*The Drama of Celebrity* Sharon Marcus, 2020-08-11 Why do so many people care so much about celebrities? Who decides who gets to be a star? What are the privileges and pleasures of fandom? Do celebrities ever deserve the outsized attention they receive? In this fascinating and deeply researched book, Sharon Marcus challenges everything you thought you knew about our obsession with fame. Icons are not merely famous for being famous; the media alone cannot make or break stars; fans are not simply passive dupes. Instead, journalists, the public, and celebrities themselves all compete, passionately and expertly, to shape the stories we tell about celebrities and fans. The result: a high-stakes drama as endless as it is unpredictable. Drawing on scrapbooks, personal diaries, and vintage fan mail, Marcus traces celebrity culture back to its nineteenth-century roots, when people the world over found themselves captivated by celebrity chefs, bad-boy poets, and actors such as the divine Sarah Bernhardt (1844-1923), as famous in her day as the Beatles in theirs. Known in her youth for sleeping in a coffin, hailed in maturity as a woman of genius, Bernhardt became a global superstar thanks to savvy engagement with her era's most innovative media and technologies: the popular press, commercial photography, and speedy new forms of travel. Whether you love celebrity culture or hate it, *The Drama of Celebrity* will change how you think about one of the most important phenomena of modern times.

*A Cartography of Resistance* Keith Grint, 2024-07-30 Resistance is universal, but why does it occur, and fail or succeed? Resistance is often regarded in traditional management books as a problem to be overcome because it is seen as short-sighted or self-interested. Grint suggests, however, that resistance is not necessarily right or wrong. From resistance to the Roman Empire, to slavery, to the Nazis, to racism, to the state and capital, to patriarchy, and to imperialism, this book ranges across time and place to explain the success or failure of resistance. While many contemporary approaches focus on leadership as the explanatory variable, *A Cartography of Resistance* expands the approach to include management and command of resistance movements - and of their opponents. Many of the case studies explore the failures, as well as the successes, of resistance and the book suggests that even the failures reveal a fundamental truth about the human condition: just because the situation looks bleak for those suffering from oppression does not mean they surrendered meekly. Rather many seemed to adopt the same attitude that led Sisyphus to keep rolling the boulder up the hill: they were determined not to let their situation define or defeat them.

*More Than a Game* David K. Wiggins, 2018-10-01 *More than a Game* discusses how African American men and women sought to participate in sport and what that participation meant to them, the African American community, and the United States more generally. Recognizing the complicated history of race in America and how sport can both divide and bring people together, the book chronicles the ways in which African Americans overcame racial discrimination to achieve success in an institution often described as America's only true meritocracy. African Americans have often glorified sport, viewing it as one of the few ways they can achieve a better life. In reality, while some African Americans found fame and fortune in sport, most struggled just to participate – let alone succeed at the highest levels of sport. Thus, the book has two basic themes. It discusses the varied experiences of African Americans in sport and how their participation has both reflected and changed views of race.

**Grandparents in a Digital Age** Laura Tropp, 2018-11-23 This book investigates the changing culture of grandparenting. Depending on the group, the period, and the family, grandparents have been powerful patriarchs and matriarchs, reliable second parents, dependents, burdens, or community figures. The book examines the history of grandparenting and the changing depiction of grandparent culture from “old” to “hip,” including the development of the celebrity grandparent, the emergence of media technologies that allow for new communication and relationships between grandparents and their grandchildren, new rituals associated with grandparenting, the growth of the marketing of grandparenting as a new stage of life, and the impact on our culture of the commodification of grandparenting. Prior to the twentieth century, within the United States the idea of the modern grandparent likely did not even exist. Many people did not live long enough to reach the grandparent stage of life. Today, people are living longer, and grandparenting is occupying a longer phase in one's life. Grandparenting is becoming its own life stage, where new rituals exclusive to grandparents are emerging. Newer technologies, such as Skype, Google Hangout and FaceTime, allow grandparents who are far away to establish relationships with their children. Many grandparents also use social media and blogs to chronicle their experiences. Some grandparents have turned their grandparent lifestyle into a business. The representation of grandparenting in popular culture is shifting as well. Grandparents are becoming their own figures on television and film programs, including reality shows. Others have been thrust into the public eye across social media. Marketers have realized the power of this new consumer subgroup and have begun to direct marketing campaigns to grandparents. Yet, despite the pervasive images of grandparents, some of which present empowered figures, grandparent representation in popular media continues to mimic many of the stereotypes commonly associated with aging, encouraging people to laugh at versus laugh with these figures. *The Third Act: Grandparenting in a Digital Age* examines grandparenting through history, interviews, and popular culture to study the changing image of grandparents in society.

**Floodlights and Touchlines: A History of Spectator Sport** Rob Steen, 2014-06-26 Shortlisted for the William Hill

Sports Book of the Year Award 2014 Spectator sport is living, breathing, non-stop theatre for all. Focusing on spectator sports and their accompanying issues, tracing their origins, evolution and impact, inside the lines and beyond the boundary, this book offers a thematic history of professional sport and the ingredients that magnetise millions around the globe. It tells the stories that matter: from the gladiators of Rome to the runners of Rift Valley via the innovator-missionaries of Rugby School; from multi-faceted British exports to the Americanisation of professionalism and the Indianisation of cricket. Rob Steen traces the development of these sports which captivate the turnstile millions and the mouse-clicking masses, addressing their key themes and commonalities, from creation myths to match fixing via race, politics, sexuality and internationalism. Insightful and revelatory, this is an entertaining exploration of spectator sports' intrinsic place in culture and how sport imitates life – and life imitates sport.

Feminism, Tradition and Change in Contemporary Islam Shehnaz Haqqani, 2024-10-17 The Islamic tradition has always been flexible, changing over time and constantly adapting to the different societies Muslims find themselves in. Few Muslims today would abide by the fatwa against the printing press under the Ottomans. Moreover, although Islamic law legislates for slavery and child marriage, only a vanishing minority of Muslims consider these practices acceptable today – and some will even argue that Islam never permitted them. Yet some issues, like the prohibition on female-led prayer and female interfaith marriage seem curiously impervious to change. Why is that? Through a mixture of interviews with ordinary Muslims in Texas and critical analysis of contemporary and historical scholarship, Shehnaz Haqqani demonstrates the gendered dimensions of change and negotiation in Islamic tradition. She argues that a reliance on a mostly-male scholarly consensus means that the 'tradition' preserves male privilege at the expense of justice for Muslim women.

**Compliance, Defiance, and 'Dirty' Luxury** Tereza Østbø Kuldova, Jardar Østbø, Cris Shore, 2024-07-31 This book interrogates the transnational field of (anti-)corruption and elite crime. Using the lens of luxury, art, and antiquities, the contributors reconceptualize the driving dialectics of corruption and anti-corruption. Compliance, Defiance and 'Dirty' Luxury brings together scholars across criminology, anthropology, sociology, and the humanities to tackle these dialectics from different angles and positions, digging deeper into these corrupt zigzags of compliance and defiance. This approach reveals a self-reinforcing, accelerating, neoliberal perpetuum mobile churning out a frenzy of public-private crime-fighting initiatives that stimulate the expansion of various control and surveillance architectures which time and again fail. This volume opens new theoretical and empirical paths of investigation for criminologists and anthropologists alike. While the book speaks primarily to academic audiences and graduate students, it also appeals to a broad range of professionals. Tereza Østbø Kuldova is Research Professor and a social anthropologist based at the Work Research Institute, Oslo Metropolitan University, Norway. Jardar Østbø is Professor and Head of Programme for Russian Security and Defence Policy at the Institute for Defence Studies, Norwegian Defence University College. Cris Shore is emeritus Professor of Anthropology at

Goldsmiths University of London, UK, and currently Senior Research Fellow at the Institute for Advanced Study, Central European University, Hungary.

*Lights, Camera, Feminism?* Prof. Samantha Majic, 2023-05-16 Celebrities in the United States have drawn significant attention and resources to the complex issue of human trafficking—a subject of feminist concern—and they are often criticized for promoting sensationalized and simplistic understandings of the issue. In this comprehensive analysis of celebrities' anti-trafficking activism, however, Samantha Majic finds that this phenomenon is more nuanced: even as some celebrities promote regressive issue narratives and carceral solutions, others use their platforms to elevate more diverse representations of human trafficking and feminist analyses of gender inequality. *Lights, Camera, Feminism?* thus argues that we should understand celebrities as multilevel political actors whose activism is shaped and mediated by a range of personal and contextual factors, with implications for feminist and democratic politics more broadly.
