Balkan Popular Culture and the Ottoman Ecumene Donna A. Buchanan, 2007-10-01 Since the early twentieth century, 'balkanization' has signified the often militant fracturing of territories, states, or groups along ethnic, religious, and linguistic divides. Yet the remarkable similarities found among contemporary Balkan popular music reveal the region as the site of a thriving creative dialogue and interchange. The eclectic interweaving of stylistic features evidenced by Albanian commercial folk music, Anatolian pop, Bosnian sevdah-rock, Bulgarian pop-folk, Greek ethniki mousike, Romanian muzica orientala, Serbian turbo folk, and Turkish arabesk, to name a few, points to an emergent regional popular culture circuit extending from southeastern Europe through Greece and Turkey. While this circuit is predicated upon older cultural confluences from a shared Ottoman heritage, it also has taken shape in active counterpoint with a variety of regional political discourses. Containing eleven ethnographic case studies, *Balkan Popular Culture and the Ottoman Ecumene: Music, Image, and Regional Political Discourse* examines the interplay between the musicians and popular music styles of the Balkan states during the late 1990s. These case studies, each written by an established regional expert, encompass a geographical scope that includes Albania, Bosnia and Herzegovina, Bulgaria, the Republic of Macedonia, Croatia, Slovenia, Romania, Greece, Turkey, Serbia, and Montenegro. The book is accompanied by a VCD that contains a photo gallery, sound files, and music video excerpts.

The 1720 Imperial Circumcision Celebrations in Istanbul Sinem Erdoğan İşkorkutan, 2020-09-25 The 1720 Imperial Circumcision Celebrations in Istanbul offers the first holistic examination of an Ottoman public festival through an in-depth inquiry into different components of the 1720 event. Through a critical and combined analysis of the hitherto unknown archival sources along with the textual and pictorial narratives on the topic, the book vividly illustrates the festival's organizational details and preparations, its complex rites (related to consumption, exchange, competition), and its representation in court-commissioned illustrated festival books (sūrnāmes). To analyze all these phases in a holistic manner, the book employs an interdisciplinary approach by using the methodological tools of history, art history, and performance studies and thus, provides a new methodological and conceptual framework for the study of Ottoman celebrations.

Women, Gender, and the Palace Households in Ottoman Tunisia Amy Aisen Kallander, 2013-09-15 In this first in-depth study of the ruling family of Tunisia in the eighteenth and nineteenth centuries, Kallander investigates the palace as a site of familial and political significance. Through extensive archival research, she elucidates the domestic economy of the palace as well as the changing relationship between the ruling family of Tunis and the government, thus revealing how the private space of the palace mirrored the public political space. "Instead of viewing the period as merely a precursor to colonial occupation and the nation-state as emphasized in precolonial or nationalist histories, this narrative moves away from

images of stagnation and dependency to insist upon dynamism,” Kallander explains. She delves deep into palace dynamics, comparing them to those of monarchies outside of the Ottoman Empire to find persuasive evidence of a global modernity. She demonstrates how upper-class Muslim women were active political players, exerting their power through displays of wealth such as consumerism and philanthropy. Ultimately, she creates a rich view of the Husaynid dynastic culture that will surprise many, and stimulate debate and further research among scholars of Ottoman Tunisia.

French Revolutionaries in the Ottoman Empire Pascal Firges, 2017 The effects of the French Revolution reached far beyond the confines of France itself. The Ottoman Empire, ancient ally and major trading partner of France, was not immune from the repercussions of the 'Age of Revolutions', especially since it was home to permanent French communities with a certain legal autonomy. *French Revolutionaries in the Ottoman Empire* examines, for the first time, the political and cultural impact of the French Revolution on Franco-Ottoman relations, as well as on the French communities of the Ottoman Empire. The modern interpretation of revolutionary ideological expansionism is strongly influenced by the famous propaganda decree of 19 November 1792 which promised 'fraternity and help to all peoples who wish to recover their liberty', as well as the well-studied efforts to export the Revolution into the territories conquered by the revolutionary armies and to the various Sister Republics. Against all expectations, however, French revolutionaries in the Ottoman Empire exhibited neither a 'crusading mentality' nor a heightened readiness to use force in order to achieve ideological goals. Instead, as this volume shows, in matters of diplomacy as well as in the administration of French expatriate communities, revolutionary policies were applied in an extremely circumspect fashion. The focus on the effects of the French regime change outside of France offers valuable new insights into the revolutionary process itself, which will revise common assumptions about French revolutionary diplomacy. In addition, Pascal Firges takes a close look at the establishment of the new political culture of the French Revolution within the transcultural context of the French expatriate communities of the Ottoman Empire, which serves as a thought-provoking point of comparison for the emergence and development of French revolutionary political culture.

Power and Architecture Michael Minkenberg, 2014-06-01 Capital cities have been the seat of political power and central stage for their state's political conflicts and rituals throughout the ages. In the modern era, they provide symbols for and confer meaning to the state, thereby contributing to the "invention" of the nation. Capitals capture the imagination of natives, visitors and outsiders alike, yet also express the outcomes of power struggles within the political systems in which they operate. This volume addresses the reciprocal relationships between identity, regime formation, urban planning, and public architecture in the Western world. It examines the role of urban design and architecture in expressing (or hiding) ideological beliefs and political agenda. Case studies include "old" capitals such as Rome, Vienna, Berlin and Warsaw; "new" ones such as Washington DC, Ottawa, Canberra, Ankara, Bonn, and Brasília; and the "European" capital Brussels. Each case reflects the authors' different disciplinary backgrounds in architecture, history, political science, and urban studies, demonstrating the value of an interdisciplinary approach to studying cities.

Historical Dictionary of Armenia Rouben Paul Adalian, 2010-05-13 There are two Armenias: the current Republic of Armenia and historic Armenia. The modern state dates from the early 20th century. Historic Armenia was part of the ancient world and expired in the Middle Ages. Its people, however, survived, and from its residue recreated a new country. The history of the Armenians is the story of how an ancient people endured into modern times and how its culture evolved from one conceived under the influence of Mesopotamia to one redefined by the civilization of Europe. The second edition of the Historical Dictionary of Armenia relates the turbulent past of this persistent country through a chronology, an introductory essay, a bibliography, and over 200 cross-referenced dictionary entries on significant persons, events, places, organizations, and other aspects of Armenian history from the earliest times to the present.

More Argentine Than You Steven Hyland, 2017-11 Hyland shows how Syrians and Lebanese, Christians, Jews, and Muslims adapted to local social and political conditions, entered labor markets, established community institutions, raised families, and attempted to pursue their individual dreams and community goals in early twentieth century Argentina.

Culture and Diplomacy Reinhard Eisendle, Suna Suner, Hans Ernst Weidinger, 2023-12-22 Diplomats had multiple tasks: not only negotiating with the representatives of other states, but also mediating culture and knowledge, and not least elaborating reports on their observations of politics, society, and culture. Culture, according to the studies featured in this book, is defined as a complex sphere including aspects like systems of communication, literature, music, arts, education, and the creation of knowledge. This edition containing contributions from six conferences held in Vienna and Istanbul by the Don Juan Archiv Wien focuses on the complex diplomatic and cultural relations between the Ottoman Empire and Europe from the time of the early embassies to Istanbul up to Tanzimat.

Music in the American Diasporic Wedding Inna Naroditskaya, 2019-05-23 With real-life stories, this collection “focuses on the role of music in the often-delicate negotiations surrounding weddings in immigrant communities” (Ellen Koskoff, author of *A Feminist Ethnomusicology*). *Music in the American Diasporic Wedding* explores the complex cultural adaptations, preservations, and fusions that occur in weddings between couples and families of diverse origins. Discussing weddings as a site of negotiations between generations, traditions, and religions, the essays gathered here argue that music is the mediating force between the young and the old, ritual and entertainment, and immigrant lore and assimilation. The contributors examine such colorful integrations as klezmer-tinged Mandarin tunes at a Jewish and Taiwanese American wedding, a wedding services industry in Chicago’s South Asian community featuring a diversity of wedding music options, and Puerto Rican cultural activists dancing down the aisles of New York’s St. Cecilia’s church to the thunder of drums and maracas and rapping their marriage vows. These essays show us what wedding music and performance tell us about complex multiethnic diasporic identities, and remind us that how we listen to and celebrate otherness defines who we are.

Cooking through History Melanie Byrd, John P. Dunn, 2020-12-02 From the prehistoric era to the present, food culture has helped to define civilizations. This reference surveys food culture and cooking from antiquity to the modern era,

providing background information along with menus and recipes. Food culture has been central to world civilizations since prehistory. While early societies were limited in terms of their resources and cooking technology, methods of food preparation have flourished throughout history, with food central to social gatherings, celebrations, religious functions, and other aspects of daily life. This book surveys the history of cooking from the ancient world through the modern era. The first volume looks at the history of cooking from antiquity through the Early Modern era, while the second focuses on the modern world. Each volume includes a chronology, historical introduction, and topical chapters on foodstuffs, food preparation, eating habits, and other subjects. Sections on particular civilizations follow, with each section offering a historical overview, recipes, menus, primary source documents, and suggestions for further reading. The work closes with a selected, general bibliography of resources suitable for student research.

Jewish Consumer Cultures in Nineteenth and Twentieth-Century Europe and North America Paul Lerner,Uwe Spiekermann,Anne Schenderlein,2022-01-22 This book investigates the place and meaning of consumption in Jewish lives and the roles Jews played in different consumer cultures in modern Europe and North America. Drawing on innovative, original research into this new and challenging field, the volume brings Jewish studies and the history and theory of consumer culture into dialogue with each other. Its chapters explore Jewish businesspeople's development of niche commercial practices in several transnational contexts; the imagining, marketing, and realization of a Jewish national homeland in Palestine through consumer goods and strategies; associations between Jews, luxury, and gender in multiple contexts; and the political dimensions of consumer choice. Together the essays in this volume show how the study of consumption enriches our understanding of modern Jewish history and how a focus on consumer goods and practices illuminates the study of Jewish religious observance, ethnic identities, gender formations, and immigrant trajectories across the globe.

The Last of an Age Sooyong Kim,2017-12-01 In *The Last of an Age*, Sooyong Kim explores the relationship between social change and the development of an Ottoman literary canon in the course of the sixteenth century by examining the work and reception of a popular poet, Zati (1471-1546). Kim argues that a newly emergent group of bureaucratic literati, through the production of authoritative biographical dictionaries, ultimately relegated Zati to a lesser literary age, driven by a self-fashioning that privileged broad linguistic ability, above all else, with poetry serving as the main vehicle for demonstrating that. This study is interdisciplinary in approach, taking insights from literary studies, cultural history, and social theory. It adds to the scholarship on the rise of early modern Ottoman canons in the fields of visual arts and music and

complements recent work on court patronage. Framed by ongoing critiques of canon formation among specialists of early modern Europe and late imperial China, the study offers a comparative perspective on those issues.
