George Washington Carver Gary R. Kremer,2013-05-09 George Washington Carver (1864-1943), best known for his work as a scientist and a botanist, was an anomaly in his own time—a black man praised by white America. This selection of his letters and other writings reveals both the human side of Carver and the forces that shaped his creative genius. They show us a Carver who was both manipulated and manipulative who had inner tensions and anxieties. But perhaps more than anything else, these letters allow us to see Carver's deep love for his fellow man, whether manifested in his efforts to treat polio victims in the 1930s or in his incredibly intense and emotionally charged friendships that lasted a lifetime. The editor has furnished commentary between letters to set them in context.

When Annie finds out that George Washington Carver was responsible for the popularity of peanuts, she picks him for her scientist report. Annie learns all sorts of fascinating info-George Washington Carver was born into slavery, but his dedication and unquenchable thirst for knowledge drove him to become a professor at a time when most institutions of higher learning were closed to blacks. George Washington Carver John Perry, 2011-08-01 Christian Encounters, a series of biographies from Thomas Nelson Publishers, highlights important lives from all ages and areas of the Church. Some are familiar faces. Others are unexpected guests. But all, through their relationships, struggles, prayers, and desires, uniquely illuminate our shared experience. A generation of 20th-century Americans knew him as a gentle, stoop-shouldered old black man who loved plants and discovered more than a hundred uses for the humble peanut. George Washington Carver goes beyond the public image to chronicle the adventures of one of history's most inspiring and remarkable men. George Washington Carver was born a slave. After his mother was kidnapped during the Civil War, his former owners raised him as their own child. He was the first black graduate of Iowa State, and turned down a salary from Thomas Edison higher than the U.S. President to stay at the struggling Tuskegee Institute, where he taught and encouraged poor black students for nearly half a century. Carver was an award-winning painter and acclaimed botanist who saw God the Creator in all of nature. The more he learned about the world, the more convinced he was that everything in it was a gift from the Almighty, that all people were equal in His sight, and that the way to gain respect from his fellow man was not to demand it, but to earn it.

From Captivity to Fame Raleigh Howard Merritt, 1929

And what could they do with all those peanuts? Carver developed more than 300 peanut-based products, from milk to printers' ink, and more than 100 ways to use sweet potatoes.
