

Older Woman Younger Man

Robin Lila (author)

Older Woman, Younger Man Randy Wallace, 2019-12-13 In my book, *How to Love an Older Woman* 50s, 60s and 70s, I talked about what a woman needs when she reaches these ages. Some of my female readers asked me about older women dating younger men. Some were thinking about dating but were skeptical and felt embarrassed about dating them. This book would help you see all the advantages of dating a younger man and all the things he has to offer; by reading this book will help to make up your mind. I am dating an older woman and the experiences that she had shown and taught me, I never would have learned from dating a younger woman.

Older Women, Younger Men Felicia Brings, Susan Winter, 2000 Despite famous couples, most older women have never been open to finding that special someone from the pool of younger men.

Younger Men Valerie Gibson, 1994-02 An experienced older woman, Valerie Gibson gives humorous and wise advice on meeting and keeping a younger man. To insure that no younger man can resist an older woman's charm and sophistication, there are chapters like *Out and About with Young Men* and *How to Meet His Mother When She's Only Five Years Older Than You*.

Better Together Nicola May, 2018-11-15 Jess is nearly 40 when she meets Dan Harris at a party. She is single, sorted, happy - with a great job and a buzzy social and sex-life. All of this is threatened when she falls deeply in love with Dan, who is only 23. Jess, being older, recognises this as the real, precious thing - but in his immaturity, Dan does not. Unable to cope with the stigma of being with an older woman, he eventually leaves her. Ten years pass... Jess, who is still gorgeous at 50, is married now, with a child of her own. They meet again. The years fall away. This time, Dan understands - but is it too late?

Romance in Post-Socialist Chinese Television Huike Wen,2020-07-13 This book is about how the representations of romantic love in television reflect the change and the dilemma of the dominant values in post-socialist Chinese mainstream culture. These values mainly center on the impact of individualism, consumerism, capitalism, and neoliberalism, often referred to as western culture, on the perception of romantic love and self-realization in China. The book focuses on how romantic love, which plays a vital role in China's ideologically highly restricted social environment by empowering people with individual choice, change, and social mobility, must struggle and compromise with the reality, specifically the values and problems emerging in a transitional China. The book also examines how the representation of romantic love celebrates ideals—individual freedom, passion, and gender equality—and promises changes based on individual diligence and talent while simultaneously obstructing the fulfillment of these ideals.

A Necessary Balance Lillian Alice Ackerman,2003 In the past, many Native American cultures have treated women and men as equals. In A Necessary Balance, Lillian A. Ackerman examines the balance of power and responsibility between men and women within each of the eleven Plateau Indian tribes who live today on the Colville Indian Reservation in north-central Washington State. Ackerman analyzes tribal cultures over three historical periods lasting more than a century--the traditional past, the farming phase when Indians were forced onto the reservation, and the twentieth-century industrial present.

Ackerman examines gender equality in terms of power, authority, and autonomy in four social spheres: economic, domestic, political, and religious. Although early explorers and anthropologists noted isolated instances of gender equality among Plateau Indians, *A Necessary Balance* is the first book-length examination of a culture that has practiced such equality from its early days of hunting and gathering to the present day. Ackerman's findings also relate to an examination of European and American cultures, calling into question the current assumption that gender equality ceases to be possible with the advent of industrialization.
