New Makers of Modern Culture Justin Wintle, 2016-04-22 New Makers of Modern Culture is the successor to the classic reference works *Makers of Modern Culture* and *Makers of Nineteenth-Century Culture*, published by Routledge in the early 1980s. The set was extremely successful and continues to be used to this day, due to the high quality of the writing, the distinguished contributors, and the cultural sensitivity shown in the selection of those individuals included. New Makers of Modern Culture takes into full account the rise and fall of reputation and influence over the last twenty-five years and the epochal changes that have occurred: the demise of Marxism and the collapse of the Soviet Union; the rise and fall of postmodernism; the eruption of Islamic fundamentalism; the triumph of the Internet. Containing over eight hundred essay-style entries, and covering the period from 1850 to the present, New Makers of Modern Culture includes artists, writers, dramatists, architects, philosophers, anthropologists, scientists, sociologists, major political figures, composers, film-makers and many other culturally significant individuals and is thoroughly international in its purview. Next to Karl Marx is Bob Marley, next to John Ruskin is Salman Rushdie, alongside Darwin is Luigi Dallapiccola, Deng Xiaoping runs shoulders with Jacques Derrida as do Julia Kristeva and Kropotkin. Once again, Wintle has enlisted the services of many distinguished writers and leading academics, such as Sam Beer, Bernard Crick, Edward Seidensticker and Paul Preston. In a few cases, for example Michael Holroyd and Philip Larkin, contributors are themselves the subject of entries. With its global reach, New Makers of Modern Culture provides a multi-voiced witness of the contemporary thinking world. The entries carry short bibliographies and there is thorough cross-referencing. There is an index of names and key terms.

Mirror of Consciousness Anna J. Bonshek, 2001 *Mirror of Consciousness* ambitiously traverses a wide range of themes

pertaining to art, creativity, knowledge and theory. Its unique perspective lies in its exposition of Vedic Science as brought to light by His Holiness Maharishi Mahesh Yogi and in the application of the principles of this science to preliminary analysis of the Vastusutra Upanishad. No other publication has examined art and theory with the same comprehensive vision. To do justice to the topic of universal value in art and theory, the author has delved into several areas that impact the visual arts--late twentieth-century debates in art theory, models of historiography, new definitions of culture and tradition--in the context of the individual's own consciousness or simplest form of awareness. Though comprehensive and detailed, it will appeal to those who are curious about trends in the visual arts, the advent and impact of new technologies, and the development of collective consciousness in our time.
