*The Sancy Blood Diamond* Susan Ronald, 2008-05-02 The fascinating six-hundred-year history of one of the world's most coveted gems and the royal feuds, intrigues, and betrayals it engendered The Sancy Diamond first came to Europe from India in the fourteenth century, and until 1661 it was the largest white diamond-and the most concentrated and secure form of wealth-in all of Christendom. Alternately believed to impart invincibility to its wearer and to bring ruin to any who owned it, the Sancy cast a seemingly mystical spell over everyone from the king of Portugal to Henry III of France to England's Elizabeth I to Napoleon Bonaparte and Queen Maria Luisa of Spain. The riveting account of one of the most hotly pursued gems in history, The Sancy Blood Diamond follows its six-century journey from the diamond mines of Golconda to where it now modestly resides at the Louvre, among the remnants of the French crown jewels. In a colorful, fast-paced narrative, historian Susan Ronald describes the often violent passions the Sancy engendered among many of the giants of European history. She also describes the pivotal roles it played on the chessboard of European geopolitics, and how it was used to raise armies, settle national debts, and enhance its owners' power and prestige. Working from primary sources, Ronald solves, once and for all, the mystery of the Sancy's disappearances in the sixteenth and seventeenth centuries, and she explores the legend of the Sancy curse, which arose after the violent deaths of Burgundy's Charles the Bold, England's Charles I, France's Louis XVI, and other ill-fated owners.

**Flawless: Inside the Largest Diamond Heist in History** Scott Andrew Selby, Greg Campbell, 2023-07-21 Tells the story with the gripping pace of a true-crime 'Ocean's Eleven.' The New York Post • Like a diamond, this true-life caper is clear, colorful, and brilliant. Publishers Weekly [Starred Review] The Antwerp Diamond Center was one of the most secure buildings in the world. With hundreds of millions of dollars' worth of diamonds stored in its subterranean vault, it had to be.

Located in the heart of Belgium's ultra-secure Antwerp Diamond District, it benefited from two police stations, armed patrols, extensive video surveillance, and vehicle barriers securing an area where 80 percent of the world's diamonds traded hands. But on February 15, 2003, a band of skilled Italian thieves — fronted by the charming Leonardo Notarbartolo, who spent over two years clandestinely casing the building — subverted every one of the Diamond Center's defenses and made off with a record amount of loot. Experts estimate they got away with nearly half a billion dollars in diamonds, cash and other valuables. They'd pulled off the biggest heist in history--everybody loves diamonds and they now had more than any thief before them. The robbers did it with stealth and smarts; no one was hurt or even threatened during what was quickly labeled the largest diamond heist in history. The bandits — members of a group of professional thieves known as The School of Turin — used cunning in lieu of violence, successfully evading security cameras, thwarting an array of electronic sensors, and penetrating a vault protected by a double-locked foot-thick steel door. Even when the police zeroed in on who committed the crime, how it was done remained a mystery, like something out of a heist movie or TV show. *Flawless* is a fast-paced global scavenger hunt uncovering the truth behind the daring Valentine's Day weekend heist. Tracking clues, sources, and documents throughout Europe — from seedy cafés in Turin, Italy to sleek diamond offices in Antwerp, Belgium — authors Scott Selby and Greg Campbell retrace Notarbartolo's careful discovery of the building's security flaws. They recreate the heist and its aftermath — detailing how the thieves brilliantly neutralized each element of the security protecting the Diamond Center's vault while inviting the readers into the secretive world of diamonds and diamond dealing. The result is a thrilling ride through the better-than-fiction heist of the century. Fans of caper books and movies will be in seventh heaven. [Booklist](#) [★Starred Review](#)

Is there anything Daniel Craig can't do? With the release of Sceptre, Craig appeared for the fourth time as James Bond and with the previous instalment, Skyfall, breaking box-office records for the series on the way to becoming the ninth highest grossing film of all time, there is no reason to believe it will be his last. **Hollywood and Africa** Opio Dokotum,2020-02-05 Hollywood and Africa - recycling the Dark Continent myth from 19082020 is a study of over a century of stereotypical Hollywood film productions about Africa. It argues that the myth of the Dark Continent continues to influence Western cultural productions about Africa as a cognitive-based system of knowledge,

especially in history, literature and film. Hollywood and Africa identifies the colonial mastertext of the Dark Continent mythos by providing a historiographic genealogy and context for the terms development and consolidation. An array of literary and paraliterary film adaptation theories are employed to analyse the deep genetic strands of HollywoodAfrica film adaptations. The mutations of the Dark Continent mythos across time and space are then tracked through the classical, neoclassical and new wave HollywoodAfrica phases in order to illustrate how Hollywood productions about Africa recycle, revise, reframe, reinforce, transpose, interrogate and even critique these tropes of Darkest Africa while sustaining the colonial mastertext and rising cyberactivism against Hollywoods whitewashing of African history.

**History and Story in the American Political Thriller Film** Pablo Castrillo Maortua,2023-08-29 In this book, Pablo Castrillo Maortua analyzes the emergence of the political thriller in Hollywood at a time of angst and turmoil in the United States. The Cold War, the nuclear age, domestic and international scandals, and an increasingly deceitful political culture catalyzed a filmmaking current that would gradually develop its own narrative form and aesthetics into a new genre. Castrillo Maortua explores the dramatic identity and design of the American political thriller, tracking the close correlation between the evolution of the genre and the history of the United States from the Cuban Missile Crisis to the 9/11 terrorist attacks and the ensuing War on Terror. Ultimately, the author demonstrates how the American political thriller defies Hollywood conventions and cultural presuppositions with an entertaining yet critical view of the state of politics. Scholars of film studies, screenwriting, and genre theory will find this book of particular interest.

*The History of Mining* Michael Coulson,2012-11-12 THE INDUSTRY THAT FORGED THE MODERN WORLD Throughout history metals and raw materials have underpinned human activity. So it is that the industry responsible for extracting these materials from the ground - mining - has been ever present throughout the history of civilisation, from the ancient world of the Egyptians and Romans, to the industrial revolution and the British Empire, and through to the present day, with mining firms well represented on the world's most important stock indexes including the FTSE100. This book traces the history of mining from those early moments when man first started using tools to the present day where metals continue to underpin economic activity in the post industrial age. In doing so, the history of mining methods, important events, technological developments, the important firms and the sparkling personalities that built the industry are examined in detail. At every stage, as the history of mining is traced from 40,000BC to the present day, the level of detail increases in accordance with the greater social and industrial developments that have played out as time has progressed. This means that a particular focus is given to the period since the industrial revolution and especially the 20th century. A look is also taken into the future in an effort to chart the direction this great industry might take in years to come. Many books have been written about mining; the majority have focused on a particular metal, geographical area, mining event or mining personality, but 'The History of Mining' has a broader scope and covers all of these essential and fascinating areas in one definitive volume.

*From SAS to Blood Diamond Wars* Fred Marafono, Hamish Ross, 2011-07-12 Alcibiades is one of the most famous (or infamous) characters of Classical Greece. A young Athenian aristocrat, he came to prominence during the Peloponnesian War (429-404 BC) between Sparta and Athens. Flamboyant, charismatic (and wealthy), this close associate of Socrates persuaded the Athenians to attempt to stand up to the Spartans on land as part of an alliance he was instrumental in bringing together. Although this led to defeat at the Battle of Mantinea in 418 BC, his prestige remained high. He was also a prime mover in Athens' next big strategic gambit, the Sicilian Expedition of 415 BC, for which he was elected as one of the leaders. Shortly after arrival in Sicily, however, he was recalled to face charges of sacrilege allegedly committed during his pre-expedition reveling. Jumping ship on the return journey, he defected to the Spartans. Alcibiades soon ingratiated himself with the Spartans, encouraging them to aid the Sicilians (ultimately resulting in the utter destruction of the Athenian expedition) and to keep year-round pressure on the Athenians. He then seems to have overstepped the bounds of hospitality by sleeping with the Spartan queen and was soon on the run again. He then played a devious and dangerous game of shifting loyalties between Sparta, Athens and Persia. He had a hand in engineering the overthrow of democracy at Athens in favor of an oligarchy, which allowed him to return from exile, though he then opposed the increasingly-extreme excesses of that regime. For a time he looked to have restored Athens' fortunes in the war, but went into exile again after being held responsible for

the defeat of one of his subordinates in a naval battle. This time he took refuge with the Persians, but as they were now allied to the Spartans, the cuckolded King Agis of Sparta was able to arrange his assassination by Persian agents. There has been no full length biography of this colorful and important character for twenty years. Professor Rhodes brings the authority of an internationally recognized expert in the field, ensuring that this will be a truly significant addition to the literature on Classical Greece.

**Hidden in Contradiction** Jeff McSwain, 2023-09-22 Does God's grace grab you and stir you to purposeful, Spirit-filled living? Or is the gospel that you hear and preach big on belief and short on embodiment? Do you see a need for change, whether personal, ecclesial, or social, that transcends us (righteous) vs. them (wicked) polarizations? Beginning with every person's participation in Christ as a keystone to creation, Jeff McSwain introduces the vibrant reality of Trinitarian community and shows us the dangers of losing sight of the belovedness we share as humans hidden with Christ in God. Avoiding simplistic categories, McSwain exalts the total goodness of every person in this world (by virtue of creation in Christ) while also acknowledging the simultaneous contradiction--the total depravity of every person (by virtue of the fall). If ignoring our human duplicity contributes to relational fractures at every level, McSwain's dimensional view of human agency urges us to embrace the redemptive truth of our identity in Christ and to refuse our false, destructive selves that have been crucified with Christ. Filled with scriptural exegesis and practical illustrations that pastors and teachers will especially appreciate, this project is a refreshing application of Christology to anthropology and everyday life--an inspiring work of systematic theology aimed at systematic change.

**Screen Stories** Carl Plantinga, 2018-04-06 The way we communicate with each other is vital to preserving the cultural ecology, or wellbeing, of a place and time. Do we listen to each other? Do we ask the right questions? Do we speak about each other with respect or disdain? The stories that we convey on screens, or what author Carl Plantinga calls 'screen stories,' are one powerful and pervasive means by which we communicate with each other. *Screen Stories: Emotion and the Ethics of Engagement* argues that film and media studies needs to move toward an approach to ethics that is more appropriate for mass consumer culture and the lives of its citizens. Primarily concerned with the relationship between media and viewers, this book considers ethical criticism and the emotional power of screen stories that makes such criticism necessary. The content we consume--from television shows and movies to advertisements--can significantly affect our welfare on a personal and societal level, and thus, this content is subject to praise and celebration, or questioning and even condemnation. The types of screen stories that circulate contribute to the cultural ecology of a time and place; through

shared attention they influence what individuals think and feel. Plantinga develops a theory of the power of screen stories to affect both individuals and cultures, asserting that we can better respond ethically to such media if we understand the sources of its influence on us.
