Classicism and Romanticism in Italian Literature Fabio A Camilletti, 2015-10-06 In 1816 a violent literary quarrel engulfed Bourbon Restoration Italy. On one side the Romantics wanted an opening up of Italian culture towards Europe, and on the other the Classicists favoured an inward-looking Italy. Giacomo Leopardi wrote a Discourse of an Italian on Romantic Poetry aiming to contribute to the debate from a new perspective.

Twentieth-Century Poetic Translation Daniela Caselli, Daniela La Penna, 2008-05-01 Twentieth Century Poetic Translation analyses translations of Italian and English poetry and their roles in shaping national identities by merging historical, cultural and theoretical perspectives. Focusing on specific case studies within the Italian, English and North American literary communities, spanning from 'authoritative' translations of poets by poets to the role of dialect poetry and anthologies of poetry, the book looks at the role of translation in the development of poetic languages and in the construction of poetic canons. It brings together leading scholars in the history of the Italian language, literary historians and translators, specialists in theory of translation and history of publishing to explore the cultural dynamics between poetic traditions in Italian and English in the twentieth century.

Leopardi's Nymphs Fabio A. Camilletti, 2017-12-02 How can one make poetry in a disenchanted age? For Giacomo Leopardi (1798-1837) this was the modern subject's most insolvable deadlock, after the Enlightenment's pitiless unveiling of truth. Still, in the poems written in 1828-29 between Pisa and the Marches, Leopardi manages to turn disillusion into a powerful source of inspiration, through an unprecedented balance between poetic lightness and philosophical density. The addressees of these cantos are two prematurely dead maidens bearing names of nymphs, and thus obliquely metamorphosed into the charmingly disquieting deities that in Greek lore brought knowledge and poetic speech through possession. The nymph, Camilletti argues, can be seen as the inspirational power allowing the utterance of a new kind of poetry, bridging antiquity and modernity, illusion and disenchantment, life and death. By reading Leopardi's poems in the light of Freudian psychoanalysis and of Aby Warburg's and Walter Benjamin's thought, Camilletti gives a groundbreaking interpretation of the way Leopardi negotiates the original fracture between poetry and philosophy that characterises Western culture. Fabio Camilletti is Assistant Professor in Italian at the University of Warwick.

Instaurations D. S. Carne-Ross, 2023-11-10 This book presents a sequence of six related studies of poets from classical antiquity to the present (Pindar and Sophocles at one end, Pound at the other, with Dante somewhere in the middle). This group of literary essays is framed by two more general papers showing how the texts can reach out into our society and into the lives we lead there--and can question the lives we lead. The opening paper argues for a way of reading (as rigorous as those honored in the academy but directed to different ends) that would restore to literature its old didactic function, and the final paper searches for a place where such a reading might be possible--a way of reading that would also be a way of living. Literature matters, more than it ever has before, because it is the strongest remaining witness to much that mankind has always known but is now in danger of losing. It can tell us things about human being and about nature and about the gods that we have forgotten. But it can do so only if we read very hard, hence the body of this book consists of close textual studies of poets old and new that will be of value even to those who are disturbed by the author's views on the role of literature today. The word instauratio means renewal and is also intended to point to a conception of poetry as celebration. Beyond that, it means a founding, the sense Bacon had in mind when he called his program for the advancement of natural science *Instauratio magna*. Three and half centuries later, we may be coming to the end of the great movement at whose beginnings Bacon stood. If so, the question that faces us all is, What comes next, what new founding is possible? This book looks forward to another instauratio: One to which poetic thinking will have more contribute. The Poem Itself Stanley Burnshaw, 2015-09-24 Available again for a new generation, this classic work contains over 150 of the greatest modern French, Spanish, German, Italian, Portuguese, and Russian poems presented in the original languages and brilliantly illuminated by English commentaries.

Canti Giacomo Leopardi, 2010-10-26 Giacomo Leopardi is Italy's greatest modern poet, the first European writer to portray and examine the self in a way that feels familiar to us today. A great classical scholar and patriot, he explored metaphysical loneliness in entirely original ways. Though he died young, his influence was enormous, and it is no exaggeration to say that all modern poetry, not only in Italian, derives in some way from his work. Galassi, whose translations of Eugenio Montale have been widely acclaimed, has produced a strong, fresh, direct version of this great poet that offers English-language readers a new approach to Leopardi.

Tentacles Martha Kinross, 1926 After the mysterious disappearance of their parents, Marty and Grace go to live with their scientist uncle and accompany him on what soon becomes an increasingly dangerous expedition to New Zealand to track a giant squid.

A Grammar of Cinepoiesis Silvia Carlorosi, 2015-09-17 Cinepoiesis, or cinema of poetry, strikes us as a strange combination, a phrase we initially read as an oxymoron. Poetry is often associated with the abstract and the evocative, while cinema suggests the concrete and the visible. Yet, various visual media use strong and often contradictory images, whose symbolic force and visual impact stimulate the public's attention. Abstract and emblematic images surround us, and the poetic nature of these images lies in the way they speak beyond their apparent limits and stimulate connections on a subjective level. A prosaic world like the contemporary one, though, no longer seems to hold a place for poetry. We are inundated by the need to tell and to be told, the need to build our lives through narratives. But it is precisely here, in this contemporary landscape, that the cinema of poetry attempts to establish a space for itself, exchanging the productive and industrial apparatus for the poetic stimulus of a sensory experience. *A Grammar of Cinepoiesis* is a theoretical and practical guide to the cinema of poetry, to its tools and forms. It examines how the language of a "cinema of poetry" works both in its theoretical foundations and in its modes of representation, and how it takes shape in the exemplary practice of Italian authors such as Pier Paolo Pasolini, Michelangelo Antonioni, Federico Fellini, and the more recent Franco Piavoli and Matteo Garrone.

Italian Literature before 1900 in English Translation Robin Healey, 2011-12-15 *Italian Literature before 1900 in English Translation* provides the most complete record possible of texts from the early periods that have been translated into English, and published between 1929 and 2008. It lists works from all genres and subjects, and includes translations wherever they have appeared across the globe. In this annotated bibliography, Robin Healey covers over 5,200 distinct editions of pre-1900 Italian writings. Most entries are accompanied by useful notes providing information on authors, works, translators, and how the translations were received. Among the works by over 1,500 authors represented in this volume are hundreds of editions by Italy's most translated authors – Dante Alighieri, Machiavelli, and Boccaccio – and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with

Healey's Twentieth-Century Italian Literature in English Translation, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature.

Loss and the Other in the Visionary Work of Anna Maria Ortese Vilma DeGasperi, 2014-03 Combines theme and genre analysis in a study of the Italian author, from her first literary writings in the 1930s to her novels in the 1990s.

Embodying Resistance Dianne Marie Zandstra, 2007 This book traces narrative strategies in Griselda Gambaro's novels to the grotesco criollo and to the broader grotesque tradition. These are analyzed with an emphasis on their critique of social relationships within the Argentine political system and male

The Tragic and the Sublime in Medieval Literature Piero Boitani, 1989-08-25 Professor Boitani's latest book explores the areas of the tragic and the sublime in medieval literature. Boitani studies tragic and sublime tensions in stories and scenes recounted by such major poets as Dante, Chaucer and Petrarch, as well as themes shared by writers and philosophers and traditional poetic images.

Encyclopedia of the Romantic Era, 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles, this two-volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century. The Encyclopedia provides readers with a clear, detailed, and accurate reference source on the literature, thought, music, and art of the period, demonstrating the rich interplay of international influences and cross-currents at work; and to explore the many issues raised by the very concepts of Romantic and Romanticism.
