Hidrología de Colombia Germán Poveda Jaramillo,Óscar José Mesa Sánchez,Jaime Ignacio Vélez Upegui,2024-04-15 Con el propósito de aportar al conocimiento y la investigación en este campo, este libro avanza en el estudio, entendimiento y cuantificación de los principales aspectos de la hidrología de Colombia, fuertemente entrelazada con su climatología, su ecología y su biogeoquímica, y con diversos mecanismos dinámicos y termodinámicos de la circulación atmosférica y oceánica. Entre otros aspectos, se hace una revisión de los contextos global y continental que enmarcan la hidrología del país; se discuten ideas relevantes del sistema climático del planeta; se estudian los principales mecanismos de forzamiento hidroclicmático; se cuantifica el balance hídrico superficial de largo plazo de la red hidrográfica y se estudian sus regímenes hidrológicos extremos; se examina la asociación existente entre diversos fenómenos macroclimáticos y el ciclo anual de lluvias, caudales, evapotranspiración, humedad del suelo y actividad de la vegetación; y se presentan evidencias recientes sobre los impactos del cambio climático y del cambio ambiental en Colombia. Este trabajo constituye un aporte significativo para entender los procesos y los mecanismos biogeofísicos que controlan la variabilidad de la hidrología y la climatología de Colombia y sus regiones, en gran rango de escalas de espacio y tiempo.

La línea del horizonte Baltasar Garzón,2016-12-15 La línea del horizonte recoge la visión de Baltasar Garzón sobre los problemas del mundo actual. ¿ Qué es la justicia universal y cómo surgió ? ¿ Cómo se pueden defender los derechos humanos y el respecto a las víctimas en las frágiles transiciones a la democracia ? ¿ Qué futuro le espera a América Latina ? Entre 2005 y 2006, Baltasar Garzón disfrutó de una excedencia que pasó como profesor de la Universidad de Nueva York. Fue un período dedicado a la reflexión sobre estas y otras grandes preguntas del mundo actual, en parte a través de un ciclo de debates en que participaron personalidades de todo el mundo, desde Kissinger y Ernesto Zedillo hasta Felipe González, John Kerry, Antonio Muñoz Molina, Rosa Díez, José Saramago o el presidente Zapatero. Así es esta obra, un diálogo a muchas

voces, trufado de recuerdos y anécdotas personales, en la que el juez Garzón pasa revista a los temas más cruciales: los derechos humanos, el terrorismo, la seguridad, el futuro de la comunicación, la economía, América Latina... Un repaso completo y apasionante de la mano de uno de los actores más interesantes de este mundo globalizado.

El final del silencio Marina Franco, 2022-05-30 Los rostros hundidos de los soldados regresando de la guerra de Malvinas, las Madres de Plaza de Mayo dando vueltas a la pirámide con sus pancartas en alto y Raúl Alfonsín hablándoles a las multitudes que colmaban las calles son las imágenes que condensan nuestras memorias y saberes sobre la última transición a la democracia. Sin embargo, esas imágenes configuran un relato memorial que supone una selección de hechos, representaciones y actores en detrimento de otros elementos olvidados, matizados o silenciados. ¿En qué momento los derechos humanos y el reclamo por los desaparecidos y la represión comenzaron a ser nodales en el discurso público y dominante? ¿Cómo fue que amplios sectores sociales pasaron de sentirse amenazados por aquel enemigo identificado como subversivo y exigir que el Estado se abatiera sobre él con todo su peso a condenar esa misma represión? ¿Qué sucedió en el último tramo de la dictadura para llegar al Nunca más y los juicios a las juntas militares en 1985? Investigación exhaustiva e inteligente, *El final del silencio* ilumina el último período de la dictadura con el foco puesto en el problema de la represión estatal con el objeto de alumbrar un entramado de época complejo y diverso, que va más allá de las figuras cristalizadas en la memoria. En tal sentido, Marina Franco sostiene: Este libro contribuye además a mostrar que la justicia y la memoria como actos reparatorios esenciales de reconstrucción del lazo social posdictatorial han sido luchas de muy largo plazo y no estarán nunca saldadas por completo. Esa reconstrucción también exige que los muertos del pasado nos ayuden a velar contra las violencias estatales del presente.

Dictadura y universidad Samanta Casareto, Graciela Daleo, 2021-11-01 Esta investigación estudia los mecanismos de represión sobre la Universidad durante la última dictadura cívico-militar, y estudia específicamente el modo en que la práctica represiva se manifestó en la Facultad de Filosofía y Letras entre 1976 y 1983, desde una perspectiva amplia del sistema educativo universitario. El libro se compone de una primera parte que presenta un recorrido por las políticas educativas universitarias del régimen dictatorial a partir de las diferentes gestiones en el Ministerio de Cultura y Educación de la Nación y del análisis de reglamentaciones y normativas establecidas a nivel estructural, y cómo estas se hicieron manifiestas en la Universidad de Buenos Aires. La segunda parte reúne un conjunto de artículos que sitúan las prácticas del terrorismo de Estado en el espacio de la Facultad de Filosofía y Letras.

Revisiting the Mexican Student Movement of 1968 Juan J. Rojo, 2016-04-21 Tracing the evolution of Mexican literary and cultural production following the Tlatelolco massacre, this book shows its progression from a homogeneous construct set on establishing the “true” history of Tlatelolco against the version of the State, to a more nuanced and complex series of historical narratives. The initial representations of the events of 1968 were essentially limited to that of the State and that of

the Consejo Nacional de Huelga (National Strike Council) and only later incorporated novels and films. Juan J. Rojo examines the manner in which films, posters, testimonios, and the Memorial del 68 expanded the boundaries of those initial articulations to a more democratic representation of key participants in the student movement of 1968.

The Argentinian Dictatorship and its Legacy Juan Grigera, Luciana Zorzoli, 2019-06-01 This edited volume provides a comprehensive overview of the renewal of academic engagement in the Argentinian dictatorship in the context of the post-2001 crisis. Significant social and judicial changes and the opening of archives have led to major revisions of the research dedicated to this period. As such, the contributors offer a unique presentation to an English-speaking audience, mapping and critiquing these developments and widening the recent debates in Argentina about the legacy of the dictatorship in this long-term perspective.

Decir desaparecido(s) II Albrecht Buschmann, Luz C. Souto, 2021 Decir desaparecido(s) II □ Análisis transculturales de la desaparición forzada indaga en los diversos géneros literarios que representan la desaparición forzada de personas. El libro analiza, a partir de un estudio introductorio y de 18 capítulos, la traslación del concepto desaparecidos desde Argentina a otros territorios afectados por la violencia. Lo hace profundizando en cinco nudos de conflicto que tienen como arterias principales las formas de la desaparición (muerte, apropiación de niños, exilio) y de la aparición (recuperación de restos, fantasmas, propuesta artísticas); los agentes (perpetradores, delatores) y los territorios. A diferencia del volumen anterior, que abordaba la comparación entre España y Argentina, en este se extiende la investigación a la respuesta literaria de países como Chile, Uruguay, Colombia, El Salvador o México.

Comercio exterior en Colombia: política, instituciones, costos y resultados García-García, Jorge, López-Valenzuela, David Camilo, Montes-Uribe, Enrique, Esguerra-Umaña, María del Pilar, Echavarría-Soto, Juan José, Giraldo-Salazar, Iader, Jaramillo-Mejía, Fernando, Collazos-Gaitán, María Mercedes, 2019-10-07 Este libro presenta los resultados de un esfuerzo conjunto del Banco de la República, la Universidad del Rosario y del Banco de Desarrollo de América Latina (CAF). Busca reflexionar sobre los obstáculos al crecimiento del comercio exterior de bienes y a la diversificación de las exportaciones colombianas de bienes distintos al café y los mineroenergéticos. Dos indicadores revelan el pobre desempeño del comercio exterior colombiano: el valor exportado e importado de bienes y servicios ha permanecido relativamente estable alrededor del 35% del producto interno bruto (PIB) y la canasta exportadora consiste principalmente en bienes tradicionales, inicialmente el café, y en los últimos veinte años los bienes mineroenergéticos. Si se compara el desempeño exportador de Colombia con el de países como Corea del Sur y Chile, resulta todavía más evidente el pobre desempeño del país en materia de exportaciones agrícolas e industriales, lo que obliga a preguntar cuáles son las razones de ese resultado.

Cincuenta años de educación en Argentina Norberto Fernández Lamarra, Lucila Arrigazzi Jallade, Marisa Álvarez, 2025-05-02 En 1968 se publicó el estudio Educación, recursos humanos y desarrollo económico-social, elaborado por el Sector Educación del Consejo Nacional de Desarrollo, bajo la dirección de Norberto Fernández Lamarra. Se trató de la primera investigación realizada en Argentina sobre el sistema educativo y sentó las bases para el planeamiento de la educación nacional. Cincuenta años de educación en Argentina es un proyecto surgido del trabajo con colegas del NIFEDE y de la UNTREF, con el invalorable aporte de Lucila Arrigazzi Jallade y Marisa Álvarez, el compromiso de los demás autores y la revisión crítica de Cristian Pérez Centeno y Pablo García (UNTREF). El libro tiene como referencia el estudio del CONADE en cuanto al vínculo entre la producción de conocimiento, la utilización de múltiples fuentes y la formulación de políticas a través de procesos sistemáticos. Las dificultades creadas por la pandemia de COVID 19 han demorado la publicación, pero igualmente consideramos que será un aporte significativo para pensar, investigar, debatir, diseñar, planificar y evaluar políticas y estrategias para el futuro de nuestra educación.

Profeta del genocidio Ariel Lede, Lucas Bilbao, 2016-03-01 Prólogo de Horacio Verbitsky. Primer análisis sobre el Vicariato castrense y los capellanes en la Argentina a partir de los diarios personales (1975-1976) de Victorio Bonamín, obispo de las Fuerzas Armadas al comienzo de la dictadura. Testimonio de la participación de parte de la Iglesia católica en el terrorismo de Estado. Las Fuerzas Armadas que en 1976 derrocaron a un gobierno electo para instituir una dictadura sanguinaria recibieron durante las dos décadas previas una formación intensiva en contrainsurgencia y guerra contrarrevolucionaria, con decisiva influencia de la Iglesia Católica Apostólica Romana, a través de su Vicariato castrense. La única figura que atravesó ese período con participación determinante fue el protagonista de este libro, Victorio Bonamín... Del prólogo de HORACIO VERBITSKY Los diarios que llevó Bonamín durante 1975 y 1976 reúnen la doble condición de fuente historiográfica insustituible y aporte de peso a las causas contra los crímenes de lesa humanidad perpetrados por la dictadura militar. Al mismo tiempo son un testimonio en primera persona por el que desfilan, junto a nimiedades cotidianas, secuestros, asesinatos, torturas. A cuarenta años del golpe del 24 de marzo de 1976, dos jóvenes investigadores presentan el primer estudio sistemático acerca del Vicariato castrense. Lucas Bilbao y Ariel Lede Mendoza corren el velo sobre la presencia de los capellanes en los centros clandestinos de detención, y explican su rol en la legitimación religiosa de la tortura como método y en el consuelo moral a los problemas de conciencia de los represores.

Quinientos años de La Habana (1519-2019) Josef Opatrný, Simona Binková, 2020-08-01 Havana is a city that has been

important for the entire Atlantic world since the early 16th century. During the colonial period, it was an American terminal on the „route” connecting the Old and New worlds. In the 19th century it became one of the most important centers of the global sugar trade, while in the latter part of the 20th century, Fidel Castro wanted to make Havana a stronghold of the world revolution. Havana was not only a political and economic base, but also a city with flourishing culture. This book was been published on the occasion of the 500 year anniversary of the foundation of the first settlement, offering diverse views of the history of the city. The contributions were written by experts from American and European countries, including Allan Kuethe, José Antonio Piqueras, Françoise Moulin Civil and Miguel Ángel Puig-Samper.

Esfera civil y semántica de la disputa política Nelson Arteaga Botello, 2024-12-02 *Esfera civil y semántica de la disputa política* analiza las estructuras de significado de la política en México en las últimas décadas. Se estudia cómo se enlazan de manera tensa los códigos simbólicos del populismo, el patrimonialismo y la democracia. A partir de la observación de momentos específicos de la vida reciente del país, se da cuenta de la expansión y contracción de las instituciones comunicativas y regulativas de la esfera civil mexicana. Esto permite conocer la competencia de distintos horizontes de legitimidad que apuestan por formas ampliadas o restringidas de inclusión y solidaridad social. Se trata de una propuesta teórica y metodológica para examinar casos similares en la dinámica latinoamericana.
