countries, represents mostly new material from both emerging and seasoned scholars in the field of philosophy of education. Topics range widely both within and across the four parts of the book: Wittgenstein's biography and style as an educator and philosopher, illustrating the pedagogical dimensions of his early and late philosophy; Wittgenstein's thought and methods in relation to other philosophers such as Cavell, Dewey, Foucault, Hegel and the Buddha; contrasting investigations of training in relation to initiation into forms of life, emotions, mathematics and the arts (dance, poetry, film, and drama), including questions from theory of mind (nativism vs. initiation into social practices), neuroscience, primate studies, constructivism and relativity; and the role of Wittgenstein's philosophy in religious studies and moral philosophy, as well as their profound impact on his own life. This collection explores Wittgenstein not so much as a philosopher who provides a method for teaching or analyzing educational concepts but rather as one who approaches philosophical questions from a pedagogical point of view. Wittgenstein's philosophy is essentially pedagogical: he provides pictures, drawings, analogies, similes, jokes, equations, dialogues with himself, questions and wrong answers, experiments and so on, as a means of shifting our thinking, or of helping us escape the pictures that hold us captive.
