LM Reder

tremolo probs with Ampeg Superjet sj 12-T reissue - The Gear Page Jul 17, 2012 · Hi all, I have an Ampeg SJ-12T Reissue. It works awesome, but came to me with a defunct trem circuit. I replaced the caps in the oscillator circuit as well as the PI coupling caps and the caps between the osc and the resistors at the power tubes. Cleaned pots, etc. The tremolo works now but... When did Fender change neck radius and... - The Gear Page These would only be on those "modernized" models with the 12" radius; the reissues of course had the 7.25" radius and vintage frets. My memory could easily be faulty; in all honesty I never cared for the neck shape on the 1983/84 Standards/Elites so I didn't pay that much attention to them back in the day. The Gear Page The Gear Page **Question about setting up monitors with Mackie mixer** We basically just run the vocals through a Mackie Profx12 mixer (we play small bars). Our new keyboardist also runs through the PA. My singer doesn't want the keys in her monitor (yes, we have other issues to work out, but I'll start with this one). We have two floor monitors. We usually daisy chain the two monitors into one input on the board. My question is, separating the ... Mesa 4x12 Stereo Hum - The Gear Page Jul 26, 2015 · the rich kid's solution, get another 4 x 12" . Stereo cabinets were meant to push stereo signals (meaning right and left channels from the same power amp, fed from the same preamp, differing only in stereo effects such as stereo chorus); anything beyond that and specially so different as you want to do, is an invitation to trouble. Floyd Rose Saddle Shim Sets for Specific Radius - The Gear Page Does anyone know anywhere that sells FR shims for a specific fretboard radius? For example, I need to setup a Floyd on a guitar with a 12-16" compound radius. Alternatively, if anyone knows of a chart or resource that indicates what size shim should go under which saddle to match a specific radius, that would be greatly appreciated. Thanks. **Jensen C12N or C12K for Blues deluxe? - The Gear Page** The C12K the is the equivalent to a WGS G12C or Weber Chicago.. So its going to have some bottom end heft.. (although it not a flubby speaker) Tight bottom end, typical American Jensen aggressive mids and a smooth top end.. Bigger frequency range than the C12N (100 watts... wattage wise.. this will have more head room than the C12N) 50oz magnet i.e. pretty efficient.. Do Celestion Neo's suck or am I missing something? I bought 5 of the Celestion Century Vintage 12s about 10 or 12 years ago. I really wanted to like them because of a back injury, but the truth is lightweight was the only pro they had. **Compound radius - how to set the bridge radius - The Gear Page** I just installed a Warmoth 10"-16" compound radius strat neck. Warmoth said to set the neck/saddle radius at 18". A guitar tech told me he would set it at the radius of the 12th fret. Anyone

do this? Any ideas? [Truetone CS12 or Voodoo Labs Pedal Power 3 - The Gear Page](#) Truetone CS-11 over the CS-12. They got rid of the AC outlet and made the 12 and 18 volt outlets switchable to 9 volts. I'm really happy I got one.
