**Bye-Bye Boobies** Joyce Van Dyk,2024-01-31 On that crisp October morning, as I stood on the deck of my home, gazing out at the serene lake, I heard a voice within me that would forever change my life. The words were simple yet profound, “Your results are positive, but don’t worry.” At that moment, I knew that the breast biopsy I had recently undergone would confirm what I already suspected - that I was embarking on my own journey of grief and healing. My life has been shaped by experiences of grief and loss, including the loss of my brother during high school, my mother shortly after college, and my father in my early 30s. As a former pastor and hospital chaplain, I had also helped countless others navigate this path, but now it was my turn to face it head-on. In Bye, Bye, Boobies, I share the story of my breast cancer journey— from mourning and grief to joy and celebration. This memoir offers a gift and guide to others whose lives are being invaded by breast cancer. It’s also a resource for those who will have to make a decision to say goodbye to parts of a body that have served them well. From throwing my own “Bye-Bye Boobies” party to discovering other creative and empowering ways to navigate cancer and grief, I hope this book provides useful tools, much-needed humor, and soulful guidance to help you on your own journey.

Supporting the Transition from Breastfeeding Emma Pickett,2024-02-21 This comprehensive and accessible guide provides birth workers and lactation professionals with the skills to help families navigate the emotional and physical challenges of weaning. Using a compassionate, person-centred approach that prioritises the needs of both mother and child, this pioneering resource details the emotional impact of weaning and offers practical guidance and expert advice suitable for

professionals and parents alike in order to facilitate complex decision-making processes and set healthy boundaries. Enriched with the voices of parents talking about their individual weaning experiences, this is a much-needed, empathetic approach to the complex journey of weaning.

**Dangerous Boobies** Caitlin Brodnick, 2017-09-12 After watching too many family members die of cancer, at age 28, public speaker and comedian Caitlin Brodnick was tested for the BRCA1 gene mutation and tested positive, indicating an 87% chance she'd likely be diagnosed with breast cancer in her lifetime. She had a preventative double mastectomy, thereby becoming an everywoman's Angelina Jolie. *Dangerous Boobies: Breaking Up with My Time-Bomb Breasts* goes in depth into her experience from testing to surgery and on to recovery. With a warm, funny, and approachable voice, Caitlin tells readers the full story, even sharing what it was like to go from a size 32G bra -- giant, for a woman who is barely over five feet tall! -- to a 32C. Engaging and open, she admits to having hated her breasts long before her surgery, and enjoying the process of designing her new breasts, from the shape of the breasts to the size and color of the nipples. While Caitlin's primary narrative explores the BRCA gene and breast cancer, her story is also one about body acceptance and what it takes to be confident with and in charge of one's body. Her speaking engagements and comedy routines have shown that the wider topic of breasts, breast size, and personal identity is resonating with younger readers.
